

Eduroam SetUp for Windows10

To connect your Microsoft Windows 10 device to the Eduroam wireless network, you will need your Ulster University user ID and password.

1. Select the icon to access the internet from the task bar in the lower-right;

2. Select Eduroam from the list of available networks, click on Connect as shown; Note, you can select 'Connect Automatically' to default to this Network in future without repeating these steps.

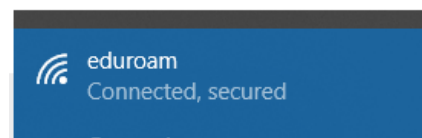

3. Now enter your staff or student credentials, note;
For students: bcode@sd.ulster.ac.uk
For staff: ecode@ad.ulster.ac.uk

You will be prompted to continue connecting. This will also allow your device to remember the Eduroam network and connect automatically in the future.

4. You are not successfully authenticated and will be connected to the Eduroam wireless network as shown. You will only be prompted for Eduroam in future should you change your password.
