# Hello from Ulster University

Ulster University is extraordinary. We are a university that spans a region of great potential and great passion. At Ulster University, our students are at the heart of everything we do, and we want to give you the most rewarding student experience possible.

We are committed to the delivery of campusbased education. Learning, teaching, and research are social activities where people come together to create and share knowledge through collaboration and partnership.

We are committed to the creation and nurturing of interactive shared spaces where people can benefit from research and industry-led learning across each of our campuses.

The aspirations of our vibrant student community are met across our four sites, each offering a student experience unique to its location and subject areas. We are recognised for our outstanding impact on student outcomes due to the excellence of our committed teaching community; delivering a learning experience that develops skills, raises ambitions, and prepares future leaders.

We enjoy a national and international reputation for excellence in teaching and research, while simultaneously playing a leading role in the enrichment of the social, economic, and cultural life of Northern Ireland and beyond. We believe in equality; we celebrate diversity, and we foster inclusion. Through our critical role in fulfilling our global civic commitment and transforming lives, we are delivering Sustainable Futures for All.

This prospectus offers you a flavour of life at Ulster University; the unique student experience, the outstanding facilities on our campuses across Northern Ireland, and the supportive learning environment where you can pursue your ambitions. Whatever your aspirations, we want to give you the education experience to help you achieve them. We want you to enjoy everything that Ulster University has to offer, and we look forward to welcoming you.

With best wishes,

P. Bothdorew

Professor Paul Bartholomew Vice-Chancellor, and President

# Degrees designed with your career in mind

# Career-focused course design

Our expert course teams and employability consultants prioritise your future career success when designing your degree.

# Developing your future skills

Our courses are informed by world-leading research, ensuring you are gaining the future skills and industry knowledge you need to succeed.

# Informed by employer and industry partners

Our partnerships with local, national, and international employers and professional bodies ensure our courses provide the employability and specialist skills required for career success.

# Industry-recognised qualifications and accreditations

Our links with professional bodies ensure that appropriate qualifications and accreditations are an integrated part of your degree.

# Student-centred teaching

We deliver our courses in a way that supports the development of skills and knowledge, alongside the professional competencies needed to help you prepare for your future.

# **Real-World Experience**

Our regional, national, and international employer links mean that you can engage in opportunities to develop skills through real-world projects, placements and work experiences, both at home and further afield.

# **Engaging environments**

Our environments are designed to provide you with the richest possible student learning experience. Our spaces promote engaging and active learning to prepare you for your post graduation journey.

# **Ulster Graduate Attributes**

We are committed to delivering your degree in a way that makes sure you are career ready. Throughout your degree, you will have the opportunities to develop a diverse range of Ulster Graduate Attributes. We will help you become a thriving individual, engaged learner, collaborative professional and active citizen.

Throughout your learning journey at Ulster University, we will prepare you to develop your own professional networks and enhance your skills providing advice on CV writing, portfolios, and video interview or assessment centre preparations to support your ambitions and help your career readiness. Undergraduate Prospectus 24/25 #WeMakeItHappen

# Learning by doing

### How will I learn?

Active and collaborative learning is central to our learning and teaching practice at Ulster, and our innovative learning environments are designed to facilitate "learning by doing" and collaborating with peers both in and out of the classroom. We are an on-campus institution enhanced by the digital learning environment, and the opportunities this provides to elevate the learning experience for all our students.

We value the diversity in our students and our educators. As a result, you can expect to experience a range of teaching approaches throughout your course including: seminars, lectures, workshops, tutorials, group work, project-based learning, enquiry-based learning, and research-informed teaching, supplemented with self-directed study.

# Learning for your future career

You will develop the future skills and graduate attributes you need through work-based learning, placement opportunities, and embedded employability. You will also have access to wide-ranging extra-curricular activities through the Ulster EDGE and EDGE Excel Award.

### **Equipment and facilities**

You will learn in state-of-the-art facilities with industry-standard equipment. Our architecture super-studio, award-winning student-run restauran TV studios, financial trading room, laboratories, art workshops, on-campus optometry clinic, and model pharmacy are just some examples of how you benefit from our investment in facilities which mirror what you will experience when you start working.

# **Library services**

Each campus has its own library and students can access all facilities, no matter which location they are based at. There are designated quiet zones as well as collaborative spaces and learning areas. Take advantage of our 24-hour computer labs and printing services, and access eBooks and journals wherever you are. Our library staff are always willing to help you get the most out of our facilities.

### How will I be assessed?

Assessments at Ulster are designed to prepare you for life in your chosen career through coursework such as creating reports, working on real-world and live projects in teams, presenting, prototyping, and showcasing. Exams feature in some, but not all courses. Regular feedback is provided helping you to further develop your skills and knowledge, and to feed into future assignments and professional practice.

# Leaders of learning innovation

Ulster University is at the forefront of learning innovation with over 80% of our teaching staff holding fellowship of the Higher Education Academy. More than 30 of our staff have been recognised nationally for their outstanding impact on student outcomes and the teaching profession with National Teaching Fellowships.

Our work in the digital learning space is also nationally recognised with our Office for Digital Learning team receiving The Collaborative Award for Teaching Excellence (CATE) in 2022 showcasing how our innovative approach has had a demonstrable impact on teaching and learning.

Undergraduate Prospectus 24/25 #WeMakeItHappen

# Learning by doing

### We are committed to delivering industry relevant education taught by a staff of world-leading experts and practitioners.

We work closely with employers and professional bodies to develop our curriculum. This ensures our courses are relevant and, where possible, offer the professional qualifications and accreditations most desired by employers. This is even more important now as industries are transforming at an unprecedented speed and employers are actively seeking employees with the skills and competencies to lead, adapt, and inspire.

Name: Dr Debbie Rankin Position: Lecturer in Computer Science, Course Director MSc Data Science Faculty: Computing, Engineering and the Built Environment

How our course or learning space is designed to support learning by doing

Learning by doing is intrinsic in Computer Science, Information Technologies, Artificial Intelligence, and Data Science education. At Ulster, we have a range of state-of-the-art computer laboratories equipped with industry standard, commercially relevant hardware and software, which is key in enabling our students to develop their skills and expertise in areas such as software design and implementation, immersive software and data analytics. Our students spend a large proportion of their time in these laboratory-based learning spaces carrying out practical activities which are designed to provide an authentic and inclusive industry-inspired experience whilst fostering collaboration amongst staff and students. Our courses are designed in collaboration with industry partners to ensure our students get the right balance of theory and hands-on

experience to allow them to develop the technical and generic skills which are in high demand amongst employers.

# The direct impact of our learning by doing

Our students gain significant hands-on experience in the design and implementation of software for real-world challenges. Through this they develop strong problem solving and critical thinking skills and are encouraged to be creative and innovative in their approach, to ensure they can carry out software design and development tasks with confidence and good judgement in an industrial setting. Learning takes place in both individual and group settings ensuring our students develop crucial teamwork and communication skills. Our students have a rewarding learning experience whilst developing the skills employers seek.

As well as the benefits to students, employers see the direct benefits through the highly skilled and diverse graduates who enter the workforce. Our graduates are work ready as reflected in the high employability rates across our courses. They are equipped with the urgently required knowledge and skills needed to integrate into a commercial setting, which contributes to employers achieving their business goals.

How our course or learning space is designed to support learning by doing

Our commitment to learning by doing drives the teaching of our undergraduate and postgraduate courses. For those that want to progress to work in law following undergraduate study the LLM Access to Justice course offers an experiential learning environment with students working in our dedicated Law Clinic, providing free legal advice to the public, under the supervision of a solicitor. There is a growing amount of research demonstrating the educational benefit of taking a practical approach to the teaching of the law. The theory behind clinical legal education is that adults learn more effectively when they engage in practical experience alongside more traditional study in lecture theatres. In the LLM Access to Justice course students are supported to put legal theory into context by being exposed to real clients and ethical choices. Through the process of trial and error reflective skills are cultivated. On completion of the course students will have developed core legal skills including interviewing, negotiating, legal drafting, advocacy and advising.

# 

The direct impact of our learning by doing

Law modules generally, by their very nature, require extensive reading and writing skills, requiring students to assimilate large amounts of information and apply it to fictitious problems in an exam environment. The LLM Access to Justice course affords students the opportunity to participate in active learning thus facilitating deeper learning. Key employability skills, such as teamwork and collaboration, are nurtured. In addition, our students are provided with the opportunity to develop and practice their functioning legal knowledge in a digital environment, equipping them with the technological skills already incorporated into most law firms and legal advice organisations. The technology has the dual benefit of facilitating deeper learning of the law for the students whilst also exposing them to the role of technology in the legal sector and equipping them with key employability skills which in turn improves graduate outcomes. The law clinic serves the local Northern Ireland community by offering free legal support and advice in a range of areas, including social security, employment, family and commercial law. Improving access to justice and addressing unmet legal need is at the core of what we do. The clinic supports and collaborates with third sector organisations as well as legal professionals to address those aims.

Name: Paul Dickson Position: Course Director BSc **Business Studies** Faculty: Ulster University **Business** School

### 

How our course or learning The direct impact of space is designed to support our learning by doing learning by doing

With employability being at the fore in our teaching it is imperative that students get access to commercial and non-commercial organisations to help demonstrate the integration of theory and practice. Hence, numerous organisations get to come in and work alongside students to help answer some of the key questions they are facing. This is a two-way process, both students and companies benefit from this alignment.

Targeted guest lecturers are also brought in to showcase best practice. Our course content is formed from the views and opinions of industry to ensure we are at the cutting edge of what is required from graduates. We listen to external organisations and align our teaching to their needs. Students also get to practice the things they have been learning which in turn ensures the application is embedded. It's a win, win situation for companies and students. More recently we have witnessed the desire for additional digital skills from industry, which is why we added new modules to give students a broader portfolio of digital skills. Likewise, problem solving techniques with Design Thinking at the heart has also been added to the course. These are examples of how academia and practice can benefit each other.

Students are at the heart of what we do. Ulster University prides itself with its ability to produce work ready graduates. It is a well-known fact that it takes time to transition from being a student to working full-time. It is our commitment to make sure our graduates can make this transition in as short a time as possible. Placement is integral to this, and we have a strong network of organisations who take students year after year. These relationships help students get the necessary experience and gives them relevant discussion points at interview. This experiential learning is further developed with final year students expected to draw on their time in industry to answer pertinent industry related questions.

Catherine Hughes Position: Lecturer in Public Health Nutrition Faculty: Life and Health Sciences

### How our course or learning space is designed to support our learning by doing learning by doing

Food and nutrition are vital for health and play a key role in the prevention of disease thus this in Food and Nutrition, Dietetics, Human Nutrition and Sports and Exercise Nutrition. Our students are taught by academic staff based within the Nutrition Innovation Centre for Food and Health the largest nutrition research groups in Europe and is internationally recognised as a centre of excellence for nutrition education and research.

This cutting-edge research is at the core of our teaching ensuring that we deliver the highest under the expert supervision of NICHE staff, thus providing a window into the world of current food and nutrition research. Our courses are delivered in state-of-the-art facilities using innovative teaching methods and technologies to promote active scenarios. Students are also taught by a range of external experts, from the health service, food specific knowledge and perspectives to further enriching the learning experience. All our courses (BDA), Institute of Food Science and Technology, Association for Nutrition and the BDA Sports and Exercise Nutrition Register.

# The direct impact of

of our professional bodies; thus our external

The placement opportunities within our courses provide students with invaluable are workplace ready. During placement students their personal, professional, and transferable skills enhancing their career prospects.

As a result, our graduates are highly employable and pursue a diverse range of careers including and the agri-food sector.

Undergraduate Prospectus 24/25 #WeMakeItHappen

Comect Comect Coese Collaborate Ulster University is a leading digital learning innovator, introducing online and blended course delivery over 20 years ago. Since then, we have continued to transform and extend the technology available to students to engage and connect across all our campuses. Ulster University has received recognition for innovative and collaborative uses of digital learning with international and national awards.

### Accessible learning for all

We prioritise flexibility and inclusion to meet diverse needs; for example, learners access materials in the format that best fits their needs. These include ePub, Beeline, Tagged PDFs, Immersive Reader, mp3 audio files and more.

"I find the convenience of [the digital space] is ideal for learning and staying connected with both peers and lecturers." – Student

### Technology to help you succeed

To support learning, students have full access to the complete Microsoft Office365 suite of apps and a single digital space for learning materials. To further enhance the learning journey, a video streaming platform, live webinar and polling apps, and specialist systems for specific programmes are available to students.

Secure high-speed WiFi is available on all campuses, and all university student machines (such as those within libraries and labs) have high-speed wired connections. "The digital services offered by the university are really helpful. Everything I need is so accessible whether that's contacting my lecturers to accessing my academic calendar, learning materials and assignments online."

Angela Rillion Language and Linguistics

"The use of Office 365 provided by the University is really helpful because all my work syncs across my various devices (even if some are Apple and some Microsoft)." – Student

Your assessments will be submitted, marked and have feedback provided digitally. To best support your academic journey, we have a dedicated online writing provision for detailed feedback on any written submissions, available 24 hours a day, 365 days a year. In addition, dedicated digital support structures for students are available through email and direct telephone lines. Undergraduate Prospectus 24/25 #WeMakeItHappen

# Your career is our priority

Over 1,100 international companies have a presence in Northern Ireland across a variety of industrial sectors including information and communication technology; advanced manufacturing and engineering; and legal services.

At Ulster, we place employability at the heart of the student experience and provide all students with the opportunities and support they need to develop into highly employable graduates.

### **Get hired with Ulster**

At Ulster you can expect a degree with real-world experiences, preparing you to explore, identify and secure exciting career opportunities.

# Personalised service

Benefit from one-to-one specialist advice from our experienced, award-winning employability and careers team. Our Employability Advisor and Consultant teams offer impartial, informed advice and support for all students and graduates, accessible on-campus and online.

# Paid work experience, placements and internships

Access an extensive range of campus jobs, employer placements, internships and graduate jobs. Our one-to-one support will help you search for and secure the right opportunities.

Find out more ulster.ac.uk/employability

# Get an EDGE with employers

The Ulster EDGE Award will provide you with the perfect opportunities to boost your skills and confidence alongside your degree, receiving official recognition for the completion of accredited extra-curricular activities. From volunteering to leadership training, the EDGE Award gives you the EDGE in the job market.

# Connecting you with local, national, and international career opportunities

From connecting you with local placement employers to introducing you to our global network, you will have a range of opportunities to connect with key employers relevant to your degree area and career interests.

# Careers support after you graduate

The support doesn't stop once you graduate. You will have access to employability and careers support beyond graduation and especially as you continue in professional life and learning.

# Placements to build your career

# **Real-world learning**

At Ulster, over 2500 students annually engage in subject specific work-based experiences. Through these experiences you will put your knowledge into practice, build your professional network and begin your transition to post university life.

# Placements that work for you

We work with employer and professional body partners to co-design work-based experiences and placements that prepare you for the workplace of the future.

# 

# Opportunities at home and abroad

We will connect you with local, national and global employers who have placement opportunities at home and abroad. Students can explore and secure placements across the globe with recent placement destinations including USA, United Arab Emirates, New Zealand and Australia.

# Professional Placement Qualification

When you complete a paid placement year as part of your degree you will achieve the Diploma in Professional Practice or Diploma in Professional Practice (International). This ensures you are developing your skills and knowledge in a structured, subject specific and supported way. "My name is Rohith Mathew. I'm an undergraduate in my final year of International Hospitality management, studying at the stateof-the-art new Belfast Campus.

I completed my placement year at the Four Seasons, a leading global premium hotel brand. It was an invaluable year allowing me to experience what it's like to work at the top of the hospitality industry.

Following the completion of my placement year, I have been offered the opportunity to join the Four Seasons Manager-in-Training programme, after graduation.

Without the help of my lecturers and the University, none of these opportunities or experiences would have been possible."

Rohith Mathew International Hospitality Management

Our **Employability and Careers team** is here to support you before, during and after your placement: **ulster.ac.uk/employability** 

# Study, Work ©r Volunteer Abroad

#### $\bullet \bullet \bullet \bullet$

Find out more **ulster.ac.uk/goglobal** 

Follow our Go Global Adventures ulster.ac.uk/goglobal/stories The Global Opportunities team can support you in securing an enriching study, work, or volunteer placement across the globe.

There are opportunities to go abroad for a year, semester, or during the summer; every year, hundreds of Ulster students take the opportunity to travel! No matter what your degree choice, you can take advantage of time abroad while you're studying with us. We have links with over 200 institutions and our students have visited over 30 countries in Europe and across the world. Whether you choose to work, volunteer or study abroad, you will be making unforgettable memories!

- Semester or full-year study programmes. If you complete a full-year study abroad programme, you will receive a Diploma in International Academic Studies (DIAS).
- Academic summer schools at international universities including the USA, China and India.

Any student hoping to study or work abroad will undertake a travel preparation exercise, which will be reviewed and assessed for any potential risks. This exercise will ensure that you have foreseen any potential issues that may arise during your time abroad and considered ways of reducing these problems prior to leaving for your placement.

Over 200 institutions available worldwide for student exchange.

 $\bullet \bullet \bullet \bullet \bullet \bullet$ 

Here are our top five reasons to study abroad:

- Strengthen your existing skills and develop new ones
- Add value to your degree with different classes
- Encounter new cultures and gain life experiences
- Enhance your employability with new perspectives
- Improve your language skills

Undergraduate Prospectus 24/25 #WeBelieveInBrave

# World-class innovators

Every day our cutting-edge research and innovations are making a difference to thousands of people and their communities while developing the careers and industries of the future. You will be taught by worldclass researchers and academics whose advances and discoveries inform what we teach, giving you the expertise to address the real-world challenges of today.

Find out more **ulster.ac.uk/research** 

#### Name: Prof Assumpta Ryan Position: Professor of Ageing and Health

**Challenge:** It is estimated that 1 in 3 people born in the UK this year will develop dementia in their lifetime (Alzheimer's Research UK).

**Making a difference by:** My research looks at how best to support people living with dementia and the people who care for them, the experiences of people living with dementia and their carers before, during, and after the move to a care home, and the impact of technology on improving quality of life for people living with dementia and their families.

**Sharing knowledge:** The research we carry out at Ulster ensures our students are equipped with the most current knowledge and practices when providing care and support to people living with dementia and their families.

Make a difference by studying: BSc Hons Nursing (Adult)

#### Name: Dr Amy Burns Position: Senior Lecturer in Consumer Management and Food Innovation

**Challenge:** As much as 80% of new food and drink products can fail to be profitable within six months of being launched.

**Making a difference by:** My research explores all key areas for launching a successful food and drink product, including product development, sensory science, consumer insight, marketing, and nutritional evaluation.

**Sharing knowledge:** Our modules are made up of research expertise and are aligned with International industry partners to ensure students have considerable theoretical and practical expertise alongside academic knowledge that prepare them for careers in the field.

Make a difference by studying: BSc Consumer Management and Food Innovation.

### Name: Dr Síle Brennan Position: Reader of Hydrogen Safety

**Challenge:** Hydrogen will play a key role as we move towards netzero emissions we need to account for its unique properties to ensure it is handled safely.

**Making a difference by:** Research into the fundamental behaviour of hydrogen, particularly when there is a leak, how it spreads, or how fire behaves if the leak is ignited can be used by engineers to ensure inherently safer systems, and to develop and inform guidance and standards.

**Sharing knowledge:** An understanding of fluid mechanics, and heat and mass transfer is key to our research on hydrogen safety. In teaching I introduce students to the practical applications of my research in engineering and where the current challenges lie.

Make a difference by studying: BEng Civil Engineering

#### Name: Dr Leanne McCormick Position: Senior Lecturer in Modern Irish Social History

**Challenge:** By understanding the operation of Mother and Baby Homes and Magdalene Laundries in Northern Ireland and uncovering the experiences of those who spent time in these institutions, questions can be raised on if and who should be held accountable today.

Making a difference by: From my research and expertise in oral history testimonies I co-authored the report on Mother and Baby Homes and Magdalene Laundries in Northern Ireland, leading the Northern Ireland Executive to set up a public inquiry into these institutions.

**Sharing knowledge:** With my expertise in oral history interview skills, I draw on best practice to show students how to carry out interviews on sensitive topics and to follow the necessary policies and practices. I impart to students an understanding of how sensitive historical topics inform policy and can transform lives in the future.

Make a difference by studying: BA History

Undergraduate Prospectus 24/25 Life in Northern Ireland

# **Destination Ulster**

# There are so many great reasons to study in Northern Ireland

# A home from home

Northern Ireland is famed for being a friendly and affordable place to study, so whether you are coming to Northern Ireland for the first time, or have lived here all your life, you can be sure you'll enjoy one of the best student lifestyles in the world.

# Wallet friendly

Northern Ireland has one of the lowest student cost of living among UK regions (The National Student Money Survey 2021, savethestudent.org). Students studying in Northern Ireland enjoy low rents and affordable living expenses including inexpensive nights out.

# The great outdoors

You're never far away from an amazing experience in the great outdoors. From sea to mountain, there are lots of opportunities for surfing, canoeing, cycling, and hiking in some of the most beautiful countryside you will ever see.

# Arts and culture

Northern Ireland is as culturally rich as it is beautiful. We boast lots of free museums, festivals, music, and art, so you'll never be short of something to see and do.

# **Great food**

From local delicacies to international cuisine, every taste is catered for. Experience our local markets to taste food directly from our local farms and harbours or join the queue for the latest it-food.

# **Fantastic Nightlife**

Live music, affordable clubbing, a vibrant LGBTQ+ scene and friendly community make Northern Ireland a great place to enjoy a memorable night out and have 'great craic'.

# Connected

Northern Ireland is easy to get to, and easy to get around. The two main cities of Belfast and Derry~Londonderry are connected by road and rail, and there are plenty of ways to visit other areas of the country, Great Britain, and Europe.

# Parent and family friendly

There's plenty to do when your family comes to stay. Visit filming locations for popular TV shows like Game of Thrones, Line of Duty or Derry Girls, go to the Giant's Causeway World Heritage Site, stand in the spot where the Titanic was built, or relax and catch up over a leisurely meal.

1495 1495

# Life on campus

# Campuses you'll love

We are one University with three distinct campuses across Northern Ireland in Belfast, Coleraine, and Derry~Londonderry as well as our Jordanstown Sports Village. While each campus differs in size and has its own distinctive atmosphere, you can be sure that wherever you choose to study, you will have a fantastic student experience.

# Getting to Northern Ireland

With direct flights from over 40 destinations, and the international hubs of London and Dublin close by, Northern Ireland is easy to reach from anywhere in the world. Fast ferries running multiple times each day from the ports of Belfast and Larne will get you to Scotland and England, and Wales can be reached from Dublin.

Jordanstown Sports Village

Trains B: Belfast C: Coleraine DL: Derry-Londonderry J: Jordanstown Undergraduate Prospectus 24/25 Life at Ulster

# Campuses at the heart of your university experience

We are committed to delivering campus-based education through the creation and nurturing of vibrant campus spaces and communities. Alongside our significant investment in learning spaces and technologies, we are creating the social spaces to foster life-long friendships and communities. Whilst each of our three campuses have their own unique features, they are all guided by our commitment to unlock potential.

#### Our campuses are designed to:

- Deliver active learning experiences which mirror real-world industry facilities and technologies
- Promote peer-to-peer collaboration
- Support the learning styles of all, from quiet spaces to bustling studios
- Build learning communities that work alongside, and are inspired by, our research communities
- Provide access to digital equipment to support your studies, including laptops
- Create thriving, welcoming, and accessible social spaces, and environments
- Provide access to teaching and learning spaces for all

# One university, three campuses, open to all

Together, Derry~Londonderry, Coleraine and Belfast unite to deliver the Ulster University student experience. Each campus informs and inspires the learning and social experiences of its sister campuses. The most innovative features of our Derry~Londonderry and Coleraine campuses have inspired our Belfast teaching experience, which will in turn inspire future advances at both Derry~Londonderry and Coleraine.

The best bit, our campuses are open to all our students regardless of their home campus.

# Derry~Londonderry

This campus has been helping individuals to reach their full potential since 1865. From its foundation, Derry~Londonderry has championed the arts, culture, and society. Building on its spirit of creativity and helping others, our campus is also a high-tech hub for health and innovation. The diverse range of courses here include business, law, nursing, sport, music, drama, education, computing, and engineering.

# Belfast

Our largest campus is situated in the artistic and cultural centre of the city, the Cathedral Quarter. Incorporating the best of Derry~Londonderry and Coleraine, Belfast is a creative, innovative, and vibrant environment which has been designed as a 'campus community within a building'. The campus accommodates 15,000 students and staff who benefit from purpose-built active learning and research spaces, alongside social destinations.

# Coleraine

Our jewel on the north coast, our Coleraine campus combines the natural environment with world-leading teaching and research facilitiesboth in and out of doors. This campus is the epitome of active learning with clinics open to the public, a fully operational BBC newsroom, and the ultimate outdoor classroom, the Research Vessel Laconia. Courses at our Coleraine campus focus on health, the environment, hospitality, and communication.

# Belfast City Living •••••

# Living in Belfast

Delivering a full city university experience, our Belfast campus is located within Belfast's Cathedral Quarter, the bustling cultural centre of the city.

Belfast is a relatively small city, so you'll find it easy to get around on foot. Designed for sustainable travel, the campus can be easily accessed from the surrounding neighbourhoods via foot, bike, public transportation, or road links to towns throughout Northern Ireland.

# 

### ...by train

Derry~Londonderry 2hrs 10mins Coleraine 1hr 30mins Newry 1hr Dublin 2hrs Belfast's history, present and future is captured from each window of our new campus building. Belfast's architecture is an eclectic mix of industrial buildings,

homey terraces, family homes and a couple of skyscrapers. Belfast is an area of outstanding natural beauty and is peppered with, and surrounded by, parks and outdoor spaces.

Described as one of Europe's most hip, vibrant and affordable cities (The Complete University Guide 2022), Belfast is home to a bustling social and cultural scene, both in and out of doors. Our love of food, music and craic is synonymous with Belfast, bringing millions of visitors to the city each year.

# Jordanstown **Sports Village**

The Jordanstown Sports Village is a hub for sport in Northern Ireland, and home to the University's worldclass indoor and outdoor facilities.

From elite athlete performance support, club training, research-backed sports education, and a host of local, national and international sports competitions, you'll find a hive of activity located just seven miles from our Belfast campus.

The Jordanstown Sports Village also offers students quality accommodation with a focus on student wellbeing, offering a quiet, green, low-rise location close to the Belfast Loughshore and village shops.

# Be part of 'Team Ulster'

Whether you want to play social or competitive sport, you can join one of our 70+ clubs to make memories, break records, and be part of something special during your time at Ulster. From sub-aqua, canoeing, mountaineering, Taekwondo, Gaelic football and rugby, to boccia, adapted and wheelchair basketball we have loads of sports you can learn, play in and compete with.

# **Performance Sport**

At Ulster University we are passionate about performance and helping people fulfil their potential. We have tailored student support programmes to increase performance levels of individuals and teams, to maximise competitive success and enhance your student experience at Ulster University.

# Talented Athlete Entry Scheme

We understand the dedication and commitment it takes to compete at the highest level. Long hours of training, intense regimes and competitions can sometimes mean a sacrifice in examination performance. Our Talented Athlete Entry Scheme is designed to support and nurture aspiring athletes by reducing the entry grades required for full-time undergraduate courses.

# **Fantastic Facilities**

Whether you are an athlete or a complete beginner, everyone can benefit from our excellent sporting and gym facilities at affordable student rates. Choose between unlimited full annual membership and pay-as-you-go options at each campus. Our sports centres have it all, including state-of-the-art fitness studios, a wide range of classes, and multi-sport indoor and outdoor facilities, all supported by fully trained fitness staff.

Find out more ulster.ac.uk/sport ulster.ac.uk/taes uusu.org/get\_involved/sports

We are a member-led organisation, ran by students for students and led by a team of seven elected student officers. We represent the student population within the University, locally and regionally, ensuring your voice is always heard.

# How do we support you?

- In partnership with your University we have a valued and responsive structure of academic representation.
- Course, School, Department and Faculty Representatives all work to resolve the day to day issues you may hit at the earliest possible opportunity.
- Students elected to Student Council represent the collective student opinion on everything impacting your learning experience.
- The UUSU Advice Bureau team provide a free, confidential, independent advice service to students who need support on academic, housing or wellbeing issues.

# **Your Student Destination**

You can access all the benefits of your membership of UUSU at our three campus locations or online at **UUSU.org**.

# How you can support others? Sports for fitness and fun

If elected to Student Council, you can use your voice to set our direction and campaign for the change you want to see on and off campus.

# **Your Student Destination**

You can access all the benefits of your membership of UUSU at our three campus locations or online at **UUSU.org**.

# Find your tribe with UUSU Societies

We have over 100 student-led societies across all our campuses. They are a great way to meet new people or try something new. They also give you valuable experience and skills to enhance your CV.

If you have a specific interest or passion, we can help you set up your own society!

# Join the Party

From registration to graduation, our activities team give you plenty of opportunities to socialise both on and off campus. They put on student nights, comedy gigs, acoustic sessions, and can help you create your own events. Benefiting from Ulster University's sports facilities, UUSU have over 70 sports clubs and teams, including Disc Golf, Sub Aqua, Squash, Golf, and Taekwondo. You can get involved in sport at any campus, it doesn't have to be the campus where you are studying.

Once you register

to study with us, you automatically become a member of the

**STUDENTS' UNION** 

# **Volunteer with UUSU**

We work closely with several external organisations to deliver exciting and rewarding volunteering opportunities during your time at Ulster.

"Hove being involved as much as possible with university life from being a student mentor and campus navigator to running the dance society with my best friend. My aim is to participate in as much as possible and take every opportunity given to me during my final year here at university."

Stephanie Lindsay Fine Art

# 

University life is exciting and we know you will experience a big change with new studies, new living situations, and new friends. We are here so that you can enjoy life at Ulster University to the fullest and have the best student experience possible.

# **Campus life**

We offer lots of ways for you to connect with others, get active, learn new things, and settle into university life, along with giving you the opportunity to help fellow students. We find that these experiences help you to have a healthy, productive, and enjoyable time at university. Our Student Wellbeing team is always on hand to offer free, professional, confidential, and accessible services in a number of areas.

# Your mental health and wellbeing

Student life can bring its own challenges, but the Student Wellbeing team is here to help you get through them and achieve your goals. We can provide free and confidential advice and support for all types of concerns, including dealing with stress and anxiety, motivation, relationship issues, and self-care. We want to help you take good care of yourself during your time at UU, both physically and emotionally, so if you have any concerns, we are here for you.

UU students can also access free and confidential counselling support from our counselling provider, as well as having access to a 24 hour counselling helpline and an online support hub. Contact Student Wellbeing for more information.

# **Disability support**

If you have a disability or additional study needs such as dyslexia, ASD, a mental health condition or long-term illness, the Student Wellbeing team can provide you with support to access reasonable adjustments to help with your studies, as well as guidance on any additional funded disability support available to you. If you are from NI/GB, you may be eligible to apply for Disabled Students' Allowance through Student Finance which will pay for assistive technology software and/or equipment, as well as non-medical help support providers. Please disclose your condition in your application to study, or by contacting Student Wellbeing directly, so we can work with you to meet your needs.

## **Money matters**

If you are concerned about your finances as a student, contact the Student Wellbeing team and we can help you develop a budget and manage your money so you can live within your means while studying. We can also provide guidance and information on other student money concerns such as accessing student loans, bursaries, and access to financial support.

"It is quite daunting and scary to return to education as a parent in normal circumstances, but even more so with the added pressure of the pandemic. I reached out to my tutors and staff in the Ulster University Law Clinic and I'm so glad that I did. They were understanding and supportive in helping me manage my workload. This, along with my love for this subject, really helped me persevere."

really helped me persevere." Melanie Grimsley Access to Justice

Undergraduate Prospectus 24/25 What parents need to know

# Support for parents and guardians

We understand that this can be an exciting but challenging time as you prepare your child for their next chapter. We want to let you know that we are here to support you through every stage of your research, application, and hopefully future enrolment at Ulster.

# A guide for parents and guardians

We have created a useful guide to walk you through the process of what to consider when choosing university, and critical milestones and dates.

#### Key areas covered:

- Is university right for them?
- · Choosing the best university for your child
- Fees and finance
- Applying to university
- Is Ulster University the right choice for your child?

# How we support pupils and schools

Working with Careers Teachers and Principals, we have a team of recruitment officers who visit local schools to provide careers and university advice from Year 10. As your child enters Year 13, we are on hand to offer advice on how to complete their application, including personal statements.

# Meet us

Throughout the year, we run a series of events where you can experience life of Ulster. You can find out more at **ulster.ac.uk/events** 

# Helping them to uncover their passions

Our Schools Outreach Academy is a Virtual Learning Environment which enables pupils from Year 8 to Year 13 to explore subject areas with fun, interactive sessions.

# Before you apply

#### **Open Days**

• Your introduction to Ulster University, our course and support teams

#### **Course Events**

 An opportunity to delve deeper into courses and what life is like studying and living at Ulster

# Once you receive your offer

Applicant Events - Your chance to learn more about your course and what your day-to-day life at Ulster could be.

# Support for international students

Ulster welcomes international students from over 70 countries across the globe. Our dedicated web pages for international students explain everything you need to know about applying and studying at Ulster and living in Northern Ireland.

### We're here to help

Our office for Global Engagement will support you through the application process and throughout your time at Ulster University.

### Help during your application and before you arrive

As you work through your application, we are here to help answer your auestions on:

- Academic entry requirements and equivalence English language requirements including acceptable tests
- We also hold regular webinars on applying to UU

#### Once you have accepted your offer from Ulster, we are here to help you plan your arrival.

- Accommodation and where to live
- Pre-arrival information including how to get here

# Free and confidential immigration advice

Our Compliance Team is here to help with visa and immigration requirements before and during your studies with us.

- Student visa
- Extending your visa

ulster.ac.uk/global/visa-immigration

### Welcome Week

When you first arrive in the UK, you may be unfamiliar with aspects of life and study in the country. The aim of Welcome Week is to provide you with this information, as well as the opportunity to meet other new international students. More information will be available online closer to the event.

#### We're here to help you settle into university life and living in Northern Ireland.

- Pick-up service from local airports
- Information sessions
- Meet the academic teams and support staff
- Social events

ulster.ac.uk/global/pre-arrival

# Visit our international web pages for details on:

- Dates when Ulster staff may be visiting your country
- Advice on visa and immigration matters, working in the UK and other key issues
- Accommodation
- English language support
- Fees, funding, and international scholarships

Accounting (Pathways)	U N4
BSc Hons	Be
Full-Time	

3 year FT degree or 4 year with placement year

Our Accounting Pathways degree is uniquely designed so that you can learn the core principles of accounting with the opportunity to specialise in those areas most required by the fast-growing Professional Services industry: forensic services, financial economics, or management.

#### I Will Learn

- Financial accounting and the concepts underpinning corporate financial reporting; management accounting and how the management accountant can facilitate business decision-making.
- The broader context of the economy and an understanding of key principles including accounting law, taxation, corporate finance, governance, risk, and ethics.
- A tailored curriculum resulting in a final degree in Accounting, Accounting (Forensics), Accounting (Financial Services), or Accounting (Management Consulting).

#### **Real-World Experience**

- Tackle real-life projects using Bloomberg industry software, imitating the type of work you will encounter when you araduate.
- Our course has been designed with industry leaders and is taught by professionals with specialist and alobal experience, and links to key employers.
- Apply your knowledge in the workplace or a new economy through optional one-year work placement or study abroad programme.

#### **Career Opportunities**

- Professional Accountant Management Consultant
- Tax Advisor Business Analyst Auditor
- Forensic Accountant

You must complete professional body exams to become a professional accountant. This degree can give you the maximum exemptions possible.

#### Why Ulster?

Accredited by Chartered Accountants Ireland, Association of Chartered Certified Accountants, Institute of Chartered Accountants in England and Wales, and Chartered Institute of Management Accountants.

#### **Full-Time Entry Requirements**

Refer to the University's General Entrance Requirements. A Level: BBB or BBC\*

\*if including one of Maths, Economics, Physics or Accounting.

GCSE: Specific subject(s) required at GCSE. Please refer to the online prospectus at ulster.ac.uk for the full list.

Learn from highly experienced practitioners and academics within specialised facilities equipped with industry-standard 2D and 3D software.

Architectural Engineering	UCAS J1H1	Architectural Technology and Management
BEng Hons/MEng Hons	Belfast	BSc Hons
<b>Full-Time</b> 4 year FT dearee or 5 year with placement year		Full-Time/Part-Time 4 year FT degree with placement year

Learn how zero carbon/low energy engineering creates sustainable, safe, healthy and comfortable internal building environments. The award-winning BEng/MEng Hons Architectural Engineering programme has been designed for innovative individuals with an interest in how buildings work. The course aims to meet the increasing demand for skilled engineering graduates with the expertise and knowledge to deliver energy conscious and environmentally sustainable solutions for buildings.

#### I Will Learn

- An understanding of the total building concept through an integrated design approach.
- The design of heating, cooling and ventilation systems for buildings, electrical and energy supply, and water supply and disposal.
- How to create zero carbon/low energy, healthy buildings, fit for tomorrow's society.

#### **Real-World Experience**

- You will complete a placement year to give you valuable experience of working within a building design setting.
- Our research expertise and close relationships with major employers means our course content is relevant to the industry.
- Practical lab and project work give you the chance to replicate real-world building design.

#### **Career Opportunities**

- Design Engineer Facility Manager Design Consultant
- Project Engineer Energy Manager
  - Research Engineer

#### Why Ulster?

Accredited by the Chartered Institution of Building Services Engineers (CIBSE) and the Energy Institute (EI).

#### **Full-Time Entry Requirements**

Refer to the University's General Entrance Requirements.

A Level: BBC or BCC\* \*if including one of Maths, Further Maths or Physics.

Specific subject(s) required at A Level. Please refer to the online prospectus at ulster.ac.uk for the full list.

Providing the 2 subject requirement is met, applicants may satisfy the requirement for one of the A Level grades (or equivalent) by substituting a combination of alternative qualifications recognised by the University.

GCSE: If not offering A or AS Level Maths, a GCSE Maths Grade B/6 GCSE is required.

Architectural technology is the technical side of architecture, focusing on the science and performance aspects of building design. The course provides a broad knowledge base of building design including materials, building technology, heating, lighting, acoustics, statutory requirements, and diaital construction.

#### I Will Learn

- How to design efficient and effective buildings that perform and endure over time.
- The theory and practice related to Building Information Modelling (BIM) and emerging digital construction nrocesses
- The roles and responsibilities of architectural technology professionals in a complex sector.

#### **Real-World Experience**

- A work placement year gives you the chance to see how the theory is applied in industry.
- Technical design, problem solving, industry-led assianments, and studio, laboratory, and field work.
- Final year research and design projects give you the chance to focus on issues which are highly relevant to the modern construction industry.

#### **Career Opportunities**

- Architectural Technologist Design Manager
- Digital Construction Roles (BIM) Low Energy Designer
- Specialist Technical Roles Project Management

#### Why Ulster?

We are ranked 3<sup>rd</sup> in the UK for Building (Complete University Guide, 2023). Accredited by the Chartered Institute of Architectural Technologists (CIAT).

#### **Full-Time Entry Requirements**

Refer to the University's General Entrance Requirements. A Level: BBC

Specific subject(s) required at A Level. Please refer to the online prospectus at ulster.ac.uk for the full list.

Providing the subject requirement is met, applicants may satisfy the requirement for one of the A Level grades (or equivalent) by substituting a combination of alternative qualifications recognised by the University.

GCSE: Specific subject(s) required at GCSE. Please refer to the online prospectus at ulster.ac.uk for the full list.

### Refer to the University's General Entrance Requirements.

#### A Level: BBC

Applicants may satisfy the requirement for one of the A Level grades (or equivalent) by substituting a combination of alternative qualifications recognised by the University.

GCSE: Specific subject(s) required at GCSE. Please refer to the online prospectus at ulster.ac.uk for the full list.

For applicants without GCSE Art and Design at grade B or higher, a portfolio will be required.

#### Art and Desian UCAS (Foundation Year for Specialist Degrees) Diploma Belfast **Full-Time** 1 year FT

Learning from core and specialist tutors, this one-year intensive, practice-based programme explores a range of art, design, and digital design approaches and disciplines to enable an informed subject choice for undergraduate degree pathways.

#### I Will Learn

- A range of practical, academic, and research skills across art, design, and digital design discipline areas.
- To explore drawing from many different approaches including drawing from life, alternative means of drawing and making, and interpreting visual information from many sources.
- How to research and become a critical thinker, examining history, theory and contemporary practice, informing chosen studio practice specialism.

#### **Real-World Experience**

- Participate in specialist skills workshops and contextual seminars exploring the role of art, design, and digital design in the world around you.
- Showcase your work at the end-of-year show to an audience including our network of national and international professional bodies.
  - Art/Design Writer
  - Designer

to related undergraduate art and design degree courses at Ulster.

#### Why Ulster?

A Level: CC

The Belfast School of Art has an enviable track record of award-winning students including three Turner Prize winners.

Artificial Intelligence	UCAS GA50	Biology
BEng Hons	Derry~Londonderry	BSc Hons
Full-Time/Part-Time 4 year FT degree including place	ement year	<b>Full-Time</b> 3 year FT degree or 4 year with placem

Artificial Intelligence (AI) can bring major social and economic benefits by automating tasks currently done by humans in sectors like health, finance, and manufacturing. Employers need skilled AI professionals to work in this exciting and fast-developing field.

#### I Will Learn

- The theory and principles of AI, which include computer science, mathematics, programming, and software engineering.
- Programming languages to produce AI and machine learning algorithms.
- How to analyse problems, reason a solution, and represent the knowledge using suitable AI methods and techniques.

#### **Real-World Experience**

- You will complete a one-year placement within the IT sector to learn how to apply and develop your knowledge.
- Our team are leaders in the field of AI for over 25. years, which brings vast industry experience through to our teaching.
- Practical projects and lab work are key elements to the delivery of the course, studying real-world case studies.

#### **Career Opportunities**

- Data Scientist Software Developer
- Business Intelligence Analyst Al Research Scientist
- Machine Learning Engineer Systems Analyst

#### Why Ulster?

Ulster is a leader in the field of AI research for over 25 years. This expertise is brought through to our teaching.

# UCAS Coleraine ment year

As a biologist, you will study life, living organisms, how they work, and their relationship to their environment. Our course covers core areas of biology with a focus on the biomedical, molecular, and environmental sciences.

#### I Will Learn

- About human, animal and plant physiology, veterinary biology, chemistry and biochemistry, as well as cell biology.
- About genetic defects that contribute to human disease, advances in molecular genetics and the human genome project.
- About the underpinnings of ecology and biodiversity and how these important areas influence global issues.

#### **Real-World Experience**

- Apply your knowledge in the workplace by taking an optional placement year.
- Opportunity to complete a MBiolSci Hons which involves one extra year of study consisting of online modules and an internship.
- Hands-on practical projects, laboratory work and field trips.

#### **Career Opportunities**

- Pharmacologist Biologist
- Research Scientist Ecologist
- Graduate medical/veterinary entry
   Teacher

A PGCE is required if you want to move on to a teaching role. Graduate medical/veterinary entry requires further application.

Create delicious dishes and learn the management skills needed for a vibrant global career. This course combines practical culinary skills with business and management knowledge. Experiment with flavour whilst learning how to manage people and let your entrepreneurial skills shine.

#### I Will Learn

- Culinary skills in the kitchen, creating pastry masterpieces and flavourful dishes.
- The business and management skills required for the industry including how to create a business plan, and marketina.
- How to manage food and beverage operations.

#### **Real-World Experience**

- One of a few courses at university level that offers learning in a fully operational restaurant 'Academy'.
- Get invaluable industry experience with a placement year. Includes visits and talks from industry leaders and
- award-winning chefs.

#### **Career Opportunities**

- Head Chef Restaurant Owner/Manager Food Entrepreneur
- Development Chef
- Food Stylist

#### Why Ulster?

Get taught in our fully operational Academy restaurant. This course is accredited by the Institute of Hospitality.

UCAS Coleraine placement year

Dietetics involves the study and application of nutrition science to promote health, as well as to prevent and manage diseases such as obesity, cancer, heart disease, and osteoporosis. As a dietitian, you will be uniquely qualified to assess, diagnose, and treat nutrition-related problems in both health and disease.

#### I Will Learn

- About nutrition science, the nutrients in food, and the effect of nutrition on health
- About the role of the diet in the treatment of disease and how to identify and treat nutrition-related problems.
- Skills in communication and empathy, and how to share professional, impartial advice on nutrition-related problems.

#### **Real-World Experience**

- Practice-based learning experience in the NHS in final year.
- The course is delivered by academic staff who are based within the Nutrition Innovation Centre for Food and Health (NICHF)

#### **Career Opportunities**

- Hospital Dietitian Food Developer Community Dietitian Freelance Dietitian
- Research Dietitian Teacher/Education

A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

#### Why Ulster?

Accredited by the British Dietetic Association (BDA) and approved by the Health and Care Professions Council (HCPC). On completion, you are eligible to apply for registration as a dietitian with the HCPC.

#### **Full-Time Entry Requirements**

Refer to the University's General Entrance Requirements. A Level: BBB

Specific subject(s) required at A Level. Please refer to the online prospectus at ulster.ac.uk for the full list.

CAS 231

## 3 year FT degree

An exciting and diverse programme with an emphasis on contemporary performance practices and educational arts, this degree will develop your creative, critical thinking, and practical skills in the specialist areas of performance, arts management, directing, and drama for education.

#### I Will Learn

- The fundamentals of drama including acting, stage management, dramatic theory and practice, applied and educational drama, directing, and playwriting/ screenwriting.
- Practical skills to run a performance event, plan an educational workshop, and use a range of technologies.
- The role and future of contemporary arts, arts administration, entrepreneurship, and the business of theatre.

#### **Real-World Experience**

- Access to studio spaces to produce, practice, and critique performances replicating real-life industry job roles.
- Close links with theatre practitioners and theatre companies for performances and specialist workshops.
- Optional placement in second year and opportunities to study abroad.

#### **Career Opportunities**

- Teacher Actor
- Director
   Events Management
   Graduate Roles
- A Postgraduate Certificate in Education (PGCE) is required if

you want to move on to a teaching role.

#### Why Ulster?

This course received 100% student satisfaction in the National Student Survey 2022.

#### **Full-Time Entry Requirements**

Refer to the University's General Entrance Requirements. **A Level:** CCC

Applicants may satisfy the requirement for one of the A Level grades (or equivalent) by substituting a combination of alternative qualifications recognised by the University.

#### Drama with Subject Combinations

#### Drama as a Major

With Drama as two-thirds of your degree, you will develop creative, critical, and practical skills in performance, directing, arts management, or educational arts.

Drama	UCAS	
with Education	W4X3	
BA Hons	Full-Time	

#### Why study Education as a Minor?

- An excellent introduction to a future career path in the education sector, both in schools and training.
- Study main concepts and concerns of contemporary educational theory and practice before applying for a Postgraduate Certificate in Education upon completion of your degree.

Drama with History		UCAS W4V1
BA Hons	Full-Time/I	Part-Time

#### Why study History as a Minor?

- History at Ulster gives you the freedom to choose the topics that interest you most.
- You will develop a wide range of written, verbal, and analytical skills through the study of the historical processes that have shaped modern society.

Drama	UCAS
with Irish	<b>W4Q5</b>
BA Hons	Full-Time

#### Why study Irish as a Minor?

- Develop core language skills through Irish language and culture modules whilst exploring acting and directing.
- Develop important analytical, practical, and communication skills for opportunities in the Irish language creative industries.

## Entry Requirements

#### A Level: CCC

Applicants may satisfy the requirement for one of the A Level grades (or equivalent) by substituting a combination of alternative qualifications recognised by the University.

Drama	UCAS	
with Marketing	W4N5	
BA Hons	Full-Time	

#### Why study Marketing as a Minor?

- Learn key marketing principles including business analytics, consumer behaviour, marketing management, and digital strategy and communications.
- You will apply your knowledge to live industry projects and real-world case studies.

Drama	UCAS
with Music	W4W3
BA Hons	Full-Time

#### Why study Music as a Minor?

 Through optional modules, you can explore musicology across several musical genres and develop your composition skills and portfolio, including composing and producing large-scale pieces of music. Economics UCAS 6H55 BSc Hons Belfast Full-Time

3 year FT degree or 4 year with placement year

Economics relates to every aspect of our lives as it focuses on how resources are allocated to satisfy people's wants and needs. This course will cover the practical application of economics to finance, policy-making, and management.

#### I Will Learn

- Microeconomics the study of how people, groups, and businesses use their wealth.
- Macroeconomics the unemployment, inflation, and monetary challenges of cities, countries, and continents.
- The economic and political theories that influence economic policies and how we work and live locally, nationally, and globally.

#### **Real-World Experience**

- Get access to the university's Economic Policy Centre for practical application and expert research.
- Course content has been designed to focus on practical skills that are in high demand by the current marketplace.
- Choose a placement year to build up work experience for your CV.

#### **Career Opportunities**

- Accountant
  Data Analyst
  Economist
  Risk Consultant
- Stockbroker
   Compliance Officer

#### Why Ulster?

Our graduates now work in some of the top firms including Citi, Deloitte, FinTru and PwC.

Education with Digital Learning	UCAS <b>X320</b>
BSc Hons	Coleraine
Full-Time/Part-Time 3 year FT degree	

The growth in digital learning and teaching is fuelling demand for education and training professionals. This innovative course provides the skills and knowledge needed to design and deliver digital learning platforms for children, young people, adults, and employers.

#### I Will Learn

- Theory and practice of education design for a digital world, including remote teaching and learning, and delivery of online courses.
- Current issues and debates in education, exploring educational research with a particular focus on social, digital, and cultural challenges.
- How to facilitate effective learning environments; the digital classroom, curriculum design, lesson planning, peer teaching, and classroom interaction.

#### **Real-World Experience**

- Gain hands-on experience in an education setting with a semester long placement opportunity in year two, in Northern Ireland or abroad.
- The professional and personal development module prepares you for the world of work; you will create an e-portfolio to showcase your skills and experience.
- Benefit from close links with e-learning start-ups, business organisations, NGOs, and schools across the region.

#### **Career Opportunities**

- Learning Technologist • Digital Learning Developer
- Outreach Officer On-line Teacher
- Education Advisor • Lecturer in Higher Education

A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

#### Why Ulster?

You will benefit from over 20 years of digital learning experience at Ulster University.

#### **Full-Time Entry Requirements**

Refer to the University's General Entrance Requirements. A Level: BCC

Applicants may satisfy the requirement for the A Level C grade (or equivalent) by substituting a combination of alternative qualifications recognised by the University.

#### **Education with Subject Combinations**

#### **Education as a Minor**

An excellent introduction to a future career path in the education or training sector. You will be introduced to the main concepts and concerns of contemporary educational theory and practice in Northern Ireland, the UK, and internationally. Students who are interested in teaching as a career may decide to add Education to their degree 'mix' at undergraduate level before applying for a Postgraduate Certificate in Education after they have completed their degree. We are a UNESCO chair/UNESCO centre with Internationalised curriculum.

#### **Full-Time Entry Requirements**

Refer to the University's General Entrance Requirements. A Level: BCC

Grade requirements may vary depending on combination chosen. Please refer to the online prospectus at ulster.ac.uk for the full details.

## **Electrical and Electronic Engineering BEna Hons**

Derrv~Londonderrv

Full-Time/Part-Time 4 year FT degree including placement year

From household appliances to power stations and satellite networks, electrical and electronic engineers develop innovative products and systems. Study the principles of modern electronic and electrical systems such as smart power grids, PLC programming, circuit design, and embedded systems.

#### I Will Learn

- Electrical and electronic engineering principles and how they apply to electrical systems.
- Engineering mathematics and science, electrical systems, electrical circuits, electrical technology, design, and computer-aided engineering skills.
- · How to prepare project specifications, undertake research, create test procedures, interpret data, and write reports.

#### **Real-World Experience**

- Complete a one-year work placement in industry, working with an employer in the field of electrical or electronic engineering.
- Option to study abroad for one year to get experience of enaineering education in another country.
- Laboratory facilities and equipment on campus will provide you with practical experience through project work and demonstrations.

#### **Career Opportunities**

- Electrical Engineer Power Systems Engineer
- Manufacturing Sector Control Engineer Renewables Sector
  - Electronic Devices

To become a Chartered Engineer, you will need to continue your studies and complete a Masters in an Engineering subject.

#### Why Ulster?

The course is accredited by the Institution of Engineering and Technology (IET).

#### **Full-Time Entry Requirements**

Refer to the University's General Entrance Requirements. A Level: BBC or CCC\*

\*if including one of Maths, Further Maths or Physics.

Specific subject(s) required at A Level. Please refer to the online prospectus at ulster.ac.uk for the full list.

GCSE: Specific subject(s) required at GCSE. Please refer to the online prospectus at ulster.ac.uk for the full list.

UCAS **H602** 

Every device with an electrical current running through it has been designed, built, and manufactured by electronic engineers. They work closely with product designers, manufacturers, and consumer experts to develop ideas for new products and to make them work.

#### I Will Learn

- The fundamental principles of electrical and electronic technologies and their practical application.
- To design, build, and manufacture a wide range of electrical devices.
- To apply electronics to many areas, including power generation and control, transportation, IT, manufacturing, construction, and telecommunications.

#### **Real-World Experience**

- A one-year work placement provides important real-world context for your studies and gives you relevant industrial experience.
- Employers have helped us to create the content, meaning you will be learning the skills that the industry needs.
- You will conduct experiments and undertake practical laboratory-based projects throughout the course.

#### **Career Opportunities**

- Electronic Engineer Sound Engineer
- Communications Technician Special Effects Technician
- Design Engineer Systems Analyst

The BEng fully meets the academic requirement for becoming an Incorporated Engineer, and partial requirements for a Chartered Engineer.

#### Why Ulster?

This course is accredited by the Institution of Engineering and Technology (IET).

## **Electronic Engineering MEna Hons** Belfast **Full-Time** 5 year FT degree including placement year

UCAS **H600** 

Electronic engineers are the brains behind driverless cars, the iPad, video conferencing, and the microwave oven to name a few. The MEng gives you the technical and project management skills you need to succeed in engineering graduate employment.

#### I Will Learn

UCAS **H601** 

- To design, build, and manufacture a wide range of electrical devices.
  - To apply electronics to many areas, including power generation and control, transportation, IT, manufacturing, construction, and telecommunications.
  - To work with product designers, manufacturers and consumer experts to develop ideas for new products and make sure they work.

#### **Real-World Experience**

- A one-year work placement provides important real-world context for your studies and relevant industrial experience.
- The option to spend a semester at Augsburg or Kempten Universities in Germany gives an insight into engineering abroad.
- Specialising in the final year, you will work on real-world case studies and projects relevant to your chosen interest.

#### **Career Opportunities**

- Embedded Systems Engineering Electronic Engineer
- Design Engineer Sound Engineer Systems Analyst Special Effects Technician

The MEng fully meets the academic requirement for becoming a Chartered Engineer.

#### Why Ulster?

This course is accredited by the Institution of Engineering and Technology (IET).

Electronic Engineering with Enterprise Development	UCAS <b>H603</b>	Energy
BEng Hons Derry~Los	ndonderry	BSc Hons
Full-Time 4 year FT degree including placement year		Full-Time/Part-Time 4 year FT degree including

Electronic engineers help develop and design mobile phones, TVs, and smart fridges - in fact, any innovative piece of technology you can think of. This degree prepares you to become a professional engineer, making your ideas a reality.

#### I Will Learn

- An understanding of fundamental electrical and electronic engineering principles.
- How modern technologies work, from household appliances to power stations and satellite communications.
- The business skills you need to bring products to market.

#### **Real-World Experience**

- You will complete a relevant work placement year to bring the skills you have learned to real world applications.
- Option to study abroad for one year to get experience of engineering education in another country.
- Enterprise modules give you the business development skills needed to achieve top roles in industry or start your own business.

#### **Career Opportunities**

#### Embedded Systems Technical Sales

- Product Development Engineer Project Management
- Start-up Manager Business Development Manager

#### Why Ulster?

Our close relationship with industry has helped shape this course. The content gives you the skills that employers ask for.

UCAS H222 Belfast a placement vear

Explore renewable energy technologies and the use of science and technology to find innovative solutions to realworld energy problems. Help find solutions to the challenge of addressing the world's need for affordable, sustainable, secure, and safe energy supplies.

#### I Will Learn

- How conventional and renewable energy systems work including wind, bio-energy, solar, water, heat pumps, smart grids, and energy storage technologies.
- To design, specify, and monitor performance of energy systems and ensure their economic and environmental benefits around the world.
- To understand new theories, technologies, concepts, and methods and adapt them to meet future energy supply challenaes.

#### **Real-World Experience**

- A one-year work placement is included to give you essential hands-on experience of working within the enerav industry.
- Real-world case studies and site visits are used to show how energy systems are used across the world and at home
- Our research expertise and links with employers have shaped the course content to ensure you acquire the skills that the industry needs.

#### **Career Opportunities**

- Energy Technology Designer Energy Analyst
- Energy Systems Engineer Project Manager
- Energy Systems Consultant Energy Project Manager

You will need to continue your studies to complete a Masters in order to become a Chartered Engineer.

# Irish Language

Diploma Belfast/Derry~Londonderry/Cookstown

#### Part-Time

The diploma in Irish Language is an exciting opportunity to study the Irish language from beginner level in a structured and formal way with expert tutors. You will receive a solid grounding in the key areas of Irish pronunciation, conversation, grammar, and reading and writing skills.

#### I Will Learn

- The skills and knowledge to become an independent user of the Irish language.
- Oral and written communicative skills in Irish, ability to demonstrate a knowledge of Irish grammatical structure, and be able to read and listen to the Irish of native speakers.

#### **Real-World Experience**

- Access to cutting-edge online resources. Gaeltacht visits, community groups, and participation in The Irish Society allow you to fully immerse in Irish language and culture.
- Teaching by globally recognised subject experts.

#### **Career Opportunities**

- Language Officer
   Presenter
- Teacher Librarian
- Publisher
   Interpreter
- A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

#### Why Ulster?

We have a long history of bringing students to fluency. Completion of this course can be a pathway for entry to a BA Hons degree in Irish.

## Irish Language and Literature

Derry~Londonderry

#### Full-Time/Part-Time

**BA Hons** 

3 year FT degree or 4 year with placement year

This course plays a vital role in preserving, sustaining, and promoting Ireland's Gaelic literary and linguistic heritage. You will achieve proficiency in written and spoken Irish, enabling you to confidently participate and immerse yourself in the Irish language community.

#### I Will Learn

- Modern Irish language; competence in grammar, punctuation, and writing ability for a variety of everyday and academic contexts.
- The analysis of writing from the early 20th Century to today, including the novel, short story, drama, and verse.
- The history, development, and promotion of the Irish Language; impact of the Gaelic revival, cultural studies, folklore, dialects, and translation.

#### Real-World Experience

- Gaeltacht visits, community groups, and participation in An Cumann Gaelach (The Irish Language Society) allow you to fully immerse in Irish language and culture.
- Enhance competency of the Irish language in a professional work-based environment with an optional placement in year three.
- Research-informed teaching by globally recognised experts.

#### **Career Opportunities**

- Language Officer
   Community Developer
- Interpreter/Translator
   Journalist
  - Publisher

A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

#### Why Ulster?

Teacher

This course received 100% satisfaction in the National Student Survey 2022.

Mechanical Engineering	UCAS <b>H302</b>
MEng Hons	Belfast
<b>Full-Time</b> 5 year FT degree including placement year	

Mechanical engineers create, design, and manufacture all kinds of products and processes across a wide range of industries. Complete the MEng to progress towards becoming a Chartered Engineer.

#### I Will Learn

- To apply engineering, physics, mathematics, and materials science principles to improve mechanical equipment and systems that make our world function.
- Design, mechanical systems, materials, and manufacturing skills.
- Research and project management skills needed to complete an MEng-level project and prepare you for your first engineering role.

#### **Real-World Experience**

- Individual and team projects give you the opportunity for hands-on involvement and an understanding of engineering materials, processes, and systems.
- You will complete a one-year work placement to develop your engineering and personal skills and significantly enhance your employability on graduation.
- Your final year MEng dissertation project will give you practical experience of creating solutions to real-world engineering challenges.

#### **Career Opportunities**

- Design Engineer
- Project Manager

The MEng meets the academic requirements to become a Chartered Engineer. You will need to demonstrate additional competences through work experience.

#### Why Ulster?

This course is accredited by the Institution of Mechanical Engineers (IMechE) and the Institution of Engineering and Technology (IET).

#### **Full-Time Entry Requirements**

Refer to the University's General Entrance Requirements. A Level: ABB or BBC\*

\*if including Maths and Physics.

Mechanical Engineering with Enterprise Developme	nt	UCA HH3
BEng Hons	Derry~Lon	donderr
Full-Time		

### 4 year FT degree including placement year

Learn about the design and manufacture of machines, covering industries as diverse as automotive aerospace, and medical devices. This degree combines technical engineering knowledge with business acumen and personal skills needed to start your career.

#### I Will Learn

- A solid foundation in the fundamental topics in engineering, physics, and mathematics.
- Computer-aided modelling of parts and assemblies, product design specification, material selection, and manufacturing considerations.
- How to bring a product to market, and the commercial considerations needed to attract orders.

#### **Real-World Experience**

- A one-year work placement gives you essential experience of working in industry.
- Option to study abroad for one year to get experience of engineering education in another country.
- The enterprise modules will give you the personal and professional skills needed to apply your engineering skills in a workplace setting.

#### **Career Opportunities**

 Mechanical Engineer Manufacturina Engineer

# Music

BMus Hons Derry~Londonderry

Full-Time/Part-Time 3 year FT degree or 4 year with placement year

This degree is a creative and modern approach to four core elements of performance, composition, musicology, and music technology. You will gain a comprehensive understanding of musical styles, genres, and disciplines while specialising in an area of music you enjoy.

#### I Will Learn

- A comprehensive overview of musical styles, genres, and disciplines, and how to approach composition and orchestration.
- Key digital audio techniques and principles of contemporary electronic music production including sequencing, sound synthesis, and audio effects.
- Self-awareness and an appreciation of artistic qualities that characterise musical performances.

#### **Real-World Experience**

- This degree provides many opportunities to build performance skills outside of practical workshops, such as festivals, events, and ensembles.
- Experience life as a professional in a local music or arts organisation with an optional placement in year three.
- You will be taught by experienced subject professionals with strong industry links, and will benefit from visiting artists and musicians.

#### Career Opportunities

- Music Producer
   Music Facilitator
- Music Teacher
   Venue Programming
- Freelance Musician
   Event Co-ordinator

A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

#### Why Ulster?

The interdisciplinary opportunities afforded to music equips you with a unique range of skills vital to careers in the creative industries.

#### Full-Time Entry Requirements

#### Refer to the University's General Entrance Requirements. **A Level:** CCC

Providing the subject requirement is met, applicants may satisfy the requirement for one of the A Level C grades (or equivalent) by substituting a combination of alternative qualifications recognised by the University.

Possible Interview and/or audition required.

#### **Music with Subject Combinations**

#### Music as a Major

UCAS W302

> This degree is a creative and modern approach to four core elements of performance, composition, musicology, and music technology.

Music	UCAS
with Drama	W3W4
BA Hons	Full-Time

#### Why study Drama as a Minor?

- You will develop creative, critical thinking and practical skills in performance, playwriting/screenwriting, directing, or production.
- You will explore theories and practices of performance and understand drama as an art form in its social, political, and cultural contexts.

Music	UCAS
with Education	W3X3
BA Hons	Full-Time

#### Why study Education as a Minor?

- An excellent introduction to a future career path in the education sector, both in schools and training.
- Study main concepts and concerns of contemporary educational theory and practice before applying for a Postgraduate Certificate in Education upon completion of your degree.

Other courses you may want to consider:

BA Hons Drama with Music - See page 81

**BA Hons Irish with Music -** See page 105

## Derry~Londonderry

#### Entry Requirements

#### A Level: CCC

Applicants may satisfy the requirement for one of the A Level grades (or equivalent) by substituting a combination of alternative qualifications recognised by the University.

Possible Interview and/or audition.

with History	W3V1
Music	UCAS

#### Why study History as a Minor?

- History at Ulster gives you the freedom to choose the topics that interest you most.
- You will develop a wide range of written, verbal, and analytical skills through the study of the historical processes that have shaped modern society.

Music	UCAS
with Irish	W3Q5
BA Hons	Full-Time

#### Why study Music as a Minor?

- Develop core language skills through Irish language and culture modules whilst exploring genres across the Irish literary tradition.
- Learn important analytical techniques and the capacity to form coherent arguments in both spoken and written form.

CAS

nine

On this degree, you will explore everything from the biology to the psychology of vision, how to conduct an eye examination, prescribe glasses and contact lenses, and detect and manage ocular disease.

#### I Will Learn

- To be a highly skilled, evidence-based optometrist, able to deliver patient-centred care in a variety of clinical settings.
- To be a confident, effective communicator in optometric practice.
- An extensive theoretical and scientific knowledge of the eye and vision to underpin your clinical skills.

#### **Real-World Experience**

- Throughout this course, you will learn from a range of experienced professionals with specialist expertise covering all aspects of eve care.
- You will gain experience of primary eve care in a variety of clinical settings, including the on-campus eye clinics and placements in community optometry practice.
- You will gain experience of secondary care within the hospital eye service, including attending ophthalmoloay clinics.

#### **Career Opportunities**

- Optometrist • Vision Science Researcher
- Hospital Optometrist Community Optometrist
- Business owner Optical industry roles

#### Why Ulster?

We are ranked 3rd in the UK for Optometry, Ophthalmology and Orthoptics (Complete University Guide 2023). This course is approved by the General Optical Council (GOC).

Outdoor Adventure	UCAS <b>C620</b>	Paramedic Science	
BSc Hons	Coleraine	BSc Hons	Derry~
Full-Time 3 Year FT degree		<b>Full-Time</b> 3 year FT degree including pla	cements

This programme offers opportunities for developing personal and leadership skills through connection with, and understanding of, the outdoor adventure environment. This unique course is delivered in partnership with Sport NI and Tollymore National Outdoor Centre.

#### I Will Learn

- How to inspire, communicate effectively, and innovate as a skilled outdoor adventure professional
- How to evaluate contemporary outdoor adventure practice in the context of leadership, management, technical skills, and environmental perspectives.
- On location much of the learning will take place in mountainous and coastal settings.

#### **Real-World Experience**

- Opportunities to achieve governing body qualifications in both land and water-based adventure activities.
- Two one-week residential placements per academic year will develop your personal skills and provide experience of outdoor adventure activities.
- · Work-based learning throughout, with opportunities to apply and develop your skills in a range of outdoor settings.

#### **Career Opportunities**

- Outdoor Instructor Commercial Provider
- Expedition Leader Educational Development
- Specialist Adventure Travel Community Development

A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

#### Why Ulster?

Our course team is active in the outdoors, passionate, and made up of industry-recognised educators.

# ~Londonderrv This course prepares you to work in the roles undertaken by

paramedics, by introducing you to the knowledge, skills, and behaviours necessary to become a competent and confident paramedic who provides safe, person-centred care across community, hospital, and ambulance services.

#### I Will Learn

- The fundamentals of anatomy, physiology, physical and mental health, and pharmacology.
- Through simulated and practice-based learning, how to provide safe and effective person-centred prehospital care to people who have long-term conditions, acute medical and surgical needs, and trauma-related conditions.
- To assess, plan, implement, and evaluate competent and safe person-centred pre-hospital care.

#### **Real-World Experience**

- Learn in a wide range of learning environments including community health and social care settings, hospital services, and ambulance services.
- Your dearee includes 60 weeks practice-based learning.
- Opportunities for up to four weeks practice-based learning are also available outside the UK in settings which have agreed partnership arrangements with Ulster University.

#### **Career Opportunities**

- Ambulance Services
- Paramedic
- Community Services Paramedic

Why Ulster?

This programme is Health and Care Professions Council approved and the only one of its kind in Northern Ireland.

UCAS

Personalised Medicine		UCAS <b>8H21</b>
BSc Hons	Derry~Lon	donderry
<b>Full-Time</b> 3 year FT degree or 4 year with placement year		

As biomedical science learns how differences in human genomes cause disease, there is a need for graduates who can work in clinics with patients, in the lab with samples, and who can apply data science skills. Personalised Medicine provides a 360-degree skill set in biology, data analytics, and clinical practice, creating graduates who can develop the treatments and technologies of the future.

#### I Will Learn

- How diseases develop, why treatments are effective, and how treatments and diagnostics are developed based on a patient's genes and proteins.
- How to design clinical studies, how to analyse samples in the lab, and the coding and maths skills needed to analyse data.
- The interpersonal and professional skills needed to work in scientific environments across research, healthcare, and industry.

#### **Real-World Experience**

- Our course has been designed with healthcare and industry to ensure araduates have the right employment skills, with quest lecturers contributing to our modules.
- A placement year provides opportunities to agin skills and experience in professional scientific environments. including hospitals, companies, and research centres.
- Final-year research projects give all students experience of contemporary scientific developments.

#### **Career Opportunities**

- Medical Researcher Software Developer
- Data Scientist Industrial Scientist
- Laboratory Scientist
  - Development

Pharmaceutical

- Key coaching skills which can then be applied to coaching practice.
- How to use sport and physical activity to improve general wellbeing across society.

#### **Real-World Experience**

- You will gain experience delivering physical activity in community settings.
- This course offers an optional placement year in industry.
  Applied practical classes supplement theories in sport and exercise sciences.

Sports Coach

#### Career Opportunities

- Health Promotion
- Community Health Officer
   Teacher
- Exercise Planner
   Fitness Development Officer

A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

#### Why Ulster?

Designed with input from the School of Nursing, this course enables you to coach, analyse, and to influence community sport-related health initiatives.

# Technology with Design UCAS H1W2 BSc Hons Belfast Full-Time

## 4 year FT degree including placement year

Learn how to design and engineer a product that can be brought to a commercial market. Technology with design is about using creativity and innovation within engineering. The course combines engineering and technology principles with product design and development.

#### I Will Learn

- To conceive and develop creative, innovative designs, and turn them into manufacturing reality.
- To use the latest design technology such as 3D CAD systems, Computer Aided Manufacturing, information design, and data modelling.
- Market awareness understanding the purpose of your product and who it is aimed at.

#### **Real-World Experience**

- A work placement year will give you hands-on experience of working on product design projects.
- Teamwork is at the core of design, and you will work in groups on projects and real-world case studies.
- Essential interpersonal and professional skills, equipping you to work locally or internationally.

#### **Career Opportunities**

- Design Engineer
   Project Manager
- Product Designer
   Teacher or Lecturer
- Manufacturing Engineer
   Product Support Manager

Graduates wishing to pursue a career as a technology teacher go on to study a postgraduate qualification in technology teaching.

#### Why Ulster?

This course is accredited by the Institution of Engineering Designers (IED), the Institution of Mechanical Engineers (IMechE), and the Institution of Engineering and Technology (IET). Textile Art, Design and Fashion BA Hons

Full-Time/Part-Time

3 year FT degree or 4 year with placement year

We provide a rich, creative, and supportive place to explore textiles and fashion. We nurture individual approaches to specialisms in embroidery, knit, weave, print, and fashion, as each student selects their pathway as an artist, designer, or designer-maker.

UCAS W232

Belfast

#### I Will Learn

- Diverse and experimental approaches to art and design, focusing on colour, form, pattern, scale, and composition in a studio environment.
- Inventive and specialist approaches to practical making skills in five workshops equipped with traditional and digital technologies, supported by experts.
- The historical and cultural significance of textiles and fashion and the professional skills needed for a sustainable and creative career.

#### **Real-World Experience**

- We offer an optional placement year in the textile and fashion industry, and study abroad opportunities.
- Learn from the experience of our successful graduates, visiting artists, designers, curators, and careers professionals throughout the course.
- Showcase your work to industry professionals through a diverse range of placements, projects, and competitions.

#### **Career Opportunities**

- Textile Designer
- Fashion Designer
   Film Industry Art Department
- Freelance Textile Artist
   Costume Designer

Arts and Community Education

Why Ulster?

Develop your skills in five well-equipped workshops and studios and progress through the course as an increasingly skilled and confident artist, designer or maker, supported by a dedicated staff team.

#### **Full-Time Entry Requirements**

Refer to the University's General Entrance Requirements. **A Level:** BCC

#### A Level: DCC

Applicants may satisfy the requirement for one of the A Level grades (or equivalent) by substituting a combination of alternative qualifications recognised by the University.

#### Portfolio submission required.

## Full-Time Entry Requirements

Refer to the University's General Entrance Requirements. **A Level:** CCC

Specific subject(s) required at A Level. Please refer to the online prospectus at ulster.ac.uk for the full list.

**GCSE:** Specific subject(s) required at GCSE. Please refer to the online prospectus at ulster.ac.uk for the full list.

#### Access NI check required.

## Full-Time Entry Requirements

Refer to the University's General Entrance Requirements. **A Level:** BBC or BCC\*

\*if including one of Maths, Further Maths or Physics.

Specific subject(s) required at A Level. Please refer to the online prospectus at ulster.ac.uk for the full list.

**GCSE:** Specific subject(s) required at GCSE. Please refer to the online prospectus at ulster.ac.uk for the full list.

# How to apply

NI, GB & EU (including ROI)

What I love most about Ulster is the incredible amount of support and encouragement I have been receiving.

There has always been someone to guide me every step of the way through every problem I was having whether that was in the application process or just issues I was having in class. This guidance and reassurance has really helped me in my move from Canada to Northern Ireland and in adjusting to this new life.

Zainab Rizwan Graphic Design and Illustration

Main UCAS application deadline is January 25 in the year of 2024'

\*to be confirmed by UCAS. Visit UCAS.com for up to date information.

## How to apply for full-time courses

- These are submitted online through the Universities and Colleges admissions service (UCAS)
- UCAS has a range of deadlines for different applicants and course choices.

More info ucas.ac.uk

# Selecting your course do you have the subjects?

- Make sure you check if your preferred courses require specific achievement in certain subjects e.g. Must have A Level Maths.
- Required subjects indicate what experience you need to complete the degree.
- Required subjects could be at any level GCSE, A Level, BTEC or Irish Leaving Certificate grades

## **Extra course requirements**

For certain courses, your application may include:

- An interview (including video interview)
- An audition
- A portfolio
- Access NI Check and Medical
- A test e.g. GAMSAT

Carefully review the course requirements at ulster.ac.uk before applying to the course.

# **Visas for EU Students** (excluding ROI)

If you are studying a course which is longer than six months in length you will need to apply for a student visa. Your application must be completed and accepted before you arrive in the UK. You will also need to pay an application fee, have a current passport or other valid travel document and pay a fee called an Immigration Health Surcharge. For more guidance, please visit gov.uk/student-visa or study-uk.britishcouncil.org/moving-uk/ student-visas (guidance as of Dec 2022 and is subject to change).

# What if I miss the UCAS application deadline?

Applications can be made after the 2024 UCAS deadline but will only be considered if there are vacancies available.

## How to apply to part-time courses

- Applications can be made directly to the university online at ulster.ac.uk
- We advise that you submit your prior to the course start date.

Find out more ulster.ac.uk/study/part-time

We understand finances are an important consideration for students. As an Ulster University student, you can take advantage of our competitive fees, affordable locations, and flexible payment options.

Fees are normally subject to an annual increase. All fees listed are for standard UG courses excluding Graduate Entry Medicine.

## Full-time students (NI and ROI)

Full-time fees for NI and ROI students are determined by the Department of the Economy and are normally increased annually. To help with budget planning, the tuition fee for 2023/2024 entry was:

## **£4,710\*** per year

## Full-time students (GB)

Fees are normally subject to an annual increase. To help with budget planning, the tuition fee for 2023/24 entry was:

## £9,250\* per year

For undergraduate course, integrated Masters and equivalent.

## Tuition fees for EU (Excluding ROI) students are charged in line with our International fees

Please refer to **ulster.ac.uk/student/fees** for information on tuition fees, funding and payment options.

# Fully funded tuition fee courses for qualifying students – Department of Health courses

Following the issue of guidance by the Department of Health, the tuition fee for the following courses is fully funded by the Department of Health for students:

 who are eligible for the home fee rate and are UK or Irish citizens and have been resident in Northern Ireland or the Republic of Ireland for three years prior to the start of the course.

Unfortunately, Ulster University is not in a position to accept applications from students from England, Scotland, Wales or EU (except the Republic of Ireland) for these courses due to regulations issued by the Department of Health Northern Ireland.

## Department of Health Tuition Fee Funded Courses

- Diagnostic Radiography and Imaging≈
- Dietetics≈
- Nursing Adult and Nursing Mental Health
- Occupational Therapy≈
- Paramedic Science
- Physiotherapy≈
- Podiatry
- Radiotherapy and Oncology≈
- Speech and Language Therapy≈

≈Video or face to face interview required. More than one interview may be required depending on the mix of courses you have applied to.

## **Part-time study and fees**

You may prefer to study some of our courses on our part-time basis. Studying part-time gives the flexibility to learn and pay at your own pace. • Typical years to complete degree – 5 to 7 years

• NI students can get a part-time tuition fee loan through studentfinance.co.uk to help towards their fees. Please contact Student Finance for the maximum loan available.

# Funding

## Paying for your studies - find an option that works for you.

# **Full-time study**

# Start paying your fees once you graduate and are in employment.

Take out a tuition fee loan and defer your payment

# Northern Ireland students additional financial support options

## You can apply for:

- Maintenance loans
- Government grants for part-time study only
- Ulster University bursaries

## Republic of Ireland students additional financial support options

Transfer your maintenance award to Northern Ireland via **studentfinance.ie**  For up-to-date **part-time** tuition fee information visit: **ulster.ac.uk/part-time** 

### $\bullet \bullet \bullet \bullet \bullet \bullet \bullet \bullet \bullet \bullet$

For up-to-date full-time tuition fee information visit: ulster.ac.uk/ug-fees

## **Part-time study**

Pay your part-time fees in ten monthly instalments. Part-time tuition fees can be paid in monthly instalments in up to ten \*\* equal monthly payments during each year of study.

## Part-time 5% fee discount

Pay the full cost of your annual fee at enrolment and receive a 5% discount. This offer cannot be used in conjunction with any other discount, offer or scholarship. Visit **ulster.ac.uk/** student/fees-and-discounts.

Who to contact for student finance queries: Student Finance NI/ROI/EU studentfinanceni.co.uk

Student Finance England direct.gov.uk

Student Awards Agency for Scotland (SAAS) <br/><br/><br/>saas.gov.uk

Student Finance Wales studentfinancewales.co.uk

For scholarship information visit: ulster.ac.uk/scholarships

\*Correct at time of publishing. Fees illustrated are based on the entry year stated and are subject to annual increase. Please visit ulster.ac.uk/student/fees for full details of the fees. Annual part-time fees are based on the modules that you are registered for within an academic year. Some courses may have additional costs not included in your tuition fee. Check the individual course information online for details.

\*\* Tuition Fee instalment plans: Recurring Card Payment plan (credit/debit card). Tuition fees may be paid in up to 10 equal monthly instalments. Direct Debit. Tuition fees may be paid in 5 equal instalments. Further information is available at our Student Guide ulster.ac.uk/student Undergraduate Prospectus 24/25 How to apply

# General Entry Requirements

# 

## To be eligible to apply you must:

- Provide evidence of competence in written and spoken English (GCSE English Language grades A-C/4-9 or equivalent); and
- Provide evidence of passes in five subjects, two of which must be at A level (grades A-E) and three at GCSE level\* (grades A-C/4-9);
- **3.** Provide evidence of passes in four subjects, three of which must be at A level (grades A-E) and one at GCSE level\* (grades A-C/4-9); or
- **4.** Provide evidence of an approved qualification at an equivalent level such as Access to Higher Education qualification or equivalent\*\*; or
- Provide evidence, for a process of formal accreditation by the University, of learning you have gained through work or other experience.

The general entrance requirements identify the minimum qualifications needed to apply to a course at Ulster. They set out the range of the most commonly offered acceptable qualifications but do not identify where particular subjects are needed for specific courses, nor do they represent the actual offer standard or 'asking grades', which are normally higher than the minimum threshold standard of a pass grade.

This is particularly the case for full-time study where the offer grades are affected by the availability of places on the course and the level of demand. The summary refers to honours degrees. In practice, with regard to A levels, no full-time honours degree will accept fewer than three A level subjects unless presented in combination with other Level 3 qualifications deemed acceptable by the University. The 'Equivalence of Qualifications' table lists the most commonly accepted qualifications and equivalent asking grades. You should refer to the online prospectus at ulster.ac.uk for specific entry requirements to individual courses. Entry requirements for part-time courses vary. Some have identical entry requirements to the full-time version of the same course, whilst others will vary from those of the full-time version. It is important to refer to the online prospectus and/ or to contact the course team before making an application for study.

Accreditation of Prior Experiential Learning you have gained from work or other experience may be used to demonstrate your ability to study your chosen course. You must provide evidence of some reasonably substantial and a significant element of learning for a process of formal assessment and accreditation by the University. You may be required to attend an interview and/or submit a portfolio of evidence. (Contact Admissions - admissions@ulster.ac.uk)

### Find out more ulster.ac.uk/apply/entry

\*GCSE English Language (grades A-C/4-9) may be used as part of the GCSE requirement. \* \*Please refer to the 'Equivalence of Qualifications' table for the most common alternative Level 3 Qualifications. Note: Advanced Subsidiary (AS) level subjects, are regarded as 40% of one GCE A level, provided that your profile also contains two GCE A levels or equivalent. Undergraduate Prospectus 24/25 Support for students

# Academic English Language Skills

The Centre for English Language Teaching (CELT) offers you a range of workshops and one-to-one consultations throughout the academic year.

The aim is to provide meaningful, practical support. The focus is on the enhancement and mastery of your academic English language skills.

## We offer:

- Academic writing sessions in your subject
- Individual and small group tutorials
- Dissertation and thesis writing skills
- Presentation skills
- English for everyday life
- Intercultural fluency

# Meeting English language requirements

Our Pre-sessional PLUS course (entry level ≥ IELTS 5.0) is the ideal choice if you have a **conditional offer** from Ulster University but have not yet met the English language requirements of your chosen degree.

Our Pre-sessional STANDARD course (entry level ≥ IELTS 5.5) is ideal for any international student preparing for degree study at Ulster University. It is offered to both **conditional** and **unconditional** applicants.

With an intense focus on the English of your subject and the mastering of specific skills for the completion of academic tasks, you will be guided and supported through your presessional course by caring, expert teachers.

## What if I do not meet the English language requirements?

If you have an offer to study with us that is conditional on meeting our English language requirements, you can take our Password English language test. This online test, which takes just over three hours to complete, will test your reading, listening, speaking, and writing.

Find out more and book your test, visit **ulster.ac.uk/englishrequirements** 

# **Equivalence of Qualifications**

IMPORTANT: Equivalence of qualifications are subject to annual review. The equivalence table below outlines indicative equivalences to operate for entry in 2023.

Please refer to the online prospectus at ulster.ac.uk for entry requirements for any particular course.

GCSE: Grade C equivalences - ILC Ordinary = O4, GB = 4. Grade B/C\* equivalences - ILC Ordinary = O3, GB = 5 or 6 (Determined on a course basis. See online prospectus.)

Applied General Level 3 qualifications: Offers will be expressed in terms of Overall Award Grade(s). The 90 Credit Diploma/National Foundation Diploma will be considered as equivalent to one and a half A levels. Vocationally-related and Level 3 qualifications on the Tech Level category are not considered for entry.

Irish Leaving Certificate: Applicants will need to achieve the UCAS tariff score with a minimum of 4 subjects at Higher Level and 1 at Ordinary Level. Some courses may ask for specific grades in certain subjects so check the requirements before applying.

HNC: Candidates will be considered for year one entry only.

HND: Candidates may be considered for year two entry (or part-time equivalent) where the curriculum sufficiently matches that of the Ulster University full-time year one course.

Foundation Degree: applicants will normally be considered for entry to an associated honours degree (normally year two entry, or part-time equivalent).

Certificate of Higher Education: Students who exit a Foundation Degree with a Certificate of Education after one year are not permitted to join a course at Ulster until the following academic year. Applicants wishing to join from another institution after one year must have completed 120 credits at Level 4 with the overall percentage detailed on the table to the left.

**Other qualifications:** We welcome applications from international applicants and those who may be studying a UK Benchmark Qualification not shown. We will consider such applications on an individual basis. Whilst we will consider your entire academic profile we normally make offers in terms of benchmark qualifications. In all qualifications specific requirements in individual subjects/units/credits may be required.

#### Disclaimer

I. The University endeavours to deliver courses and programmes of study in accordance with the description set out in this prospectus. The University's prospectus is produced at the earliest possible date in order to provide maximum assistance to individuals considering applying for a course of study offered by the University. The University makes every effort to ensure that the information contained in the prospectus is accurate, but it is possible that some changes will occur between the date of printing and the start of the academic year to which it relates. <u>Please note that the University's website is the most up-to-date source of information regarding courses, campuses and facilities and we strongly recommend that you always visit the website before making any commitments.</u>

2. Although the University at all times endeavours to provide the programmes and services described, the University cannot guarantee the provision of any course or facility and the University may make variations to the contents or methods of delivery of courses, discontinue, merge or combine courses, change the campus at which they are provided and introduce new courses if such action is considered necessary by the University (acting reasonably). Not all such circumstances are entirely foreseeable but changes may be required if matters such as the following arise: industrial action interferes with the University's ability to teach the course as planned, lack of demand makes a course economically unviable for the University, departure of key staff renders the University unable to deliver the course, changes in legislation or government policy including changes, if any, resulting from the UK departing the European Union, withdrawal or reduction of funding specifically provided for the course or other unforeseeable circumstances beyond the University's sonable control.

3. If the University discontinues any courses, it will use its best endeavours to provide a suitable alternative course. In addition, courses may change during the course of study and in such circumstances the University will normally undertake a consultation process prior to any such changes being introduced and seek to ensure that no student is unreasonably prejudiced as a consequence of any such change.

4. Providing the University has complied with the requirements of all applicable consumer protection laws, the University does not accept responsibility for the consequences of any modification, relocation or cancellation of any course, or part of a course, offered by the University. The University will give due and proper consideration to the effects thereof on individual students and take the steps necessary to minimise the impact of such effects on those affected.

5. The University is not liable for disruption to its provision of educational or other services caused by circumstances beyond its reasonable control providing it takes all reasonable steps to minimise the resultant disruption to such services.
