Grassroots Transitional Justice Programme Eilish Rooney

In partnership with Bridge of Hope, Ashton Community Trust

Grassroots experience of conflict and transition is the main focus of this community based partnership programme. The *Transitional Justice Grassroots Toolkit* (2012) enables critical conversations on conflict experience and dealing with the past. Participants include ex-prisoner organizations, women's groups, civic society activists and academics. Insights from the local context speak to universal concerns with human rights, gender justice and peace building. Publications include, *Transitional Justice Grassroots Engagement* (2012), *Transitional Justice Grassroots Toolkit: User's Guide* (2014) and the *Grassroots Trainer's Manual* (forthcoming 2015). An educational programme for Toolkit trainers is planned.
