

To Sponsor a user on Guest Wifi.

In order to sponsor a user on Guest Wifi you must have an active university staff email account.

The user (eg; Joe Bloggs, with email j.bloggs@hotmail.com), will be required upon attaching to the guest network to supply his sponsors university email address.

When the user submits his request for access on line, you as sponsor, will receive an email to your university account with subject "Wireless access request from:j.bloggs@hotmail.com

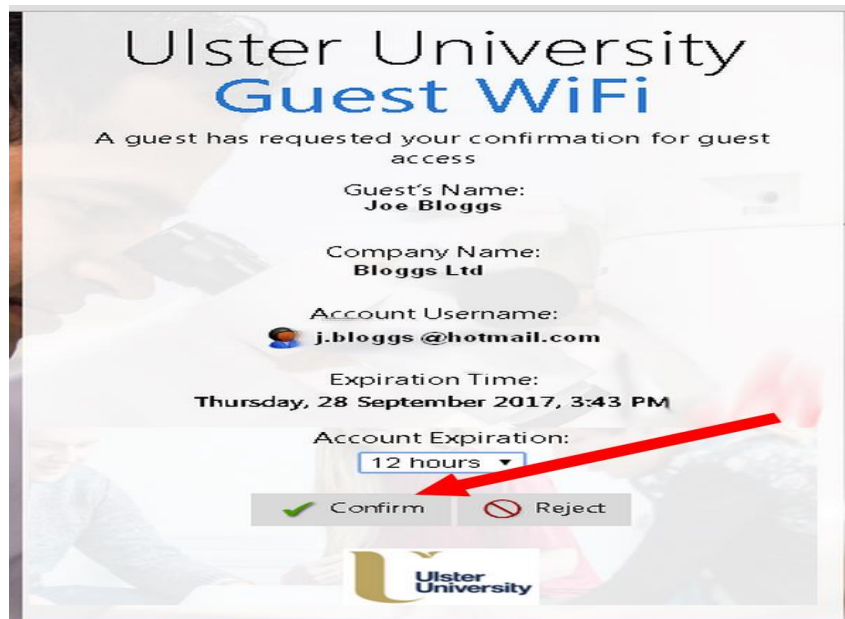

Step 1: In the body of the message
Select "click here" (highlighted in blue)

Step 2: Select account expiration duration

Step 3: Click to Confirm

Step 4: Finally "Click to enable account"
