Hello from Ulster University
At Ulster University, our students are at the heart of everything we do and we want to give you the most rewarding student experience possible.

We will provide an educational experience that helps you to develop your skills and prepares you to be a future leader in your chosen field.

Our teaching is underpinned by world-leading research that has global significance and meaningful impact. This means your learning will be influenced by experts who are shaping our understanding of their subject - your area of study.

We work with business and industry to make sure that our courses meet their needs, meaning our diverse range of courses are created with your future career in mind.

94% of our graduates are in work or further study within six months, demonstrating our commitment to making sure our students are ready and able to achieve their goals.

Northern Ireland is renowned for its friendliness and warm welcome. We are proud to welcome international students from over 100 countries to Ulster University. Our vibrant cities, unspoilt countryside, efficient public transport and minimal congestion ensure a quality of life unsurpassed by few.

We recognise that relocating and, in many instances, living away from family and friends for the first time can be a daunting experience – it is also an exciting one. Our Global Engagement team is dedicated to ensuring your transition from home to studying with us is as smooth as possible.

By joining Ulster University, you will join a vibrant student community where there are new friendships to be made, ideas to be shared, thinking to be challenged and opportunities to be explored.

This prospectus offers you a flavour of life at Ulster University; the unique student experience, the outstanding facilities on our campuses across Northern Ireland and the supportive learning environment where you can pursue your ambitions.

Whatever your aspirations, we want to give you the educational experience to help you achieve them. We want you to come to Ulster University.

With best wishes,

Professor Paul Bartholomew
Vice-Chancellor and President
Teaching from real-world experience

Dr Emmett Kerr

Position: Lecturer in Mechanical and Manufacturing Engineering
Faculty: Computing, Engineering and the Built Environment

3 Professional Highlights:
- I secured a graduate post with Smurfit Kappa Ireland holding various roles and participated in a European Graduate program.
- I progressed to the role of Project Engineer for €7.5million investment, Smurfit Kappa Ireland and finally, to Mechanical Engineering Supervisor, Smurfit Kappa Lurgan.
- I am the Local and National (UK) winner of the JCI Ten Outstanding Young Persons (TOYP) 2018 for my PhD research in Robotics.

Why I teach at Ulster:
I am extremely passionate about Engineering and Artificial Intelligence; teaching and inspiring students to progress enjoyable, rewarding and influencing STEM careers. I strive to use fun and interactive teaching methods to teach complex theories in interesting and comprehensible ways.
We are committed to delivering industry-relevant education taught by a staff of world-leading experts and practitioners.

We work closely with employers and awarding bodies to develop our curriculum. This ensures our courses are relevant and, where possible, offer the professional qualifications and accreditations most desired by employers. This is even more important now as industries are transforming at an unprecedented speed and employers are actively seeking employees with the skills and competencies to lead, adapt, and inspire.

Dr Valerie Hinch

Position: Teaching Fellow/ Placement Coordinator/ Course Director Biomedical Science
Faculty: Life and Health Sciences

3 Professional Highlights:

Why I teach at Ulster:
During 17 years of professional practice as an Advanced Biomedical Scientist, I developed a strong passion to share my expertise with our students so they can progress to become professional Biomedical Scientists and be at the forefront of patient healthcare.
Teaching from real-world experience

Danielle McWall

**Position:** Head of Department of Accounting, Finance and Economics  
**Faculty:** Ulster University Business School

**3 Professional Highlights:**
- Completing my Final Admitting Exams for Chartered Accountants Ireland as it marked the end of five years of study towards the career I had wanted since I was 15 years old.
- As a part-time Ulster MBA student, I got the chance to visit San Francisco and my employer offered me a life-changing opportunity to work in their San Francisco office for 16 months, what an experience!
- My current role as a Head of Department brings all my professional knowledge, experience and skills to life and every day I am getting the chance to use these skills.

**Why I teach at Ulster:**
I teach at Ulster because quite simply I love it! The students I have encountered have either been inspirational in their work effort or have overcome many challenges to succeed in the professional world. I am enthusiastic about my subject area and my career, with all the experiences it gave me. I have worked all over the world from UK to USA to Ukraine and I love sharing these experiences with the students at Ulster. Our students are special and they appreciate the fact that they are taught by someone who sat in their place many years ago.
Dr Declan Keeney

Position: Director of the Ulster Screen Academy
Faculty: Arts, Humanities & Social Sciences

3 Professional Highlights:
- My students winning eight Royal Television Society Awards for film work they did with me in class. Always delighted when my students excel.
- My first broadcast credit on the BBC as a BBC camera operator. It was for a live broadcast during Children in Need on BBC1 many years ago.
- Moving into academia from a career in television production, I graduated with a PhD in Film, which was a very proud day for me and my family.

Why I teach at Ulster:
I came to Ulster because we are leaders in learning and teaching for the Screen Industries. I lead the Ulster Screen Academy and we offer incredible degrees in Screen Production, Cinematics Arts, Animation, Gaming, Interaction Design, Interactive Media and more. Our courses are world class and it is an exciting place to be right now.
Your learning experience

Regarding my course, there’s a lot to love but I would say that my lecturers and course directors from the School of Sport are some of the most hardworking, helpful and pleasant people that I have had the pleasure of getting to know since I first came to Northern Ireland and Ulster University two years ago. I have so much respect for them.

Ausby Rodrigues,
Sports Studies
How will I learn?
At UU you will attend lectures to learn the key concepts of your subject. You will also attend seminars and tutorials, which offer the opportunity to discuss these concepts in smaller groups with your fellow students and teaching staff.

Learning for your future career
We understand how important it is that your degree prepares you for your career. That’s why we involve industry in your teaching. This could be through guest lectures, field trips, or by working on projects set by local and global businesses.

Learning in industry
Many of our degree programmes include placement and practice opportunities. These not only offer a great way to get real-life experience, but also give you the opportunity to build relationships with potential employers.

Equipment and facilities
You will learn in state-of-the-art facilities, with industry-standard equipment. Our architecture super-studio, award-winning student-run restaurant, TV studios, financial trading room, laboratories, art workshops, on-campus optometry and model pharmacy are just some examples of how you benefit from our investment in modern facilities which mirror what you will experience when you start working.

How will I be assessed?
Coursework could include reports, group and individual tasks, presentations, projects and showcases. Regular feedback on your coursework helps you to develop your skills and knowledge. Exams feature in some, but not all modules.

Leaders of learning innovation
Ulster University is at the forefront of learning innovation. We introduced digital learning 20 years ago and since then, we have been constantly developing the ways in which we teach to ensure it is engaging, interesting, flexible and meets the needs of our students.
#WeMakeItHappen

Degrees designed with your career in mind

**Design**

**Industry-led course design**
Our course teams and employability consultants are committed to making your degree career-focused and industry-leading.

**Gain the skills and competencies employers want**
We regularly review our course and module content with industry partners to ensure you have the skills and specialisms needed by employers.

**Supporting skills and careers of the future**
Our courses are underpinned by our world-leading research which means you will gain the latest skills and industry thinking.

**Access the qualifications and accreditations to get ahead**
We work with accrediting bodies to develop degrees that prepare you for future certifications or provide exemptions to some professional body exams.
Delivery

**Student-centric teaching**

We design our courses, so you build not only your skills and knowledge but the competencies needed to thrive in your future career.

**Real-world experience**

Our industry links mean that you may work on live industry projects and benefit from visiting professors or masterclasses from experts.

**Real-world environments**

We design our courses so that you learn in highly practical environments, seminars, and working project teams that will prepare you for the real world.

**CV building, learning and assessment**

Your course will not only develop your skills and knowledge, but you will also gain practical experience and project work that will demonstrate your expertise including portfolios, case studies, projects and more.

"My Course Director lets us know that we are a partner in the learning and teaching process. I feel that my experience at Ulster has been immensely valuable because of the student staff partnership which has contributed to the student learning experience. Staff genuinely care about their students.

Grace Boyle, Interactive Media"
The International Foundation Programme (IFP) offers international students, who are not eligible for direct entry, an alternative route to studying an undergraduate degree at Ulster University.
What degree can I study abroad?

You can progress to over 90 degree programmes from our IFP. The degree you wish to study will determine which pathway you will take. You can choose from two paths:

Science, Engineering and Technology
The Science, Engineering and Technology pathway will enable you to study a bachelor degree in subjects such as Biology, Civil Engineering, Computer Science, Electronic Engineering, Geography, Pharmacy and Stratified Medicine.

Business, Arts, Humanities and Social Sciences
The Business, Arts, Humanities and Social Sciences pathway prepares you for degrees in subjects such as Accounting, Business Studies, Marketing, Law, History and English.

Entry requirements
To be eligible for the International Foundation Programme you must:

• Have successfully completed your high school education
• Meet the residency/nationality requirements to be defined as an international student
• Attain the equivalent of a minimum grade C at GCSE level in five subjects including Mathematics
• Attain an overall score of 5.0 in the UKVI IELTS (with no individual band score if less than 5.0)

Equivalent qualifications from all countries are considered.

Scholarship

A £4,000 scholarship package is available for all entrants to the International Foundation Programme, commencing September 2022 including a £2,000 tuition fee scholarship and a £2,000 accommodation scholarship.

How to apply

You can apply directly to Ulster University. Applying is free and we aim to make you an offer within two working days from receipt of a complete application.

When completing your application, you must also provide the following information:

• A copy of your most recent school transcript
• A statement on why you wish to study the IFP at Ulster University
• Evidence of your current level of English language ability (copy of UKVI IELTS certificate)
• A copy of your passport

Find out more: ulster.ac.uk/ifp

International Foundation Year

A range of our undergraduate degrees include an International Foundation Year. See our courses section, page 62 for details.
Your employability is our priority

Find out more
ulster.ac.uk/careers

Follow @CareersAtUlster on our social channels
At Ulster, we place employability at the heart of the student experience and provide all students with the opportunities and support they need to develop into highly employable graduates.

**Get hired with Ulster**

You are more likely to secure your dream job if you have a work-based degree with real-world experiences. Our Employability and Careers Service is here to get you work-ready.

**Personalised service**

Benefit from one-to-one specialist advice from our experts within our award-winning Employability and Careers Hubs on campus or online. Our consultants offer friendly and impartial support with career planning and advice on developing your skills.

**Paid work experience, internships and volunteering**

Access an extensive range of part-time job opportunities, internships, paid placements, holiday jobs, jobs abroad and week-long work experience opportunities.

**Your hobbies and interests can help build your CV**

The Ulster EDGE Award provides official recognition and evidence of your relevant interests outside of university like hobbies, sports or volunteering activities. It is awarded in addition to your degree to help boost your career prospects.

**Meet career bodies, local and global employers**

Build your network by attending our regular careers fairs and forums.

**Prepare your CV and get interview ready**

Build your CV and interview skills with digital resources and real-time feedback.

**Career support after you graduate**

The support doesn’t stop once you graduate. You will still have access to world-class coaches, mentors and employability agents to secure your next step through our UnLockU programme.

> I love how supportive the industrial placement staff are. They helped me obtain a placement with Analog Devices International which is where I am for the year. They will prepare you for technical placement interviews which will also help you with placement year and when you look for graduate jobs.

---

Joshua Grenfell, Information Technologies
Placements to build your career

Real-world learning and CV building experience

At Ulster, over 2,000 students annually engage in work-based experiences which help build their CV and increase their future career options. You can put your knowledge into practice, build your professional network, and begin the successful transition to post-university life.

Opportunities at home and abroad

We can connect you with local and global employers who have placement opportunities at home and abroad. We have partners in Asia, America and Europe with recent placement destinations including the USA, United Arab Emirates, New Zealand and Australia.

Placements that work for you

We work with employer partners to co-design your professional practice and ensure your placement builds critical knowledge and industry skills.

Industry placement year with professional practice qualification

Most of our courses include the option to complete a paid placement year in industry. You will gain real-world experience and a CV building Diploma in Professional Practice or Diploma in Professional Practice - International.
During my placement year I held the position of Recruitment and Sourcing Executive, managing the Western Health and Social Care Trust recruitment cycle for Connected Health Group. In this role, I was in constant communication with a range of Managers and the general public. This role challenged my communication skills, forcing me to adapt to local communications customs in different regions.

As a healthcare recruiter, I had to develop better tonal communication skills, in addition to finding a balance between my American communication styles and Northern Irish communication styles. I further developed a great deal of empathy within the position. It gave me the confidence to fully engage with business leaders and managers in a global context. I gained a better sense of commercial awareness. My employer’s focus on social responsibility has really given me the ability to further engage with my local community.

This placement was very influential in my final year studies, my knowledge of business and project management helped me with some of my modules including; Leadership and Strategy and Entrepreneurship and Innovation. I feel that the experience gained during my placement year, including greater communications skills, contextualized leadership, confidence, and commercial awareness will further propel me in my career within any organisation.

Alysha Proctor, USA
Business Studies with Human Resource Management. Placement year with Connected Talent Ltd

Our Placement Response Team is here to support you before, during and after your placement: ulster.ac.uk/careers
Study abroad with our Go Global programme

“During my time at Ulster, I got the opportunity to live and experience New York for my placement year, organise real-life events, and develop my communication and managerial skills that will stand by my career in hospitality.”

GoGlobal — Cormac King, International Hospitality Management
Our Global Mobility Team is dedicated to finding opportunities for our students to learn and study abroad through our International Student Exchange Programme.

- Semester or full-year study programmes. If you complete a full-year study abroad programme you will receive a Diploma in International Academic Studies (DIAS).
- Academic summer schools at international universities including the USA, China and India.

Volunteer abroad

Give back and build your skills, expertise, and confidence by volunteering abroad. We have lots of opportunities working with children, young people, social projects, business and social enterprise, climate change campaigns and health promotion.

Recent Opportunities:
- Project Children Summer Work & Travel Program, USA
- Hospital Volunteering, Nepal
- Teaching Assistant, Nepal

World-class research

Every day our cutting-edge research and innovations are making a difference to thousands of people and their communities while developing the careers and industries of the future.

You will be taught by world-class researchers and academics whose advances and discoveries are transforming societies and economies at home and abroad.

Name: Professor Jim McLaughlin
Position: Head of the School of Engineering
Making a difference by: Saving lives with earlier diagnosis of heart disease
Challenge: Heart disease is the leading worldwide cause of death with 2% of healthcare expenditure spent managing heart failure.
Goal: Increase speed and accuracy of diagnosis which subsequently improves the treatment of heart disease and reduces the number of strokes.
Result: Wearable heart failure devices which measure critical ECG, skin temperature, heart and respiration rates. Data is sent via Wi-Fi for clinicians to download quickly and easily.
How you can make a difference: BSc Hons Biomedical Engineering

ulster.ac.uk/research
Name: Professor Frank Lyons MBE
Position: Associate Dean (Research and Impact)
Making a difference by: Making music available to all
Challenge: Current instruments and tools are challenging or inaccessible for some disabled musicians and composers.
Goal: Help disabled musicians compose and perform music.
Result: Using advances in creative technologies including virtual reality, Frank and his team created digital platforms so musicians with disabilities can make high-quality music. These technologies are now used by Frank’s ensemble Acoustronic of disabled and non-disabled musicians and is the first inclusive ensemble to be appointed to a national music conservatory anywhere in the world.
How you can make a difference: BMus Hons Music

Name: Professor Tony Bjourson
Position: Professor of Genomics and Director of C-TRIC
Making a difference by: Improving treatment rates through a personalised approach to medicine
Challenge: 58% of people over 60 live with multiple chronic diseases such as heart disease, COPD, MS, IBS, asthma and diabetes. Many are prescribed treatments that provide little, adverse or conflicting effects.
Goal: Increase the effectiveness of treatments to improve patient quality of life whilst reducing pressure on health services.
Result: A pioneering approach to personalised treatment enabling healthcare professions to identify and provide the right treatment based on their patient’s complex needs.
How you can make a difference: BSc Hons Personalised Medicine

Name: Dr Sinéad Fury
Position: Lecturer in Consumer Management and Food Innovation
Making a difference by: Reducing food poverty
Challenge: 20% of UK adults live in households classified as food insecure, with 10% reported as living in households with moderate or severe food insecurity.
Goal: Define, measure and map food poverty in Northern Ireland and beyond to inform government policy and services.
Result: Our research identified the extent and urgency of food insecurity including methods to predict who may be at greatest risk of food poverty and what services or programmes can be implemented to help households.
How you can make a difference: BSc Hons Consumer Management and Food Innovation
There are so many great reasons to study in Northern Ireland. Students studying in Northern Ireland enjoy low rents, affordable living expenses, and lots of free entertainment. Northern Ireland is famed for being a friendly and affordable place to study, so whether you are coming to Northern Ireland for the first time, or have lived here all your life, you can be sure you’ll enjoy one of the best student lifestyles in the world.

A home from home

Northern Ireland is easy to get to, and around. The two main cities of Belfast and Derry-Londonderry are connected by road and rail, and there are plenty of ways to visit other areas of the country.

Connected

Northern Ireland has lots of free museums, festivals, music and art so you’ll never be short of something to see and do.

Affordable

Culture
Parent friendly

There’s plenty to do when your family comes to stay. Visit filming locations for popular TV shows like Game of Thrones, Line of Duty or Derry Girls, go to the Giant’s Causeway World Heritage Site, stand in the spot where the Titanic was built or relax and catch up over a leisurely meal.

The great outdoors

You’re never far away from an amazing experience in the great outdoors. From sea to mountain, there are lots of opportunities for surfing, canoeing, cycling and hiking in some of the most beautiful countryside you will ever see.

Nightlife

Live music, affordable clubbing, a vibrant LGBT+ scene and friendly community make Northern Ireland a great place to enjoy a memorable night out.

Great food

From local delicacies to international cuisine, every taste is catered for.
Life on campus

#WeAreUU

Getting to Northern Ireland

With direct flights from over 40 destinations, and the international hubs of London and Dublin close by, Northern Ireland is easy to reach from anywhere in the world.

Fast ferries running multiple times each day from the ports of Belfast and Larne will get you to Scotland and England, and Wales can be reached from Dublin.

Campuses you’ll love

We have three campuses across Northern Ireland in Belfast, Coleraine and Derry~Londonderry.

Each campus has its own distinctive atmosphere and you can be sure that wherever you choose to study, you will have a fantastic student experience.
All within a one hour flight of Belfast

Coleraine > Magee 50 minutes
The Belfast campus is located within Belfast’s Cathedral Quarter, the bustling cultural centre of the city. We have invested heavily in developing modern, state-of-the-art facilities with the latest technologies to provide you with the best learning experience possible.

**Campus character**

With digital and social connectivity at its heart, our Belfast campus has a modern, creative vibe and embraces a range of subjects including art and design, architecture, hospitality, computing, engineering, business and management. The campus is home to The Academy - our award-winning training restaurant, Unique Art Shop and exhibition spaces. The brand-new 75,000m² development will accommodate 15,000 students and staff and is the core of the innovation district of the city.

I am an international student studying at Ulster University. I arrived in Belfast in September and what an experience it has been. I have come across so many nice people who are very hospitable. I have made new friends and I never run out of places to go and explore. If you are thinking of coming to Belfast stop thinking just do it!

Temiseayo Britto, Biomedical Science
Situated on the banks of the River Bann and just three miles from the bustling seaside towns of Portrush and Portstewart, our Coleraine campus is an outdoor lover’s dream.

Campus character

Courses at our Coleraine campus focus on health, the environment, hospitality and communication. The beautiful campus complex includes the Riverside Theatre, a state-of-the-art sports complex, woodland heritage trail as well as modern teaching and studying facilities. We have invested £6.5M in a media centre which includes a BBC TV studio, multimedia newsroom and editing suites. The campus also houses a model pharmacy and working optometry clinic which offers free student-led eye tests.

The Atlantic coast offers opportunities for surfing, body boarding and lots of other water sports. The Giant’s Causeway World Heritage Site, Game of Thrones Ballintoy Harbour and Carrick-a-Rede rope bridge are must-see attractions within easy striking distance of campus. The area is famed for its sporting credentials, hosting both the Open Golf Championship and the North West 200 motorcycle festival.

Above all, it’s a welcoming place for students, with lots of cafes, bars and club nights available making our Coleraine campus extremely popular.

...by train

Belfast 1hr 30mins
Derry~Londonderry 40mins
Being in Coleraine and along the North Coast is truly a once-in-a-lifetime opportunity to be among some of the most beautiful and historic parts of Northern Ireland. There is always something new to discover nearby and breath-taking landscapes to take in. I am so happy that I’ve not only chosen to study here but that I get to call Ulster and Northern Ireland home for the next three years!

Fatimah Khan, Canada. Pharmacy
Our Magee campus is located in the heart of Northern Ireland’s second city, Derry-Londonderry, the capital of the North West, and is only a short distance from idyllic County Donegal.

Campus character

Magee offers the best of both worlds - a city campus with a friendly vibe. Impressive, historic buildings such as our iconic Martha Magee building, blend perfectly with our modern £11M state-of-the-art teaching block and £1.3M refurbished library facilities. This campus is home to the Spatial Computing and Neurotechnology Innovation (Scan-i) hub which uses cutting-edge technology to determine the brain and body’s responses to stress, fatigue, achievement and other stimuli to develop the next generation of human/machine interaction. There are performance spaces for those studying music and drama and collaborative study spaces for those working on group projects. Magee’s diverse range of courses include business, nursing, sport, music, drama, computing and engineering so there is something for everyone.

The City of Derry is famous for its festivals, including the Foyle Film Festival, Halloween celebrations, Maritime Festival and Derry Jazz Festival. The vibrant nightlife is complemented by a wide range of cultural venues and activities, and the city’s fame has spread thanks to the popular TV show Derry Girls. Alongside being one of the most affordable places to live in the UK, the friendliness of the people of Derry-Londonderry make our Magee experience truly “Legenderry”.

City of Derry Airport 20mins drive
The international student community at Magee campus is very good as there are many events organised for us to get involved. The student community is diverse with lots of people doing different things, so you can learn from them as well. There are many facilities available in and around campus.

Berin Devadoss, India. Business Studies
Support for parents and guardians
We understand that this can be an exciting but challenging time as you prepare your child for their next chapter. We want to let you know that we are here to support you through every stage of your research, application and hopefully future enrolment at Ulster.

A guide for parents and guardians

We have created a useful guide to walk you through the process, what you and your child should consider when choosing their university, and critical milestones and dates. Key areas covered:

- Is university right for them?
- Choosing the best university for your child
- Fees and finance
- Applying to university
- Is Ulster University the right choice for your child?

You can download the full Parents’ Guide here - ulster.ac.uk/parentsguide

Before you apply

- Open Days – Your introduction to Ulster University, our course and support teams
- Course Events – An opportunity to delve deeper into courses and what life is like studying and living at Ulster

Once you receive your offer

- Applicant Events – Your chance to learn more about your course and what your day-to-day life at Ulster could be

We’re here to answer your questions:

Meet us

Throughout the year, we run a series of events where you can experience life at Ulster. You can find out more at ulster.ac.uk/global/events
Make yourself at home

Choosing where to live can be just as important as deciding on the course to study at university.
Accommodation guarantee
We guarantee all first year students who have made Ulster their first choice a place in one of our halls.*
*Accommodation must be booked by 14 August.

Our award-winning accommodation has:
- Self-catering facilities
- High-speed Wi-Fi
- Access to gym facilities
- Laundry services
- Student hubs for socialising

6 reasons to stay in university accommodation

1. Your social calendar is sorted
From trips to Ikea, nights out and bake-offs there’s always loads going on - a great way to meet new people and feel at home.

2. It helps you budget
Bills are included in your rent - utilities, Wi-Fi and housekeeping are all covered.

3. There’s space to hang
With cinema rooms, student hubs and outdoor spaces you won’t always be stuck in your room.

4. You get support when you need it
From changing a lightbulb to student wellbeing our Resident Assistants (all current students) are here to help you.

5. It’s a safe place to be
With 24/7 security, CCTV and control over who enters your flat, you and your belongings will be safe and secure.

6. A great location is guaranteed
All our accommodation is located on or close to our four campuses.
Belfast Accommodation
City centre living

Brand new, state-of-the-art accommodation. Shared (with ensuite), studio and twin apartments available. Everyone has access to the indoor and outdoor communal spaces available.

Sports, Clubs & Societies

Sport for all

Be part of ‘Team Ulster’

Whether you want to play social or competitive sport you can join one of our 70+ clubs to make memories, break records and be part of something special during your time at Ulster. From sub aqua, canoeing and mountaineering to taekwondo, Gaelic football and rugby we have loads of sports clubs you can play in and compete with.

Performance Sport

At Ulster University we are passionate about performance and helping people fulfil their potential.

We have tailored student support programmes to increase performance levels of individuals and teams, to maximise competitive success and enhance your student experience at Ulster University.
Talented Athlete Entry Scheme

We understand the dedication and commitment it takes to compete at the highest level. Long hours of training, intense regimes and competitions can sometimes mean a sacrifice in examination performance.

Our Talented Athlete Entry Scheme is designed to support and nurture aspiring athletes by reducing the entry grades required for full-time undergraduate courses.

Fantastic Facilities

Whether you are an athlete or a complete beginner, everyone can benefit from our excellent sporting and gym facilities at affordable student rates.

Choose between unlimited gold membership to pay-as-you-go options. Our sports centres have it all, including state-of-the-art fitness studios, a wide range of classes and multi-sport indoor and outdoor facilities, all supported by fully trained fitness staff.
Your Student Voice

We are a member-led organisation, headed by seven elected Student Officers, here to represent, connect and support you. We represent the student population on every University committee, ensuring your voice is always heard.

How do we support you?

- **The UUSU Advice Bureau** provides independent, confidential, and impartial advice on a range of academic and welfare issues
- **Our Academic Representatives** raise issues and suggestions with your course teams, working together to deliver the best possible course experience
- **Our Sabbatical Officers** are former students who champion the issues that matter to you

How you can support others?

If you run for rep you can get involved in decision-making and help influence change by giving a voice to your fellow students.
Your Student Destination

You can access all the benefits of your membership of UUSU at our four campus locations or online at UUSU.org.

Find your tribe with UUSU Clubs and Societies

We have over 100 student-led societies across all our campuses. They are a great way to meet new people or try something new. They also give you valuable experience and skills to enhance your CV.

If you have a specific interest or passion, we can help you set up your own society!

Join the Party

From registration to graduation our activities team give you plenty of opportunities to socialise both on and off campus. They put on student nights, comedy gigs, acoustic sessions and can help you create your own events.

Sports for fitness and fun

Benefiting from Ulster University’s sports facilities, UUSU have over 70 sports clubs and teams, including Disc Golf, Sub Aqua, Squash, Golf and Taekwondo. You can get involved in sport at any campus it doesn’t have to be the campus where you are studying.

Volunteer with UUSU

We work closely with several external organisations to deliver exciting and rewarding volunteering opportunities during your time at Ulster.

Student Enterprise Centre

UUSU Enterprise offers advice and guidance to help you get your business idea up and running, from developing a business plan to sourcing funding.

You can benefit from:
- Skills workshops
- Our entrepreneurship programme to network and test ideas
- Industry advisors and alumni mentors
- Start-up advice including legal and funding support

UUSU

This year I set up my own society. It runs across campus and it has been amazing to connect with students from different campuses who are studying a variety of subjects.

Amy Merron, Psychology
We’re here for you every step of the way

University life is exciting, and we know you will experience a big change with new friends, new studies and new living situations. We are here so that you can enjoy life at Ulster University to the fullest and have the best student experience possible.
The wellbeing support for students at Magee is nothing short of amazing, all the staff are so friendly and kind and are always open to talk to anyone.

Jordan Shaffer, Computer Science

Moving away from home can be quite daunting, but the Student Wellbeing team at Ulster have been incredible in providing support when things have felt difficult. Being a student at Ulster does feel like you have another family, who are always on hand for support, guidance and encouragement.

Olivia Elsey, History with English GB student - Wales

Campus life

We offer lots of ways for you to connect with others, get active, learn new things and settle into university life, along with giving you the opportunity to help fellow students. We find that these experiences help you to have a healthy, productive and enjoyable time at university.

Our Student Wellbeing team is always on hand to offer free, professional, confidential and accessible services in a number of areas.

Your wellbeing

We can provide advice and guidance on a range of issues like dealing with stress, academic matters and how to fit into student life. We want you to take good care of yourself, both physically and emotionally, and will be with you at every step of your time at UU with all the help you need.

Money matters

We can help you budget and manage your money so you can live within your means. We can also offer guidance and information on financial matters including tuition fees, bursaries and access to financial support.

Our AccessAbility team

If you have a disability or long-term medical condition, including mental health challenges or specific learning difficulties (e.g. ADHD, dyslexia), our AccessAbility team can provide you with a range of support and advice. You may be able to access funded support for assistive technology software and equipment or non-medical support. Let us know as soon as possible so we can work with you to meet your needs.

Counselling

All our students can access face-to-face counselling support from a trained counsellor, on or off campus. We also offer a confidential 24/7 counselling helpline.
Support for international students

We’re here to help

Our Office for Global Engagement will support you through the application process and throughout your time at Ulster University.

Why should you consider Ulster?

Ulster delivers a world-class UK university experience with the benefit of the lowest student cost of living in the UK.

Help during your application

As you work through your application we are here to help answer your questions on:

- Academic entry requirements and equivalence
- English language requirements and acceptable tests

We also hold regular webinars on applying to UU.

Help before your arrival

Once you have accepted your offer from Ulster, we are here to help you plan your arrival.

- Accommodation and where to live
- Pre-arrival information including how to get here
Come and meet us in your country!

We regularly attend fairs and events world-wide and hold WhatsApp events where you can ask questions.

Free and confidential immigration advice

Our Compliance Team is here to help with visa and immigration requirements before and during your studies with us.

- Student visa
- Extending your visa

Welcome Week

We’re here to help you settle into university life and living in Northern Ireland.

- Pick up service from local airports
- Information sessions
- Meet the academic teams and support staff
- Social events

ulster.ac.uk/global/pre-arrival
Start UU feeling positive and prepared!

#UUniReady
What is UUniReady?

UUniReady is a two-week, online programme designed specifically for you, as an international student. It covers some of the key academic areas and skills that you need to be successful at Ulster and also contains key practical information to help you settle into Northern Ireland.

The app was very helpful! I feel that I have a jump start on the school year!
Katelyn Dunn, United States

How has it been designed?

The programme is special in the way it has been produced. We interviewed and surveyed our academic staff to understand some of the challenges faced by international students coming to Ulster and also asked current international students about the things that they had found most challenging when they started their university degree. We have also involved the expertise of our Centre for English Language Teaching (CELT) to help you start thinking about University Level Academic English.

The program was very helpful. It was rich and informative and at the same time very exciting. Some of my fears was addressed in the program.
Funmilayo Abiodun Tolani, Ecuador

What will I learn?

The programme is made up of three pathways; Student Life, Academic Readiness and Final Preparations for travelling to the UK and is self-directed, which means you’re in control and can set your own pace.

Each pathway contains videos, articles, quizzes and worksheets that will help you develop your skills. As you work through the pathways, you’ll get notifications of how you’re doing and reminding you of any tasks that are outstanding. You’ll also be invited to live sessions where you can meet other new international students and ask questions.

I was able to obtain a broader understanding of how academic life will be at the University and feel better prepared than before.
Arya Biju Gopal, India

How will it help me?

Successfully completing the UUniReady programme will give you the best possible chance of success in your studies and help you transition smoothly to Northern Ireland.

How do I access UUniReady?

Once you have accepted your offer to study with us, you will receive a link to download the UUniReady app from the Apple or Android app store.
Faculties
We Are the Faculty of Arts, Humanities and Social Science

We are six schools dedicated to helping people make sense of our past, present and future. We tell stories, challenge, create and help others to reach their full potential, making a positive impact on people’s lives.

- Belfast School of Art
- School of Arts and Humanities
- School of Communication and Media
- School of Education
- School of Law
- School of Applied Social and Policy Sciences

We are home to state-of-the-art facilities

- Industry-standard television, music and radio studios, digital editing suites and Apple computer labs
- Mock courtroom to simulate real life scenarios, award-winning Law Clinic and Transitional Justice Institute
- Performance spaces, artist studios, fashion, textile and print workshops
- Unique - a boutique selling student creations
We Are the Faculty of Computing, Engineering and the Built Environment

We are four schools committed to driving scientific and technological innovation, powering the economy and building a forward-thinking future. We connect people, find solutions to challenges, create sustainable societies and solve healthcare problems, creating better ways and places for people to live and work.

- Belfast School of Architecture and the Built Environment
- School of Computing
- School of Computing, Engineering and Intelligent Systems
- School of Engineering

We are home to state-of-the-art facilities

- Onsite engineering labs with the latest technology and software
- Pioneering cognitive robotics lab
- NIBEC - one of Europe’s leading research centres for medical engineering
- CST - an industry leader in sustainable energy research
- Modern, well-equipped architecture design studios
We Are the Faculty of Life and Health Sciences

We are eight schools committed to improving quality of life by addressing some of the most important issues of our time including climate change, sustainability, poverty, and helping others by creating healthy and active societies.

- School of Biomedical Sciences
- School of Geography and Environmental Sciences
- School of Health Sciences
- School of Medicine
- School of Nursing
- School of Pharmacy and Pharmaceutical Sciences
- School of Psychology
- School of Sport

We are home to state-of-the-art facilities

- Onsite clinics to create real-world environments
- Sports Institute Northern Ireland, delivering expert advice to NI’s top athletes
- Five research institutes finding innovative ways to help society, the economy and the environment
- Research equipment to investigate diverse environments
We Are
the Ulster University Business School

One of the largest business schools in the UK, we are continuously working to empower businesses, creating the next generation of entrepreneurs. We are innovators and we create the goods, services and experiences demanded home and abroad.

- Department of Accounting, Finance and Economics
- Department of Hospitality and Tourism Management
- Department of Global Business and Enterprise
- Department of Management, Leadership and Marketing

We are home to state-of-the-art facilities

- Financial Innovation Laboratory - experience a real-life trading environment
- The Academy restaurant - an award winning licensed training restaurant
- Interactive lecture theatres and collaborative spaces
- Food and Consumer Testing Suite with product development kitchens and consumer research facilities

</table>
accounting (Pathways)  
BSc Hons  
Full-Time  
3 year FT degree or 4 year with placement year  
International Foundation Year available

Our Accounting Pathways degree is uniquely designed so that you can learn the core principles of accounting with the opportunity to specialise in those areas most required by the fast-growing Professional Services industry - forensic services, financial economics or management.

I Will Learn
- Financial accounting and the concepts underpinning corporate financial reporting; management accounting and how the management accountant can facilitate business decision-making.
- The broader context of the economy and an understanding of key principles including accounting law, governance, risk, and ethics.
- A tailored curriculum resulting in a final degree in Accounting, Accounting (Forensics), Accounting (Financial Services) or Accounting (Management Consulting).

Real World Experience
- Tackle real life projects using Bloomberg industry software, imitating the type of work you will encounter when you graduate.
- Our course has been designed with industry leaders and is taught by professionals with specialist and global experience.
- Apply your knowledge in the workplace or a new economy through optional 1 year work placement or study abroad programme.

Career Opportunities
- Professional Accountant  
- Forensic Accountant  
- Auditor
You must complete professional body exams to become a professional accountant. This degree can give you the maximum exemptions possible.

Why Ulster?
Accredited by Chartered Accountants Ireland, Association of Chartered Certified Accountants, Institute of Chartered Accountants in England and Wales, and Chartered Institute of Management Accountants.

Entry Requirements
Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at BCC.
Visit our online prospectus at ulster.ac.uk for further details.

Accounting with Specialisms  
BSc Hons  
Full-Time  
3 year FT degree or 4 year with placement year

Meeting the local and global demand for accounting professionals, this unique course enables you to specialise in taxation, management, or analytics. You will learn the foundations of accounting and each specialism before deciding on your final specialism.

I Will Learn
- Financial and management accounting, finance, taxation, economics and key principles including business and corporate law, governance, ethics, leadership and strategy.
- Analytical problem solving, teamwork, the ability to undertake research, commercial awareness, and the ability to organise and communicate information.
- A tailored, curriculum resulting in a final degree in Accounting with Taxation, Accounting with Management or Accounting with Analytics.

Real World Experience
- Learn through real life projects imitating the type of work you will be doing when you graduate.
- Our course has been designed with industry leaders and is taught by professionals with specialist and global experience.
- Choose a placement year to build up work experience for your CV.

Career Opportunities
- Professional Accountant  
- Tax Advisor  
- Business Analyst  
- Management Consultant  
- Operations Analyst  
- Business Management  
- Auditor
You must complete professional body exams to become a professional accountant. This degree can give you the maximum exemptions possible.

Why Ulster?
Accredited by globally recognised Chartered Accountants Ireland, Association of Chartered Certified Accountants and Chartered Institute of Management Accountants.

Entry Requirements
Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to our undergraduate programmes is the equivalent to three A-levels at CCC. However, some programmes will require higher grades and particular subjects.
Visit our online prospectus at ulster.ac.uk for further details.
### Accounting and Law

**BSc Hons**  
**Full-Time**  
4 year FT degree or 5 year with placement year

Designed so you can progress to a career in accountancy or law, you will gain an in-depth knowledge of the theory and practice of both areas whilst acquiring specialist knowledge in forensics, taxation, litigation, business recovery, and corporate law.

Undergraduate Prospectus 22/23

Animation
BDes Hons
Belfast
Full-Time
3 year FT degree or 4 year with placement year

Undergraduate

Fuelled by new distribution methods and technologies, Animation is a rapidly evolving global industry where creativity, illustration and technology combine. This practical studio focused course equips you with specialist skills in computer animation for games, VFX, feature and TV animation.

I Will Learn
- The principles of animation, design, storytelling and the history, practice, and theory of screen production.
- Animation strategies; prototyping, evaluation, and refinement of design.
- The creative and technical process using industry standard software to create interactive designs and computer animations including 3D digital art.

Real World Experience
- Work on live industry projects to gain essential work-based learning experience.
- Build your portfolio and CV through international competitions including YCN (Young Creatives Network) and ISTD (International Society of Typographic Designers).
- Experience life as a professional in the creative industries with an optional placement year.

Career Opportunities
- Character Animator
- Concept Artist
- Modeler
- Visual FX Artist
- Technical Director
- Storyboard Artist

Why Ulster?
Learn from industry experts who have experience working with Disney, Pixar and Lucas Film.

Entry Requirements
Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to our undergraduate programmes is the equivalent to three A-levels at CCC. However, some programmes will require higher grades and particular subjects.
Visit our online prospectus at ulster.ac.uk for further details.

Architectural Engineering
BEng Hons
Belfast
Full-Time
3 year FT degree or 4 year with placement year

Design and create modern, sustainable buildings that will shape the built environment of the future. Architectural engineering is an in-depth study of energy, building services, renewable technologies, engineering and management. Learn how these elements come together in the design process.

I Will Learn
- An understanding of the total building concept through an integrated design approach.
- The design of heating and cooling systems for buildings, electrical and energy supply and water supply and disposal.
- The importance of emerging renewable energy systems and technology.

Real World Experience
- You will complete a placement year to give you valuable experience of working within a building design setting.
- Our research expertise and close relationships with major employers means our course content is relevant to the industry.
- Practical lab and project work give you the chance to replicate real world building design.

Career Opportunities
- Design Engineer
- Facility Manager
- Consultancy Engineer
- Project Engineer
- Research Engineer

Why Ulster?
Accredited by the Chartered Institution of Building Services Engineers (CIBSE) and the Energy Institute (EI).

Entry Requirements
Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.
Architectural Technology is the technical side of architecture focusing on the science and performance aspects of building design. The course provides a broad knowledge base of building design including materials, building technology, heating, lighting, acoustics, statutory requirements, and digital construction.

I Will Learn
- How to design efficient and effective buildings that perform and endure over time.
- The theory and practice related to Building Information Modelling (BIM) and emerging digital construction processes.
- The roles and responsibilities of architectural technology professionals in a complex sector.

Real World Experience
- A work placement year gives you the chance to see how the theory is applied in industry.
- Technical design, problem solving, industry-led assignments and studio, laboratory, and field work.
- Final year research and design projects give you the chance to focus on issues which are highly relevant to the modern construction industry.

Career Opportunities
- Architectural Technologist
- Design Manager
- Low Energy Design
- Project Management

All graduates are encouraged to become Chartered Architectural Technologists with the CIAT, subject to Professional Assessment requirements.

Why Ulster?

Accredited by the Chartered Institute of Architectural Technologists (CIAT) with excellent industry links and input from leading design and construction professionals.

Entry Requirements
Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.
Art and Design  
/Foundation Year for Specialist Degrees/ 
Diploma  
Full-Time  
1 year FT

Learning from core and specialist tutors, this is a one-year intensive practice-based programme where you explore a range of art, design and digital methods and disciplines to make an informed subject choice for your undergraduate degree.

I Will Learn

- The fundamentals of theory and practice across a range of 2D and 3D disciplines.
- An experimental drawing programme including drawing from life, alternative means of drawing and making and interpreting visual information from many sources.
- Independent learning, critical thinking, specialist skills and exploration of the history, theory and contemporary practice in your chosen specialism.

Real World Experience

- Participate in specialist skills workshops and contextual seminars exploring the role of art, design, and digital media in the world around you.
- Showcase your work at the end-of-year show whose audience includes our network of national and international professional bodies.

Career Opportunities

- Artist  
- Gallery Manager  
- Art Technician  
- Journalist  
- Designer  
- Teacher

Completion of this course enables automatic progression to related undergraduate art and design degree courses at Ulster.

Why Ulster?

The Belfast School of Art has an enviable track record of award-winning students including two Turner Prize winners.

Artificial Intelligence  
/UGAS GA50/  
BEng Hons  
Full-Time  
4 year FT degree including placement year

Artificial Intelligence (AI) can bring major social and economic benefits by automating tasks currently done by humans in sectors like health, finance and manufacturing. Employers need skilled AI professionals to work in this exciting and fast-developing field.

I Will Learn

- The theory and principles of AI, which include computer science, mathematics, programming and software engineering.
- Programming languages for the production of AI and machine learning software components.
- How to analyse problems, reason a solution, and represent the knowledge using suitable AI methods and techniques.

Real World Experience

- You will complete a 1 year placement within the IT sector to learn how to apply and develop your knowledge.
- Our team are leaders in the field of AI for over 25 years, which brings vast industry experience through to our teaching.
- Practical projects and lab work are a key element to the delivery of the course, studying real world case studies.

Career Opportunities

- Data Scientist  
- Business Intelligence Analyst  
- Machine Learning Engineer  
- Software Developer  
- AI Research Scientist  
- Systems Analyst

Why Ulster?

Ulster is a leader in the field of AI research for over 25 years. This expertise is brought through to our teaching.

Entry Requirements

Refer to the University’s General Entrance Requirements.
*A Level* CC

Visit the online prospectus at ulster.ac.uk for further details.
As a biologist you will study life, living organisms, how they work, and their relationship to their environment. Our course covers core areas of biology with a focus on the biomedical, molecular and environmental sciences.

**I Will Learn**

- About human, animal and plant physiology, veterinary biology, chemistry and biochemistry, as well as cell biology.
- About genetic defects that contribute to human disease, advances in molecular genetics and the human genome project.
- About the underpinnings of ecology and biodiversity and how these important areas influence global issues.

**Real World Experience**

- Optional placement year.
- Opportunity to complete a MBiolSci Hons which involves one extra year of study consisting of online modules and an internship.

**Career Opportunities**

- Biologist
- Pharmacologist
- Research Scientist
- Ecologist
- Graduate medical/veterinary entry
- Teacher

A PGCE is required if you want to move on to a teaching role. Graduate medical/veterinary entry requires further application.

**Why Ulster?**

Graduates from this course are eligible for membership of the Royal Society of Biology.

---

Biomedical Engineers design and develop all the equipment used to diagnose illness and treat patients. You could be working with artificial organs, surgical robots, advanced prosthetics or the development of new drugs and driving major innovations in medicine.

**I Will Learn**

- An understanding of anatomy and physiology and how they apply to the area of biomedical engineering.
- How to use mechanical and electronic principles to design assistive devices that replace or improve bodily functions.
- How to use the latest software technology in the design and development of biomedical equipment.

**Real World Experience**

- You will complete a placement year with a relevant employer working in the biomedical sector.
- You will have the opportunity to undertake an extended period of study in the USA to learn practical business and management skills.
- Practical lab work and tutorials include both demonstrations and experiments of real-world medical applications of engineering principles.

**Career Opportunities**

- Biomedical Engineer
- Project Engineer
- Manufacturing Engineer
- Quality Compliance Manager
- Biomedical Research and Development Engineer

To become a Chartered Engineer, you will need to complete a Masters following your BSc degree.

**Why Ulster?**

The course is accredited by the Institute of Engineering and Technology (IET).
Biomedical Engineering

MEng Hons

Belfast

Full-Time

5 year FT degree including placement year

Biomedical Engineering is Engineering applied to human health. Biomedical Engineers develop equipment for medical diagnosis and treatment. You could be working with artificial organs, surgical robots, advanced prosthetics or the development of new drugs and driving major innovations in medicine.

I Will Learn

- An understanding of anatomy and physiology and how they apply to the area of biomedical engineering.
- How to use mechanical and electronic principles to design assistive devices that replace or improve bodily functions.
- How to use the latest software technology in the design and development of biomedical equipment.

Real World Experience

- You will complete a placement year with a relevant employer working in the biomedical sector.
- You will have the opportunity to undertake an extended period of study in the USA to learn practical business and management skills.
- Practical lab work and tutorials include both demonstrations and experiments of real-world medical applications of engineering principles.

Career Opportunities

- Biomedical Engineer
- Manufacturing Engineer
- Biomedical Research and Development Engineer
- Engineer in medical device sector

The MEng in Biomedical Engineering will meet the academic requirements for Chartered Engineer status.

Why Ulster?

The course is current awaiting accredation by the Institute of Engineering and Technology (IET).

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.

Biomedical Science

BSc Hons

Coleraine

Full-Time

3 year FT degree (B992) or 4 year FT degree (B991) with placement year

International Foundation Year available

Biomedical science explores how diseases develop and affect the normal functioning of the body. Our focus is on the investigation of the disease process and, ultimately, the development of methods for monitoring, diagnosing, treating, and preventing disease.

I Will Learn

- How diseases develop and impact on the body and the skills needed to investigate the disease process.
- How to develop methods for monitoring, diagnosing, treating, and preventing disease.
- Essential interpersonal and professional skills, equipping you to work locally or internationally.

Real World Experience

- Optional placement year in industry or a research institute, and study abroad opportunities.

Career Opportunities

- Pharmaceutical Research
- Research and Development
- Infection Control
- Forensic Science
- Scientific Journalism
- Teacher/Lecturer

A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

Why Ulster?

This course is accredited by the Institute of Biomedical Science (IBMS).

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.

Access NI check and possible medical.
**Biomedical Science, Applied (Pathology)**

**BSc Hons**

**Coleraine**

**Full-Time**

**4 year FT degree including placement year**

Learn how diseases develop and how to diagnose, prevent and treat them. This degree programme provides the educational and clinical experience for our graduates to work as a biomedical scientist in the hospital sector.

**I Will Learn**

- How diseases develop and impact on the body and the skills needed to investigate the disease process.
- How to develop methods for monitoring, diagnosing, treating, and preventing disease.
- Essential interpersonal and professional skills, equipping you to work within a National Health Service Laboratory.

**Real World Experience**

- One-year placement spent in a UKAS-accredited hospital pathology lab.

**Career Opportunities**

- Forensic Science
- Transfusion Service
- Infection Control
- Hospital Lab Diagnostics
- Research and Development
- Teacher/Lecturer

Successful completion, alongside Institute of Biomedical Science (IBMS) registration, enables registration as a Biomedical Scientist with the Health and Care Professions Council (HCPC).

A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

**Why Ulster?**

This course is accredited by the Institute of Biomedical Science (IBMS).

---

**Building Surveying**

**BSc Hons**

**Belfast**

**Full-Time**

**4 year FT degree including placement year**

Building Surveyors provide expert advice on all aspects of design, construction, maintenance and repair of buildings and the conservation of the built heritage. Much of their work involves the assessment of the condition of buildings and specifying remedial work to be undertaken.

**I Will Learn**

- An understanding of the roles and purposes of building surveying and its relationship with other disciplines within the industry.
- The principles and sustainable methods used in design and construction of buildings, and the role of building technology.
- The core areas of technology, maintenance management and building conservation as well as professional practice skills.

**Real World Experience**

- You will complete a placement year to gain relevant experience of applying your skills within the building industry.
- Practical project work is included at all stages of the degree programme.
- Our close relationships with employers keep our course content relevant to the modern building industry.

**Career Opportunities**

- Contracts Manager
- Estate Surveyor
- Project Manager
- Building Control Surveyor
- Building Surveyor
- Development Officer

You will need to complete the Assessment of Professional Competence to gain professional Chartered status.

**Why Ulster?**

The course is accredited by the Royal Institute of Chartered Surveyors (RICS) and the Chartered Association of Building Engineers (CABE).

---

**Entry Requirements**

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this undergraduate programme is the equivalent to three A-levels at BBB.

Visit our online prospectus at ulster.ac.uk for further details.

---

**Entry Requirements**

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.
### Business Analytics

**BSc Hons**

**Magee**

**Full-Time**

3 year FT degree or 4 year with placement year

As technology transforms the way we live and work, businesses must utilise data to influence decisions and be successful. Combining business, analytics and information technology, this degree is designed to develop the professionals needed by businesses to make smarter decisions.

**I Will Learn**

- How data and information systems are analysed to influence business.
- To develop skills in programming, data management and analysis, interactive web development, digital marketing, financial analytics and project management.
- The leadership skills and competencies required to influence and lead business decision-making.

**Real World Experience**

- Work collaboratively to develop practical projects with real businesses and community organisations.
- Opportunities to opt for internships and placements both locally and globally.
- Network and highlight your talent to top firms via guest lectures and projects with companies and professional bodies.

**Career Opportunities**

- Data Analyst
- Business Analyst
- Financial Analyst
- Marketing Analyst
- Marketing Officer

**Why Ulster?**

Graduates from the course are now working at top companies including Citi, BT and Kainos.

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at BCC. Visit our online prospectus at ulster.ac.uk for further details.

### Business Economics

**BSc Hons**

**Belfast**

**Full-Time**

3 year FT degree or 4 year with placement year

International Foundation Year available

Business Economics studies the function of a business and the decisions taken to make a profit and ultimately survive. You will understand the economic theories and principles that govern decision-making and management within public, private and third sector organisations.

**I Will Learn**

- The microeconomic and macroeconomic principles and issues that impact businesses and the wider economy including the role of government.
- Accounting, management and marketing fundamentals and key skills including statistics, analytical methods, entrepreneurship, business strategy and strategic planning.
- A detailed understanding of the global economy and Northern Ireland’s place within it.

**Real World Experience**

- Get access to the University’s economic policy centre for practical application and expert research.
- Course content has been designed to focus on practical skills that are in high demand by the current marketplace.
- Apply your knowledge in a CV-building placement year or study abroad to experience an alternative curriculum in a new economy.

**Career Opportunities**

- Accountant
- Financial Analyst
- Business Consultant
- Business Development
- Marketing Officer

**Why Ulster?**

Our graduates now work in some of the top firms including AllState, Citi, FinTru and PWC.

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at BCC. Visit our online prospectus at ulster.ac.uk for further details.
### Business Studies

**BSc Hons**

*Full-Time*

| 3 year FT degree or 4 year with placement year | International Foundation Year available |

The business world is evolving and requires highly skilled, flexible leaders in industry, commerce, and the public sector. This degree will provide you with valuable skills that are necessary in today’s business world.

**I Will Learn**

- An in-depth understanding of the key functions in business including, human resources, marketing, finance and accountancy, operations and management.
- How to develop a business strategy, manage its implementation and adapt in complex and challenging business climates.
- Core leadership skills including presenting, effective communication, how to influence and managing people and change within organisations.

**Real World Experience**

- Learn through projects with real life companies giving you valuable experience.
- Our course has been designed with industry leaders and is taught by professionals with specialist and global experience.
- Choose a placement year for hands on experience that will boost your employment prospects.

**Career Opportunities**

- Management
- Business Owner
- Brand Manager

**Why Ulster?**

Network and highlight your talent to top firms via guest lectures and projects with companies and professional bodies.

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.

### Business with Specialisms

**BSc Hons**

*Full-Time*

| 3 year FT degree or 4 year with placement year | International Foundation Year available |

Delivering business knowledge and skills with an expert focus you create the degree that fits your interests as you discover where your passions in business lie. Study core business modules before choosing a specialist focus of enterprise, accounting or marketing.

**I Will Learn**

- Core business skills including management, finance, organisational behaviour, operations and supply chain management, leadership and strategy and entrepreneurship and innovation.
- The basics of each specialism (enterprise, accounting and marketing) before deciding which specialist route to follow.
- Core leadership skills including presenting, effective communication, how to influence and managing people and change within organisations.

**Real World Experience**

- Our course has been designed with industry leaders and is taught by professionals with specialist and global experience.
- Learn through real life projects imitating the type of work you will be doing when you graduate.
- Choose a placement year for hands on experience that will boost your CV and network.

**Career Opportunities**

- Business Owner
- Business Manager
- Business Consultant
- Brand Manager
- Sales and Marketing Manager
- Sales and Marketing Manager

**Why Ulster?**

The Business School at Magee has excellent links with Invest NI and Enterprise Ireland supporting you to turn your ideas into reality.

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.
Business with Subject Combinations

Business as a Major

Business studies is the major subject in this degree covering topics such as finance, marketing, entrepreneurship, leadership and organisational behaviour.

Full-Time Entry Requirements

Grade requirements may vary depending on combination chosen. Please refer to the online prospectus at ulster.ac.uk for the full details.

Business with Computing

BSc Hons

Why study Computing as a Minor?

- As organisations evolve they rely on computers and technology, there is a need for graduates with skills in both.
- By studying computing as a minor, you will develop skills in managing business’ computer hardware, network operations and cyber security.

Business with Education

BSc Hons

Why study Education as a Minor?

- An excellent introduction to a future career in the general education or training sectors.
- It will provide you with an introduction to the main concepts of educational theory and practice in NI, the UK and internationally.

Business with Drama

BSc Hons

Why study Drama as a Minor?

- Develop your skills in analysing and creating performance, readying you for a career in management of theatre or the creative industries.
- You can choose topics including performance, writing for stage and screen, the theatrical space, storytelling and performance and more.

Business with Irish

BSc Hons

Why study Irish as a Minor?

- Studying language and literature is a great option if you want to develop a career in business where the Irish language is a component.
- By studying Irish as a minor subject, you will develop excellent written, conversational and interpretative skills.

Visit the online prospectus at ulster.ac.uk for further course details and full entry requirements
An exclusively practical and industry leading degree for those who want to work in film, TV drama and streaming media, you will develop practical methods in dramatic filmmaking by forging together storytelling with the very latest in professional film production.

**I Will Learn**

- Editing, lighting, sound and camera techniques for digital video productions.
- The skills and knowledge required for filmmaking and image production across various platforms; mobiles, tablets and 4k digital cinema screens.
- Storytelling elements of character development and production design with modules including screenwriting, advanced cinematography and art direction.

**Real World Experience**

- Learn in our state-of-the-art studio complex with industry standard equipment.
- Experience life as a professional in the creative industries with an optional placement in year 3.
- Build your showreel with the final year project and genre modules before showcasing at the end of year show.

**Career Opportunities**

- Director
- Producer
- Screenwriter
- Cinematographer
- Film/TV Editor
- Sound Designer

**Why Ulster?**

Access to leading placement opportunities; Hedgehogs vs. Foxes, PSNI, Pinewood Studios, Foyle Film Festival, BBC, Nerve Centre, NI Screen.

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.
Civil Engineering

BSc Hons

Full-Time

4 year FT degree including placement year

Learn to design and build the world around you. Civil Engineers plan and manage the construction of all kind of infrastructure projects including large-scale buildings like hospitals and universities, bridges, energy and water supply, waste disposal, roads, railways and tunnels.

I Will Learn

- Modern planning, design and surveying techniques for a range of building and infrastructure projects.
- An understanding of fundamental behaviour of materials to select the correct specification, design and construction techniques for each build.
- To use Computer Aided Design (CAD) and other software technology in the design and planning of infrastructure projects.

Real World Experience

- You will take a work placement year with a relevant employer who works within the construction industry.
- Practical project work is an essential part of the course.
- Site visits and field work will show you how the theory is applied to real world building projects.

Career Opportunities

- Civil Engineer
- Structural Engineer
- Transport Engineer
- Environmental Engineer
- Planning Engineer
- Projects Manager

You can transfer to the BEng in Civil Engineering if you achieve an average score of 70% or over at the end of year 1.

Why Ulster?

The course is accredited by the Joint Board of Moderators and the Chartered Institute of Civil Engineering Surveyors (CICES).

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.

Civil Engineering

BEng Hons / MEng Hons

Full-Time

4 year FT degree including placement year

PT Higher Level Apprenticeship option available

Civil Engineers plan, design and deliver engineering projects such as reservoirs, roads, railways, bridges, tunnels, ports and airports. Learn modern technical engineering, building and design techniques together with the management skills needed to deliver complex infrastructure projects.

I Will Learn

- The construction process, including the interaction between design, construction methods/materials, the programming of work and health and safety issues.
- Survey principles and practices which are essential to the civil engineering and construction sectors.
- The management of design and construction processes. This includes tendering, decision making, contract agreements and managing people.

Real World Experience

- You will complete a placement year with an employer in a building or construction setting.
- Extensive practical laboratory testing and project work is included throughout your degree programme.
- Site visits, field work and case studies all provide a great insight into how the theory is applied in practice.

Career Opportunities

- Civil Engineer
- Structural Engineer
- Transport Engineer
- Sustainability Manager
- Highways Engineer
- Structural Engineer

Further learning after you finish your degree is required to become a Chartered Engineer (CEng).

Why Ulster?

The University has one of the most advanced and best equipped highways laboratories in Ireland.

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.
Communication and Counselling Studies  

BSc Hons  

Belfast  

Full-Time  

3 year FT degree  

Offering practical communication skills and a robust understanding of the importance of effective communication within counselling, health and other contexts, this innovative degree is a solid academic grounding suitable for pursuing professional counselling or psychotherapy training and accreditation following graduation.

I Will Learn

- The emotional and psychological development of the person within family, social and cultural settings.
- Relationship building and ethical practice for working with people within counselling, healthcare and therapeutic contexts.
- Organisational, observational, analytical and reflective skills required for work in counselling, psychotherapy, other health and social care and communication-led professions.

Real World Experience

- You will have access to innovative skills recording labs to practice communication and counselling skills using real life scenarios.
- Teaching will be delivered by research-active academic staff, with experience in counselling, psychotherapy, or health-consultancy, and who hold professional body membership.
- In preparation for employment, you will apply learning to workplace experiences to identify and develop the skills required by employers.

Career Opportunities

- Counsellor
- Psychotherapist
- Civil Servant
- Retail Manager
- Human Resource Manager
- Social Worker

To become a professional counsellor, psychotherapist or social worker, you will need to complete formal practitioner training following graduation.

Why Ulster?

This course has been awarded advanced/specialist training status by the National Counselling Society (NCS).

Entry Requirements

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.

Communication Management and PR  

BSc Hons  

Belfast  

Full-Time  

3 year FT degree or 4 year with placement year  

International Foundation Year available  

Explored within the wider context of the communication industry, this degree focuses on the role of Public Relations and strategic communications in building a positive brand or company reputation with employees, customers, consumers or key stakeholders like government or industry bodies.

I Will Learn

- Social psychology of communication; how we as individuals understand ourselves, and how our social environment shapes us.
- Strategic communication skills including interpersonal, group and organisational communication, written skills and digital media skills.
- About the theory and practice of Public Relations, including media and political contexts.

Real World Experience

- Collaborate with industry/professional bodies on live projects; Public Relations Institute of Ireland (PRII) and Chartered Institute of Public Relations (CIPR).
- Experience life as an industry professional with an optional placement in year 3.
- You will be taught by experienced practitioners and benefit from guest speakers from the communication and PR industry.

Career Opportunities

- PR Consultant
- Communication Strategist
- Marketing Executive
- Public Affairs
- Event Manager

A route to becoming chartered, this degree provides excellent exemptions from CIPR professional body exams.

Why Ulster?

This degree is recognised by the Chartered Institute of Public Relations (CIPR).

Entry Requirements

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.
Communication, Advertising & Marketing

**BSc Hons**

**Belfast**

**Full-Time**

3 year FT degree or 4 year with placement year

Informed by industry developments and advances in new and emerging technologies, this degree provides a working knowledge of advertising, public relations and marketing practices alongside a practical awareness of the wider business context within which the communication industry operates.

**I Will Learn**

- The fundamentals of communication, marketing, advertising, public relations, consumer behaviour, research methods, and digital marketing communication.
- The role of spoken and written language and the implications of digital communication developments for both communication theory and practice.
- A range of applied and complementary skills including interpersonal communication, design principles, marketing leadership and analysis.

**Real World Experience**

- Work on live industry briefs giving hands-on experience for your CV.
- Build your CV and network by competing in the Publicity Association of Northern Ireland (PANI) Advertising Competition under the mentorship of top NI agencies.
- Experience life as an industry professional with an optional placement in year 3.

**Career Opportunities**

- Marketing Manager
- Account Executive
- Media Buyer
- Digital Marketing Manager
- PR Officer
- Advertising Executive

**Why Ulster?**

This course is recognised by the Chartered Institute of Public Relations (CIPR).

**Entry Requirements**

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.

Community Youth Work

**BSc Hons**

**Belfast**

**Full-Time**

3 year FT degree

For those seeking a rewarding professional career working with young people, this highly practical course equips youth workers with a range of skills, values, knowledge, and the qualifications needed to work in professional settings that deal directly with young people.

**I Will Learn**

- A deep understanding of the context within which youth work operates including local and global influences, psychology processes and sociology.
- Leadership, management, and supervision skills to help develop and support young people including interpersonal skills, informal education, and social policy.
- About transforming communities, the Northern Ireland context, and the use of community development approaches to work within contested spaces.

**Real World Experience**

- There are three placements (300 hours) throughout the course, giving you essential hands-on experience and skills for your future practice.
- As part of assessed modules, you will carry out work-related tasks to build discipline-specific competencies.
- You will be taught by experienced youth work practitioners specialising in generic youth work, gender-based practice and community relations.

**Career Opportunities**

- Youth Worker
- Youth Mentor
- Youth Club Manager
- Project Coordinator
- Alternative Education Tutor

**Why Ulster?**

This degree is endorsed by NSETS (North South Education and Training Standards committee) for the purpose of professional qualification.

**Entry Requirements**

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CDD.

Visit our online prospectus at ulster.ac.uk for further details.

Access NI check.
Computer Science (Software Systems Development)  

BA Hons  

Magee  

Full-Time  

4 year FT degree including placement year

Learn how to use software engineering to develop information systems for organisations. Get involved in idea generation through to implementation of the systems. Software systems are used throughout our everyday lives, in healthcare, business, entertainment, transport and more.

I Will Learn

- Modern programming skills through modules that teach not only the principles of software development but also high-level programming languages.
- To design, build, operate and maintain complex computer and information technology systems.
- How to develop web-based and mobile app solutions for real world industries.

Real World Experience

- Complete a 1 year work placement in an IT setting to get hands-on software development experience.
- Hear from industry experts through guest lecturers and demonstrations.
- Our close links with employers ensures our course content gives you the skills that the industry need.

Career Opportunities

- Software Developer
- Web Developer
- Applications Security Specialist
- Softwre Engineer
- Technical Analyst

Why Ulster?

The course is accredited by the British Computing Society (BCS).

Entry Requirements

Refer to the University’s General Entrance Requirements.  
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.  
Visit our online prospectus at ulster.ac.uk for further details.

Computer Science

BSc Hons  

Magee  

Full-Time  

4 year FT degree including placement year

Learn how to design software, how computers communicate and how they perform tasks. Find out how computing impacts all aspects of modern life. The course offers a varied computer science education, focussed on the development of your programming skills throughout.

I Will Learn

- Modern programming skills to design, build, operate and maintain complex computer systems.
- How to build and maintain real-world, dynamic websites and mobile apps using open source languages.
- How to plan, develop and implement a computing system in a real-world setting.

Real World Experience

- A 1 year work placement year within the tech industry will give you hands-on experience of how computing is applied.
- Regular talks and guest lectures from leading IT employers are built into the teaching.
- Practical lab work, projects and case studies are all used to throughout each year of the course.

Career Opportunities

- Software Developer  
- IT Analyst  
- Programmer  
- Web Developer  
- Technology Consultant  
- IT Support Engineer

Why Ulster?

The course is accredited by the British Computing Society (BCS).

Entry Requirements

Refer to the University’s General Entrance Requirements.  
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

**Computing with Education**

**BSc Hons**

**Magee**

**Full-Time**

4 year FT degree including placement year

Studying Computing in combination with Education is an excellent introduction to a future career in the education sector. The course will provide you with an introduction to the main concepts of educational theory and practice and the key fundamentals of Computing.

I Will Learn

- To design, develop and evaluate software for a range of platforms.
- To program, design databases, and develop responsive web sites.
- Contemporary educational issues, and how to use technology in a learning environment.

Real World Experience

- Gain structured and professional work experience as part of a planned programme of study in year 3.
- You will also have the opportunity to study outside the UK and Republic of Ireland in year 3.
- Our teaching includes practical work, field trips and case studies which means you can apply the theory to real world scenarios.

Career Opportunities

- Professional Development trainer
- Technical Support Engineer
- Computing Teacher/Lecturer

A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

Why Ulster?

Our close links with industry ensures the course content provides you with the skills and knowledge that employers need.

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.

---

**Construction, Engineering and Management**

**BSc Hons**

**Belfast**

**Full-Time**

4 year FT degree including placement year

Learn how to build the world around us. Get the professional skills demanded by construction companies around the world. Learn effective management of construction projects vital to the economy and the success of any project relies on good decision makers.

I Will Learn

- The science, technology and materials of buildings and the very latest construction techniques.
- Financial, quality and project management of complex construction projects.
- To use the very latest software and site equipment that are driving innovation in the modern construction sector.

Real World Experience

- You will complete a work placement year to get hands-on experience of how construction projects are managed.
- Site visits, case studies and projects are included in each year of the course.
- Our strong links with employers in the construction sector means our degree gives you the skills the industry needs.

Career Opportunities

- Site Engineering
- Building Control
- Project Manager
- Construction Management
- Facilities Management
- Contract Management

Why Ulster?

We are ranked 3rd in the UK for Building (Times Good University Guide, 2022).

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.
### Consumer Management and Food Innovation

**BSc Hons**

**Coleraine**

**Full-Time**

3 year FT degree or 4 year with placement year

This course focuses on understanding the role of the consumer and the importance of meeting consumer demands within today’s marketplace. You will learn what role the consumer plays in the design, development, management, marketing and retailing of food products and services.

**I Will Learn**

- Key business management skills needed to develop, launch and market new products or services.
- Specialist food and consumer modules such as food sensory science, health and consumer lifestyle, food and innovation and consumer law.
- To be creative, innovative and entrepreneurial – highly sought after and transferable skills across industry.

**Real World Experience**

- Practical modules and case studies are delivered in the realistic work facilities of the Food and Consumer Testing Suite (FACTS).
- Get invaluable industry experience with a placement year, our students have worked at M&S, Cadbury, Tesco and Moy Park.
- Course content is designed to give an up to date understanding of how you can add value to business.

**Career Opportunities**

- Consumer Research
- Food Product Development
- Sales and Marketing Manager
- Brand Manager
- Quality Assurance

**Why Ulster?**

Accredited by the Institute of Hospitality.

### Entry Requirements

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent of three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.

### Criminology and Criminal Justice

**BSc Hons**

**Belfast**

**Full-Time**

3 year FT degree or 4 year with placement year

Criminology and criminal justice addresses crime, deviance, and its control. Informed by a range of disciplines including law, public policy, social policy, and economics, you will delve into criminological concepts like victims, policing, sentencing, punishment, corporate, state and cyber crime.

**I Will Learn**

- What crime is, its impact on victims and why people break the law including the role of society, education, and media.
- The criminal justice system, its institutions and how it adapts and responds to contemporary issues.
- The role of sentencing, punishment, and restorative justice and their impact on victims, offenders and the wider society.

**Real World Experience**

- Opportunities to apply theories through work-based learning, volunteering, or optional 1 year work placement.
- Assessments, lectures, and seminars are designed to develop your transferrable skills including communication, critical thinking, presenting, and writing.
- Option to study abroad where you can benefit from an alternative curriculum and experience an unfamiliar culture and system.

**Career Opportunities**

- Prison Officer
- Police Officer
- Support Worker
- Housing Officer
- Policy Officer
- Researcher

**Why Ulster?**

You will have the opportunity to apply for a 1 year internship opportunity with the PSNI.

### Entry Requirements

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.
Culinary Arts Management

BSc Hons

Full-Time

4 year FT degree including placement year

Create delicious dishes and learn the management skills needed for a vibrant global career. This course combines practical culinary skills with business and management knowledge. Experiment with flavour whilst learning how to manage people and let your entrepreneurial skills shine.

I Will Learn

- Culinary skills in the kitchen, create pastry masterpieces and flavoursome dishes.
- The business and management skills required for the industry including how to create a business plan and marketing.
- How to manage food and beverage operations.

Real World Experience

- One of a few courses at university level that offers learning in a fully operational restaurant ‘The Academy’.
- Get invaluable industry experience with a placement year.
- Includes visits and talks from industry leaders and award-winning chefs.

Career Opportunities

- Head Chef
- Development Chef
- Food Stylist
- Restaurant Owner/Manager
- Food Entrepreneur

Why Ulster?

Accredited by the Institute of Hospitality.

Drama

BA Hons

Full-Time

3 year FT degree

International Foundation Year available

An exciting and diverse programme with an emphasis on contemporary performance practices, this degree will develop your creative, critical thinking and practical skills in the specialist areas of performance, playwriting/screenwriting, directing or production.

I Will Learn

- The fundamentals of drama including acting, stage management, dramatic theory and practice, applied and educational drama, directing, playwriting/screenwriting.
- Practical skills to run a performance event, using theatrical lighting, sound equipment and media for digital presentation.
- Analysis, critical review, the role and future of contemporary arts, arts administration, entrepreneurship, and the business of theatre.

Real World Experience

- Access to studio spaces to produce, practice and critique performances replicating real life industry job roles.
- Extensive links with theatre practitioners and key Irish theatre companies, who use our spaces for performances and delivering practice-based workshops.
- Teaching by internationally recognised researchers with a wide range of industry related expertise.

Career Opportunities

- Actor
- Stage Manager
- Director
- Drama Facilitator
- Teacher
- Community Artist

Why Ulster?

A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

Why Ulster?

The transferable skills associated with drama equip you for industry alongside a variety of non-specialist careers.

Entry Requirements

Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.

Entry Requirements

Refer to the University’s General Entrance Requirements.

**BA Hons Drama with Education**

**Why study Education as a Minor?**
- An excellent introduction to a future career path in the education sector, both in schools and training.
- Study main concepts and concerns of contemporary educational theory and practice before applying for a Postgraduate Certificate in Education upon completion of your degree.

**BA Hons Drama with Marketing**

**Why study Marketing as a Minor?**
- Learn key marketing principles including business analytics, consumer behaviour, marketing management and digital strategy and communications.
- You will apply your knowledge to live industry projects and real-world case studies.

**BA Hons Drama with Irish**

**Why study Irish as a Minor?**
- Develop core language skills through Irish language and culture modules whilst exploring genres across the Irish literary tradition.
- Learn important analytical techniques and the capacity to form coherent arguments in both spoken and written form.

**BA Hons Drama with Music**

**Why study Music as a Minor?**
- Through optional modules, you can explore musicology across several musical genres and develop your composition skills and portfolio including composing and producing large scale pieces of music.

**Other Courses you may want to consider**
- BSc Hons Business with Drama | N1W4
- BA Hons Irish with Drama | Q5W4
- BA Hons Music with Drama | W3W4

Visit the online prospectus at ulster.ac.uk for further course details and full entry requirements.
Economics

BSc Hons

Full-Time
3 year FT degree or 4 year with placement year

Economics relates to every aspect of our lives, it concerns itself with how resources are allocated to satisfy people’s wants and needs. This course will cover the practical application of economics to finance, policy-making and management.

I Will Learn

- Microeconomics - the study of how people, groups and businesses use their wealth.
- Macroeconomics - the unemployment, inflation, and monetary challenges of cities, countries and continents.
- The economic and political theories that influence economic policies and how we work and live locally, nationally and globally.

Real World Experience

- Get access to the University’s Economic Policy Centre for practical application and expert research.
- Course content has been designed to focus on practical skills that are in high demand by the current marketplace.
- Choose a placement year to build up work experience for your CV.

Career Opportunities

- Accountant
- Economist
- Stockbroker
- Data Analyst
- Risk Consultant
- Compliance Officer

Why Ulster?

Our graduates now work in some of the top firms including Citi, Deloitte, FinTru and PWC.

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this undergraduate programme is the equivalent to three A-levels at BCC.

Visit our online prospectus at ulster.ac.uk for further details.

Education as a Minor

An excellent introduction to a future career path in the education or training sector. You will be introduced to the main concepts and concerns of contemporary educational theory and practice in Northern Ireland, the UK and internationally.

Students who are interested in teaching as a career may decide to add Education to their degree ‘mix’ at undergraduate level before applying for a Postgraduate Certificate in Education after they have completed their degree.

We impact civic development, educational policy and practice and are a UNESCO chair/UNESCO centre with Internationalised curriculum.

Full-Time Entry Requirements

Grade requirements may vary depending on combination chosen. Please refer to the online prospectus at ulster.ac.uk for the full details.

To become a Teacher, you will complete a PGCE following your undergraduate degree in an accepted subject.

**Education with Digital Learning**

**BSc Hons**

**Full-Time**

**3 year FT degree**

The growth in digital learning and teaching is fuelling demand for education and training professionals. This innovative course provides the skills and knowledge needed to design and deliver digital learning platforms for children, young people, adults and employers.

**I Will Learn**

- Theory and practice of education design for a digital world, including remote teaching and learning and delivery of online courses.
- Current issues and debates in education, exploring educational research, with a particular focus on social, digital and cultural challenges.
- How to facilitate effective learning environments; the digital classroom, curriculum design, lesson planning, peer teaching, classroom interaction.

**Real World Experience**

- Gain hands-on experience in an education setting with a semester long placement opportunity in year 2, in Northern Ireland or abroad.
- The professional and personal development module prepares you for the world of work; you will create an e-portfolio to showcase your skills and experience.
- Benefit from close links with e-learning start-ups, business organisations, NGOs and schools across the region.

**Career Opportunities**

- Learning Technologist
- On-line Teacher
- Education Advisor
- Digital Learning Developer
- Outreach Officer
- Lecturer in Higher Education

A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

**Why Ulster?**

You will benefit from over 20 years of digital learning experience at Ulster University.

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.

---

**Electrical and Electronic Engineering**

**BEng Hons**

**Full-Time**

**4 year FT degree including placement year**

From small household appliances to power stations and global satellite networks, Electrical and Electronic Engineers design innovative products and systems and make them work. Study the principles and uses of modern electronics such as programming, circuit design and embedded systems.

**I Will Learn**

- Electrical and electronic engineering principles and how they apply to electrical systems.
- Fundamental engineering mathematics, electrical systems, electrical circuits, electrical technology, design and computer aided engineering skills.
- How to prepare project specifications, undertake research, create test procedures, interpret data and write reports.

**Real World Experience**

- You will complete a 1 year work placement in industry, working with an employer in the fields of electrical or electronic engineering.
- There is also an option to study abroad, to get practical experience of how electronics is applied in other countries.
- Excellent lab facilities and equipment on campus will provide you with practical experience through project work and demonstrations.

**Career Opportunities**

- Electrical Engineer
- CAD Technician
- Design Engineer
- Sound Engineer
- Special Effects Technician
- Electronics Engineer

To become a Chartered Engineer, you will need to continue your studies and complete a Masters in an Engineering subject.

**Why Ulster?**

Our purpose-built Engineering Centre and our strong links with employers gives you the ideal platform to start your career after graduation.

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.
Electronic Engineering

**BEng Hons**

**Full-Time**

4 year FT degree including placement year

Electronic engineers are the brains behind driverless cars, the iPad, video conferencing and the microwave oven to name a few. The MEng gives you the technical and project management skills you need to succeed in engineering graduate employment.

**I Will Learn**

- To design, build and manufacture a wide range of electrical devices.
- To apply electronics to many areas, including power generation and control, transportation, IT, manufacturing, construction and telecommunications.

**Real World Experience**

- A 1 year work placement provides important real-world context for your studies and relevant industrial experience.
- Employers have helped us to create the content, meaning you will be learning the skills that the industry needs.
- You will conduct experiments and undertake practical laboratory-based projects throughout the course.

**Career Opportunities**

- Electronic Engineer
- Embedded Systems Engineering
- Design Engineer
- Sound Engineer
- Special Effects Technician
- Systems Analyst
- Special effects technician

The MEng fully meets the academic requirement for becoming a Chartered Engineer.

**Why Ulster?**

Join our student Engineering Society for a fantastic team working experience.

---

**Entry Requirements**

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.

86
Electronic Engineering with Enterprise Development

**BEng Hons**

**Full-Time**

4 year FT degree including placement year

Electronics engineers help build mobile phones, TVs and smart fridges - in fact, any innovative piece of technology you can think of. This degree prepares you to become a professional engineer, making your ideas a business reality.

**I Will Learn**

- An understanding of fundamental electrical and electronic engineering principles.
- How modern technologies work, from household appliances and installing lighting within buildings, to power stations and satellite communications.
- The business skills you need to bring products to market.

**Real World Experience**

- You will complete a relevant work placement year to bring the skills you have learned to real world applications.
- Enterprise modules give you the business development skills needed to achieve top roles in industry or start your own business.
- Lab work, case studies and project work bring the theory to life and give you practical experience.

**Career Opportunities**

- Electrical Engineer
- CAD Technician
- Project Manager
- Design Engineer
- Sound Engineer
- Electronics Engineer

To become a Chartered Engineer you will need to continue your studies to complete a Masters in an Engineering subject.

**Why Ulster?**

Our close relationship with industry has helped shape this course. The content gives you the skills that employers ask for.

**Entry Requirements**

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.

---

Energy

**BSc Hons**

**Full-Time**

4 year FT degree including placement year

Explore renewable energy technologies and the use of science and technology to find innovative solutions to real-world energy problems. Help find solutions to the challenge of addressing the world’s need for affordable, sustainable, secure and safe energy supplies.

**I Will Learn**

- How conventional and renewable energy systems work including wind, bio-energy, solar, tidal, heat pumps, smart grids and energy storage technologies.
- To design, specify and monitor performance of energy systems and ensure their economic and environmental benefits around the world.
- To understand new theories, technologies, concepts and methods and adapt them to meet future energy supply challenges.

**Real World Experience**

- A 1 year work placement is included to give you essential hands-on experience of working within the energy industry.
- Real world case studies and site visits are used to show how energy systems are used around the world and at home.
- Our research expertise and links with employers have shaped the course content to ensure you acquire the skills that the industry needs.

**Career Opportunities**

- Energy Analyst
- Energy Technology Designer
- Energy Systems Engineer
- Energy Systems Consultant
- Project Manager
- Energy Project Manager

You will need to continue your studies to complete a Masters in order to become a Chartered Engineer.

**Why Ulster?**

The course is accredited by the Energy Institute (IE)

**Entry Requirements**

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.
Engineering management combines technical know-how with business acumen to play a major role in design of manufacturing systems and processes. You will create innovative products and new business models to support high-value manufacturing.

I Will Learn

- The fundamental principles of engineering combined with practical management skills.
- Engineering technology and materials, manufacturing systems, product and system design, CAD, complemented by studies in business and management.
- Professional skills such as project management, communications, team-working, problem solving, creativity and an understanding of the role of the professional engineer.

Real World Experience

- Complete a work placement year to get experience of how the theory you learn is applied in industry.
- Individual and team assignments help you develop your professional skills in essential areas such as team-working, project management and communications.
- Workshops and labs allow you to develop practical engineering skills.

Career Opportunities

- Engineering Manager
- Design Engineer
- Systems Analyst
- Manufacturing Engineer
- Operations Manager
- Quality Engineer

To become a Chartered Engineer you will need to complete further learning to Masters level.

Why Ulster?

Accredited by the Institution of Engineering and Technology (IET) and the Institution of Mechanical Engineers (IMechE).

Entry Requirements

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.
Engineering Management

MEng Hons

Full-Time
5 year FT degree including placement year

Engineering management plays a major role in design of manufacturing processes, the creation of innovative products and the building of business models to support manufacturing. Complete the MEng course to continue your pathway to becoming a Chartered Engineer.

I Will Learn

- To lead on engineering developments through innovation, creativity, and management of change.
- Essential skills in engineering, technology, materials, manufacturing systems, project planning and system design.
- Business and management skills to help you succeed in leadership roles.

Real World Experience

- A work placement year gives you experience of how the theory is applied in industry.
- Workshops and labs allow you to develop practical engineering skills.
- Your final year MEng level project will give you excellent practical experience of developing solutions to real-world engineering challenges.

Career Opportunities

- Engineering Manager
- Manufacturing Engineer
- Design Engineer
- Systems Analyst
- Research or Lecturing
- Project Manager

Why Ulster?

Accredited by the Institution of Engineering and Technology (IET) and the Institution of Mechanical Engineers (IMechE).

Entry Requirements

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.

English

BA Hons

Full-Time
3 year FT degree or 4 year with placement year
International Foundation Year available

Embrace your love of reading whilst cultivating key skills as a thinker, writer, and communicator. Following a core first year, you can personally tailor your course so you can pursue your literary passions across the traditional and contemporary eras.

I Will Learn

- A knowledge of literature, television and film from Shakespeare’s time up until the present day.
- Excellent writing styles for different professional and creative writing, like journalism, fiction, non-fiction, drama, and poetry.
- Highly transferable skills including problem-solving, critical thinking, creativity and communication.

Real World Experience

- Benefit from our resident poets and writers who can provide first-hand experience of the writing and publishing process.
- Option to study abroad where you can benefit from an alternative curriculum and experience an exciting new culture.
- Experience life as a professional and build CV skills with an optional placement in year 3.

Career Opportunities

- English Teacher
- Civil Servant
- Journalist
- Communication Manager
- Screenwriter
- Publisher

A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

Why Ulster?

You will learn from world-leading researchers across the literary canon.

Entry Requirements

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.
English with Subject Combinations

Coleraine

English as a Major

Grade requirements may vary depending on combination chosen.

Environmental Health

BSc Hons

Full-Time

4 year FT degree including placement year

Environmental health professionals are at the forefront of designing and improving the public’s health and wellbeing. The course delivers the practical skills required for a career in environmental health including problem solving, communication, research and management skills.

I Will Learn

- The importance of food safety, health and safety at work, safe housing, public health and wellbeing and environmental protection.
- An understanding of key areas of sustainability, quality of life, health inequalities, law and spatial planning.
- Personal development such as communication, research, managerial and team working skills - all essential when working in environmental health roles.

Real World Experience

- Complete a work placement year to get an insight into the role of environmental health professionals within an organisation.
- Problem solving, communication, research and management skills are developed through practical project work.
- Our links with employers has helped shape the content of the course to keep it relevant.

Career Opportunities

- Food Quality Manager
- Environmental Consultant
- Health and Safety Officer
- Emergency Planning Officer
- Environmental Health Officer
- Quality Assurance Auditor

Why Ulster?

The course is accredited by the Chartered Institute of Environmental Health (CIEH) and the Institute of Occupational Safety and Health (IOSH).

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.
Environmental Science

BSc Hons

Coleraine

Full-Time

3 year FT degree or 4 year with placement year

This accredited course explores complex environmental processes and the human impact on them. We assess global problems like climate change, pollution, soil loss or biodiversity decline and investigate tangible solutions through risk management, remediation, and sustainable use of natural resources.

I Will Learn

- Concepts and interactions of physical, chemical, and biological processes in atmospheric, land and water systems.
- Methods of observation, measurement, modelling and assessment by applying biological surveys, chemical analysis, remote sensing, statistics, and geographic information systems.
- Skills in the identification and assessment of sustainable mitigation options for environmental management.

Real World Experience

- Study environmental science only minutes away from natural labs - spectacular coastline, sea, rivers, estuaries, woodlands, and uplands close to campus.
- Local and international fieldtrip study opportunities throughout the course.
- Optional placement year, and study abroad opportunities in a range of diverse environments.

Career Opportunities

- Scientific Officer
- Environmental Consultant
- Mapping and Charting
- Hydrographic Surveyor
- Soil Scientist
- Development Officer

Why Ulster?

This course is accredited by the Institution of Environmental Sciences.

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.

Environmental Science as a Major

Study global issues such as climate change, conserving plant and animal diversity, regional development and water and air pollution.

Full-Time Entry Requirements

Grade requirements may vary depending on combination chosen. Please refer to the online prospectus at ulster.ac.uk for the full details.

BSc Hons Environmental Science with Education

BSc Hons

Why study Education as a Minor?

- An excellent introduction to a future career path in the education sector, both in schools and training.
- Study main concepts and concerns of contemporary educational theory and practice before applying for a Postgraduate Certificate in Education upon completion of your degree.

BSc Hons Environmental Science with Psychology

BSc Hons

Why study Psychology as a Minor?

- Benefit from training in scientific methods of enquiry and how psychology can be applied in professional practice.
- Attain research skills in lab sessions and develop statistical competence.
- Studying Geography with Psychology fosters a better understanding of environmental science settings.
Finance and Investment Management

BSc Hons

Full-Time

3 year FT degree or 4 year with placement year
International Foundation Year available

This professionally relevant course has been designed to meet the needs of the financial services sector.

Finance is the science of making monetary decisions and this course provides the skills and knowledge needed in making these decisions.

I Will Learn

- An in-depth knowledge of financial principles, economic theory and the role of money, institutions, markets and governing bodies.
- Investment skills and knowledge including statistics, financial decision making, modelling, portfolio management, financial reporting, risk management, ethics and regulatory requirements.
- Professional and key communication skills needed in the world of finance.

Real World Experience

- Get a practical understanding of how theory informs professional practice.
- Have access to a real-life trading lab environment using Bloomberg software.
- Choose a placement year and work for top firms in the financial services sector.

Career Opportunities

- Trading Analyst
- Wealth Management
- Accountant
- Forensic Services
- Financial Engineer
- Financial Planner

Why Ulster?

Accredited by the Chartered Institute for Securities and Investment (CISI), the Association of Chartered Certified Accountants (ACCA) and recognised by the Chartered Financial Analyst Institute (CFA).

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this undergraduate programme is the equivalent to three A-levels at BCC.

Visit our online prospectus at ulster.ac.uk for further details.
Fine Art

BA Hons
Full-Time
3 year FT degree or 4 year with placement year

Reflecting the diversity of contemporary art, this practice-based study explores painting, printmaking, drawing, sculpture, performance, lens-based media, history and theory. To cultivate creativity, you will learn through direct experiences of making art and critical reflection within a studio environment.

I Will Learn

- Practical studio and workshop skills that will support the development of your art practice.
- About historical and contemporary art practices and related ideas and debates.
- The techniques, histories, theories, academic methods, skills, and critical approaches key to studio and written work.

Real World Experience

- Learn from practising artists and writers and gain direct professional practice experience in the local art sector through an optional placement year.
- Fully equipped studios, workshops and facilities replicate real life working environments.
- Build your portfolio and showcase your work to art world professionals and colleagues at the end of year degree exhibition.

Career Opportunities

- Artist
- Art Writer
- Gallery Manager
- Curator
- Printmaking Technician
- Journalist

Why Ulster?

Previous graduates of Fine Art are internationally renowned, influential and award-winning artists, including several Turner Prize nominees and winners.

Entry Requirements

BSc Hons  
Full-Time  
3 year FT degree or 4 year with placement year

Find solutions to issues that affect us all, like climate change, environmental hazards, conflict and social inequality, and the need for sustainable development. This degree prepares you to make a meaningful difference to the world around you.

I Will Learn
- About key challenges including climate change, migration, natural hazards and sustainable development.
- How to map the sea floor, conduct environmental impact assessments and use technologies, such as GIS, to analyse social inequality.
- To apply the most appropriate research techniques so that you can identify the right solutions to the issues that matter.

Real World Experience
- Study geography only minutes away from natural labs - spectacular coastline, sea, rivers, estuaries, woodlands, and uplands close to campus.
- Local and international fieldtrip study opportunities throughout the course.
- Optional career-enhancing placement year and study abroad opportunities in a range of diverse environments.

Career Opportunities
- GIS Consultant
- Mapping and Charting
- Town Planning
- Geodetic Surveyor
- Heritage Scientist
- Teacher

To become a Geography Teacher, you will complete a PGCE following your BSc Hons degree.

Why Ulster?
Accredited by the Royal Geographical Society (RGS) and the Institution of Environmental Sciences (IES).

Entry Requirements
Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at BCC.
Visit our online prospectus at ulster.ac.uk for further details.
Graphic Design and Illustration

**BDes Hons**

**Full-Time**

3 year FT degree or 4 year with placement year

Combining the two complementary artistic techniques of design and illustration, this innovative degree explores the creative and diverse use of words, pictures, and ideas to solve communication channels and communicate effectively with a target audience.

**I Will Learn**

- How graphic design distinguishes through branding, design of messages, products and services using print, digital, moving image and other formats.
- The role of Illustration as a decoration, interpretation or visual explanation of a text, concept, or process.
- Specialist skills and knowledge in illustration, branding, photography, advertising, and motion graphics.

**Real World Experience**

- Opportunity to work on live industry projects and competitions to gain essential work-based learning experience and build your portfolio.
- Showcase your work through international competitions including YCN (Young Creatives Network) and ISTD (International Society of Typographic Designers).
- Experience life as a professional in the creative industries with an optional placement in year 3.

**Career Opportunities**

- Graphic Designer
- Freelance Designer
- Creative Art Director
- Film/Video Editor
- Multimedia Manager
- Photographer

Beyond graduation, develop your own concepts to a higher level with a Masters qualification in the MFA Multidisciplinary Design (Communication).

**Why Ulster?**

You will study both graphic design and illustration with the opportunity to specialise in the final part of your degree.

**Entry Requirements**

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at BCC.

Visit our online prospectus at ulster.ac.uk for further details.

Possible interview and/or portfolio submission
Health and Social Care Policy

BA Hons
Full-Time
3 year FT degree or 4 year with placement year

This course provides a strong grounding in the development and implementation of health and social care policy, regionally, nationally and internationally. You will explore key policy issues facing society such as providing and financing healthcare, health inequalities and ageing.

I Will Learn
- The evolution and development of health and social care in the UK and Ireland.
- How policies about social welfare are made and welfare services are delivered.
- Practical and transferable research skills including social survey creation, development, delivery and analysis.

Real World Experience
- Put theory into practice and gain hands on experience with a 6-week practice placement and optional placement year.
- Option to study abroad where you can explore issues and policy differences in an unfamiliar culture and system.
- Research informed teaching by leading industry experts, many of which are members of the Social Policy Association.

Career Opportunities
- Care Coordinator
- Policy Officer
- Research Officer
- Support Worker
- Health Advisor
- Civil Servant

Why Ulster?
Following successful completion of this degree you can apply for the fast-track graduate degree in social work.

Entry Requirements
Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.

History

BA Hons
Full-Time
3 year FT degree
International Foundation Year available

Focusing on early modern, modern, and contemporary history, this innovative course delves into the historical processes that have shaped modern society. You will learn in interactive workshops and can personalise your degree by choosing history modules that most interest you.

I Will Learn

- Core marketing and management skills required by industry.
- About brands and branding, principles of marketing, consumer behaviour, entrepreneurship, creativity in communications, digital marketing, strategy, global marketing and more.
- Transferable skills such as communication, teamwork, critical thinking and creativity.

Real World Experience

- Understand how to analyse an organisation, build effective brands and write compelling marketing strategies by delivering live consultancy projects.
- Hear from guest speakers from business and industry and get the opportunity to network.
- Choose a placement year to get sought after work experience on your C.V.

Career Opportunities

- Digital Marketing
- Advertising Executive
- Events and Marketing
- Marketing and Communications
- Brand Manager
- Campaigns Manager

Why Ulster?

Graduates from the course are now working at top companies including Diageo, Randox, Ionology, HMC Global, Jameson Distillery and Belfast City Council.

Entry Requirements

Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.

Mechanical and Manufacturing Engineering

BEng Hons

Full-Time
4 year FT degree including placement year

Learn how to design and manufacture machines and devices, from the smallest parts to large systems, covering industries as diverse as transport, utilities and medical. Be part of the next generation of designers and innovators within the manufacturing sector.

I Will Learn

- An understanding of engineering materials, processes, devices and systems.
- Analytical and communication skills with an emphasis on computer-aided design (CAD) and computer-aided manufacture (CAM).
- Professional practice and business improvement techniques and models.

Real World Experience

- Complete a 1 year work placement to get real world experience of working within the manufacturing sector.
- Individual and team projects provide the opportunity for hands-on experience.
- Well-equipped lab facilities allow you to work on skills that are used in the workplace.

Career Opportunities

- Mechanical Engineer
- Aerospace Design Engineer
- Production Engineer
- Development Engineer
- Project Manager
- Manufacturing Engineer

To become a Chartered Engineer, you will need to complete a Masters in an Engineering subject.

Why Ulster?

Our close links with local manufacturing firms puts you in a great position to start your career after graduation.

Entry Requirements

Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.
Mechanical Engineering - BEng Hons
Full-Time
4 year FT degree including placement year

Mechanical Engineers create, design and manufacture products and processes across a wide range of industries that make our world function. From automotive to medical devices, aerospace to renewable energy, mechanical engineering touches all stages of design, development and production.

I Will Learn
- Materials’ properties and behaviours, the design of products and production processes and manufacturing management.
- To apply engineering, physics, mathematics and materials science principles to improve mechanical equipment and systems.
- Leading edge technologies including Mechanical Computer-Aided Design (MCAD) and nanotechnology.

Real World Experience
- Complete a 1 year work placement with options to work internationally.
- Individual and team projects give you the opportunity for hands-on involvement and an understanding of engineering materials, processes and systems.
- Tackle real-life engineering problems through case studies and project work.

Career Opportunities
- Mechanical Engineer
- Aerospace Engineer
- Design Engineer
- Manufacturing Engineer
- Development Engineer
- Project Manager

To become a Chartered Engineer you must complete a BEng and further professional exams.

Why Ulster?
Accredited by the Institution of Mechanical Engineers (IMechE) and the Institution of Engineering and Technology (IET).

Entry Requirements
Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.

Mechanical Engineering - MEng Hons
Full-Time
5 year FT degree including placement year

Mechanical Engineers create, design and manufacture all kinds of products and processes across a wide range of industries. Complete the MEng to progress towards becoming a Chartered Engineer.

I Will Learn
- To apply engineering, physics, mathematics and materials science principles to improve mechanical equipment and systems that make our world function.
- Design, mechanical systems, materials and manufacturing skills.
- Research and project management skills needed to complete an MEng level project and prepare you for your first engineering role.

Real World Experience
- Individual and team projects give you the opportunity for hands-on involvement and an understanding of engineering materials, processes and systems.
- You will complete a 1 year work placement to develop your engineering and personal skills and significantly enhance your employability on graduation.
- Your final year MEng dissertation project will give you practical experience of creating solutions to real world engineering challenges.

Career Opportunities
- Design Engineer
- Project Manager
- Mechanical Engineer
- Manufacturing Engineer
- Aerospace Design Engineer
- Development Engineer

The MEng fully meets the academic requirements to become a Chartered Engineer. You will need to demonstrate additional competences through work experience.

Why Ulster?
Fully accredited by the Institution of Mechanical Engineers (IMechE) and the Institution of Engineering and Technology (IET).

Entry Requirements
Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.

**Mechanical Eng. with Enterprise Development**

**BEng Hons**

Magee

**Full-Time**

4 year FT degree including placement year

Learn about the design and manufacture of machines, covering industries as diverse as automotive, aerospace and medical. This degree combines technical engineering knowledge with the business and personal skills needed to start your career.

**I Will Learn**

- A solid foundation in the fundamental topics in engineering, physics and mathematics.
- 3-D digital modelling of parts and assemblies, product design specification, material selection and manufacturing considerations.
- How to bring a product to market and the commercial considerations needed to attract orders.

**Real World Experience**

- The Enterprise modules will give you the personal and professional skills needed to apply your Engineering skills in a work place setting.
- A 1 year work placement gives you essential experience of working in industry.
- Case studies, group work and mini projects are used throughout the course to give you regular practical experience.

**Career Opportunities**

- Mechanical Engineer
- Manufacturing Engineer
- Business Development Manager

To become a Chartered Engineer, you will need to complete a Masters in an Engineering related subject.

**Why Ulster?**

This course has been set up with input from our partners within the Manufacturing industry.

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.

---

**Mechatronic Engineering**

**BEng Hons**

Belfast

**Full-Time**

4 year FT degree including placement year

Mechatronics combines mechanics, electronics, and computing to develop simpler, more reliable and economical integrated systems. The course has been designed with employers to prepare students for a wide range of roles across electronic and mechanical engineering.

**I Will Learn**

- The fundamental principles of mechanical and electronic technologies and how they are applied in industry.
- An understanding of Software Development and how programming is used in engineering.
- How to develop a design project from concept to a prototype level.

**Real World Experience**

- A 1 year work placement provides important real-world context for your studies where you gain relevant industrial experience.
- Employers have helped us to create the content, meaning you will be learning the skills that the industry needs.
- Lab work, case studies and group projects give you important practical experience throughout the course.

**Career Opportunities**

- Product Developer
- Mechanical Engineer
- Power Industry Engineering
- Embedded Systems Engineering
- Product Designer
- Electronic Engineer

The BEng fully meets the academic requirement for becoming an Incorporated Engineer, and , and partial requirements for a Chartered Engineer.

**Why Ulster?**

The course is accredited by the Institution of Engineering and Technology (IET) and the Institution of Mechanical Engineers (IMechE).

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.
Mechatronic Engineering

**UCAS H733**

**MEng Hons**

**Belfast**

**Full-Time**

**5 year FT degree including placement year**

Mechatronics brings together the fields of mechanics, electronics, and computing to develop elegant solutions to engineering challenges. Mechatronics is essential to the growth of automation and manufacturing. The MEng is your pathway to becoming a Chartered Engineer.

**I Will Learn**

- The fundamental principles of mechanical and electrical technologies and how they are applied in industry.
- An understanding of Software Development and how programming is used in engineering.
- Research and project management skills needed to complete an MEng level project and prepare you for your first engineering role.

**Real World Experience**

- A 1 year work placement provides important real-world context for your studies and relevant industrial experience.
- You will have the option to spend a semester at Augsburg University in Germany for an insight into engineering abroad.
- Your final year MEng level project will give you practical experience of working on real-world engineering challenges and finding solutions.

**Career Opportunities**

- Product Developer
- Embedded Systems Engineering
- Power Industry Engineering
- Mechanical Engineer
- Electronic Engineer
- Product Designer

The MEng fully meets the academic requirement for becoming a Chartered Engineer.

**Why Ulster?**

The course is accredited by the Institution of Engineering and Technology (IET) and the Institution of Mechanical Engineers (IMechE).

**Entry Requirements**

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.

---

Medicine (Graduate Entry) *

**UCAS A101**

**MBBS**

**Magee**

**Full-Time**

**4 year FT degree including placements**

Have a first degree in a non-science background and want to study medicine? Graduate Entry Medicine is designed for you! This accelerated course will equip you with the professional knowledge, skills, values and behaviours required to be a competent doctor.

**I Will Learn**

- Anatomy with an emphasis on technology and live imaging.
- To fully understand the health needs of our communities and how to deliver the care required.
- How to communicate with patients from a wide range of backgrounds.

**Real World Experience**

- Contact with patients starts from the second week of year one.
- Many of our course lecturers are working clinicians sharing their real-life experiences with you.
- Study with peers with a wide range of experience and skills; making this an exciting and stimulating entry route into medicine.

**Career Opportunities**

- General Medical Practitioner

If you wish to practise medicine in the UK, you must apply to the NHS Foundation Programme.

**Why Ulster?**

This is the only Graduate Entry Medicine course in Northern Ireland.

**Entry Requirements**

Refer to the University’s General Entrance Requirements.

Minimum of a 2:1 Honours degree in any subject

**OR** If you do not have a 2:1, a postgraduate Masters degree with an overall pass of at least 60%

**Meet the required GAMSAT score**

Pass Multiple-Mini Interview assessment

Access NI check and Medical

Visit the online prospectus at ulster.ac.uk for further details.

*This course is undergoing academic validation.*
Music

BMus Hons

Full-Time

3 year FT degree or 4 year with placement year

This degree is a creative and modern approach to four core elements of performance, composition musicology and music technology. You will gain a comprehensive understanding of musical styles, genres and disciplines while specialising in an area of music you enjoy.

I Will Learn

- A comprehensive overview of musical styles, genres and disciplines and how to approach composition and orchestration.
- Key digital audio techniques and principles of contemporary electronic music production, including sequencing, sound synthesis and audio effects.
- Self-awareness and an appreciation of artistic qualities that characterise musical performances.

Real World Experience

- This degree provides many opportunities to build performance skills outside of practical workshops; festivals, events and ensembles.
- Experience life as a professional in a local music or arts organisation with an optional placement in year 3.
- You will be taught by experienced subject professionals with strong industry links and benefit from visiting artists and musicians.

Career Opportunities

- Music Producer
- Music Teacher
- Freelance Musician
- Music Facilitator
- Venue Programming
- Event Co-ordinator

A Postgraduate Certificate in Education (PGCE) is required if you want to move on to a teaching role.

Why Ulster?

The interdisciplinary opportunities afforded to music equips you with a unique range of skills vital to careers in the creative industries.

Entry Requirements

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.

Possible Interview and/or audition

Music with Subject Combinations

Music as a Major

This degree is a creative and modern approach to four core elements of performance, composition musicology and music technology.

BA Hons Music with Drama

Why study Drama as a Minor?

- You will develop creative, critical thinking and practical skills in performance, playwriting/screenwriting, directing or production.
- You will explore theories and practices of performance understand Drama as an art form in its social, political and cultural contexts.

BA Hons Music with Education

Why study Education as a Minor?

- An excellent introduction to a future career path in the education sector, both in schools and training.
- Study main concepts and concerns of contemporary educational theory and practice before applying for a Postgraduate Certificate in Education upon completion of your degree.

Other Courses you may want to consider

See page 83 BA Hons Drama with Music W4W3
See page 104 BA Hons Irish with Music Q5W3
### Full-Time Entry Requirements

Grade requirements may vary depending on combination chosen. Please refer to the online prospectus at [ulster.ac.uk](http://ulster.ac.uk) for the full details.

---

### BA Hons Music with Irish

**BA Hons**

**Why study Irish as a Minor?**

- Develop core language skills through Irish language and culture modules whilst exploring genres across the Irish literary tradition.
- Learn important analytical techniques and the capacity to form coherent arguments in both spoken and written form.

---

### Music, Sound and Technology

**BSc Hons**

**Magee**

**Full-Time**

3 year FT degree or 4 year with placement year

Creativity made audible: In a world where user experiences are constantly evolving within film, games, apps and other digital media, you will explore how sound can be created and manipulated to produce and complement innovative and engaging audience experiences.

**I Will Learn**

- How to produce creative audio material for distribution/performance including online, film, games, venues, clubs, public spaces.
- Theoretical analysis and approaches toward synthetically creating and/or manipulating sound for a particular application.
- Advanced programming concepts and ability to write audio software for use on the web.

**Real World Experience**

- You will have access to studios, performance spaces and an extensive range of modern music technology that helps replicate industry projects.
- You will work on industry relevant tools and techniques such as DAW (digital audio workstation), studio recording, audio editing and postproduction.
- Experience life as a professional in a local music organisation with an optional placement in year 3.

**Career Opportunities**

- Musician
- Sound Designer
- Sound Engineer
- Interactive Audio Application
- Event Management
- Audio Production

**Why Ulster?**

The transferable skills associated with Music equip you for industry alongside a variety of non-specialist careers.

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at [ulster.ac.uk](http://ulster.ac.uk) for further details.

Never more valued by society, nurses play a vital role in the care and wellbeing of patients and their families. We will equip you with the knowledge, skills, attitude and values to provide compassionate, respectful, professional and safe care in an adult nursing setting.

**I Will Learn**

- To practice person-centred, evidence-based nursing care in a compassionate and respectful way that promotes dignity and wellbeing.
- Knowledge and skills to confidently prioritise the needs of people through effective assessment, planning, provision, and evaluation of care.
- To communicate and develop team-working and relationship management skills and to work within professional, ethical, and legal frameworks to lead nursing care.

**Real World Experience**

- 50% of your learning takes place in the real world in a wide range of hospital and community practice learning environments.
- Your learning is supervised by experienced clinical professionals and support from university staff, to enable you to apply theory to practice.

**Career Opportunities**

- Specialist Nursing Practice
- Hospital/Community Clinical Nurse
- Health Care and Nursing Research
- Health Care Management/Public Health
- Nurse Education

On completion, you can undertake further study to specialise in many different areas within Nursing.

**Why Ulster?**

This course is approved by the Nursing and Midwifery Council (NMC).

**Entry Requirements**

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at BCC.

Visit our online prospectus at ulster.ac.uk for further details.

**Access NI check and medical**

**Possible interview**

**IMPORTANT NOTICE** - This course has a limited number of places available for international students due to the availability of work placements.

---

Mental Health Nursing is a proactive and humanising profession, delivering innovative and valuable contributions to effective and equitable mental health services, accessible to all, through working collaboratively with service users and families.

**I Will Learn**

- Critical skills developed through theory, practical, simulated, and clinical settings.
- Therapeutic psychological approaches and interventions in mental health nursing.
- To assess, plan, provide and evaluate care within professional, ethical, and legal frameworks.

**Real World Experience**

- Learn in a wide range of hospital and community practice learning environments.
- Placements are also available outside the UK.

**Career Opportunities**

- Mental Health Nurse
- Community Addictions Nurse
- Forensic Mental Health Nurse
- Care of the Older Person Nurse
- Community Mental Health Nurse

On completion, you can undertake further study to specialise in many different areas within mental health nursing.

**Why Ulster?**

This course is approved by the Nursing and Midwifery Council (NMC).

**Entry Requirements**

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at BCC.

Visit our online prospectus at ulster.ac.uk for further details.

**Access NI check and medical**

**Possible interview**

**IMPORTANT NOTICE** - This course has a limited number of places available for international students due to the availability of work placements.
Occupational Therapy  Optometry

Occupational Therapists help people complete activities they want and need to do but may be unable to due to illness or disability. Our course equips you to work as an Occupational Therapist with people of all ages in various settings.

I Will Learn

- Underpinning knowledge of, for example, anatomy and physiology, health and wellbeing, communication, activity and occupational analysis and evidence-based practice.
- About occupational performance through our lifespan across a range of physical and mental health conditions.
- How to assess people’s needs and deliver the occupational therapy process within multi-disciplinary teams to maximise quality of life.

Real World Experience

- Four clinical placements in hospitals/community practice and schools within Health and Social Care Trusts.
- One role emerging placement from a range of settings, such as voluntary and community organisations, self-help and community groups.
- Opportunity to complete your role emerging placement abroad and various other study abroad opportunities.

Career Opportunities

- Occupational Therapist
- Private Practice
- Disability Assessor

On completion, you are eligible to apply for registration with statutory regulatory body, the Health and Care Professions Council (HCPC).

Why Ulster?

This course is accredited by the World Federation of Occupational Therapists.

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.

Health Professions Admissions Test (HPAT-Ulster)

Access NI check and medical

IMPORTANT NOTICE - This course has a limited number of places available for international students due to the availability of work placements.

Optometry

Vision involves our eyes, brains and nervous system. In this degree you will explore everything from the biology to psychology of vision, how to conduct an eye test, prescribe glasses and contact lenses, and detect signs of injury and disease.

I Will Learn

- Extensive clinical experience in our on-campus optometry clinic and within the NHS.
- Best practice through a safe teaching and learning space, with access to patients and specialist equipment.
- To deliver patient-centred care in a variety of clinical settings.

Real World Experience

- Extensive clinical experience gained through a range of specialist clinics in the onsite optometry clinic and NHS clinical placements.

Career Opportunities

- Optometrist
- Vision Science Researcher
- Dispensing Optometrist
- Community Optometrist
- Hospital Optometrist

Transfer to the MOptom course and undertake assessed pre-registration in a practice/hospital setting whilst sitting professional examinations (progression dependent).

Why Ulster?

We are number 3 in the UK Optometry, Ophthalmology and Orthoptics (Complete University Guide 2022). Approved by the General Optical Council (GOC) for training professional optometrists.

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at AAB.

Visit our online prospectus at ulster.ac.uk for further details.

Access NI check and medical
Personalised Medicine BSc Hons Magee 8H21
Full-Time
3 year FT degree or 4 year with placement year

Personalised Medicine explores biology, data analytics and clinical practice, creating multiskilled graduates who will help achieve personalised healthcare. The combination of biomedical knowledge, computing and data analytic competence sets students apart, with skills to create next-generation diagnostics and treatments.

I Will Learn

- How and why diseases develop and how and why treatments are effective at treating disease.
- How diagnostics are developed, based on genes and proteins, and how biomarkers will help to identify treatment response.
- The interpersonal and professional skills needed to work in multi-disciplinary scientific environments, across research, health and industry, locally and internationally.

Real World Experience

- Guest lecturers contribute to our modules from healthcare and industry.
- A placement year provides opportunities to gain skills and experience in professional scientific environments, including hospitals, companies, and research centres.
- All students complete research projects in topical, cutting-edge research programmes in final year.

Career Opportunities

- Laboratory Scientist
- Data Scientist
- Medical Researcher
- Software Developer
- Clinical Trial Manager
- Pharmaceutical Development

Why Ulster?

This pioneering course is taught by research scientists, industry experts and hospital doctors on campus and at a major teaching and research hospital, Altnagelvin.

Entry Requirements

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.

Pharmaceutical Bioscience MSci Coleraine 9GOW
Full-Time
4 year FT degree including placement year International Foundation Year available

Pharmaceutical Bioscientists create drugs from living organisms. This course will prepare you for a professional career in the pharmaceutical sector and is designed to build professional expertise, rigour, entrepreneurship and innovation and an understanding of product development, effectiveness and evaluation.

I Will Learn

- How to prepare pharmaceutical ingredients and formulate medicines.
- To understand the effect of drugs and therapeutics.
- How to demonstrate understanding of pharma biosciences and the drug industry.

Real World Experience

- Integrated placements throughout all academic years.
- Fieldtrips to companies including Nicobrand, Norbrook and Teva.

Career Opportunities

- Pharmaceutical Scientist
- Analytical Scientist
- Academic Researcher
- Biopharmaceutical Scientist
- Research and Development

Why Ulster?

A top-up degree that will prepare you for a career in the global biopharmaceutical industry or research and development. This course allows you to study for one year in the School of Pharmacy and Pharmaceutical Sciences, Coleraine campus.

I Will Learn

- To develop the knowledge and advanced practical skills necessary for a successful career in the biopharmaceutical industry.
- To prepare and analyse pharmaceutical ingredients, formulate medicines.
- To understand the effect of drugs, their development, discovery, and therapeutics.

Real World Experience

- You will attend several short-term industrial placements during the year at Ulster University.

Career Opportunities

- Pharmaceutical Industry
- Research and Development

Why Ulster?

Entry Requirements

Refer to the University’s General Entrance Requirements. Visit ulster.ac.uk for entry requirements.
Pharmacy

MPharm

Full-Time

4 year FT degree including placements

International Foundation Year available

Photography with Video

BA Hons

Full-Time

3 year FT degree or 4 year with placement year

Pharmacists work with patients, healthcare teams and in industry. Our practice-driven degree is designed to provide you with the knowledge, skills, and professional training to manufacture and supply medicinal products within safe, legal, and professional controls and deliver patient-centred care.

I Will Learn

- A sound and comprehensive knowledge base, developing into the clinical and professional practice of pharmacy.
- In specialised teaching facilities including labs, computer and drug information suites, cell culture facilities and a sterile suite.
- Through practice and reflective learning in our model pharmacy.

Real World Experience

- Integrated pharmacy-practice placements in community and hospital pharmacies throughout all academic years and part-time work and Foundation Year training opportunities promoted through Pharmacy Job Shop.
- Typically, short placement visits take place in pharmaceutical industries such as Nicobrand and Norbrook.
- Where appropriate, module content will be delivered by practising pharmacists, enhancing your learning experience.

Career Opportunities

- Community Pharmacist
- GP-based Pharmacist
- Clinical Pharmacist
- Industrial Pharmacist
- Hospital Pharmacist
- Medicines Information Pharmacist

General Pharmaceutical Council (GPhC) and Pharmaceutical Society of Northern Ireland (PSNI) accreditation to progress to pharmacist foundation training.

Why Ulster?

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Access NI check and medical

Photography and video is at the heart of the creative industries, from galleries and magazines to film sets. This highly creative degree, combines practice, theory, and professional experience to help you develop unique and innovative photographic and video content.

I Will Learn

- The fundamentals of storytelling and communication in any photographic content.
- Control of lighting, staging and camera viewpoint to give still and moving images meaning.
- About the photography sector, promotion, and ability to apply your photo/video and creative skills to broad range of careers.

Real World Experience

- Fully equipped studios and state of the art facilities allow you to build a professional and varied portfolio of work.
- Taught by highly experienced professionals who exhibit and publish internationally, including BAFTA Award winning Donavan Wylie.
- Close links to galleries and photo festivals help you build your own networks and experience from the start.

Career Opportunities

- Art Therapist
- Public Artist/Activist
- Gallery Curator
- Photographer/Videographer
- Video Editor
- Fashion photo/videographer

Why Ulster?

Benefit from exciting partnerships with other institutions, including MOME Budapest, the Royal Academy in Antwerp, and KABK in the Hague.

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at BBB.

Access NI check and medical

Possible interview and/or portfolio submission
### Physiotherapy

**UCAS Code:** B160

**BSc Hons**

**Full-Time**
3 year FT degree including placements

Physiotherapists help patients to improve their health through physical, mental, social rehabilitation and injury prevention. This course will prepare you to work across all areas of healthcare, treating people through movement, exercise, and hands therapy, as well as providing education and advice.

**I Will Learn**
- The underpinning theory and practice of physiotherapy and rehabilitation.
- How to assess and manage rheumatological conditions, fractures, soft tissue and musculoskeletal disorders, and neurological conditions.
- How to manage complex problems in relation to rehabilitation and palliative care for people with long-term conditions.

**Real World Experience**
- Extensive clinical practice within NHS based placements.
- Study abroad opportunities exist.

**Career Opportunities**
- Physiotherapist
- Researcher
- Exercise Specialist
- Health Service Manager
- Private Practitioner
- Leader in health care delivery

On completion, you are eligible to apply for registration with statutory regulatory body, the Health and Care Professions Council (HCPC).

**Why Ulster?**
This course is exceptional and the staff are actively involved in world leading research. The course is accredited by the Chartered Society of Physiotherapy.

**Entry Requirements**
Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.

### Planning, Regeneration and Development

**UCAS Code:** KK42

**BSc Hons/MSci Hons**

**Full-Time**
3 year FT BSc degree / 5 year FT Integrated Masters degree including optional placement year

As the global population continues to grow, learn how you can help create sustainable cities, towns, villages and communities, finding solutions to planning challenges of the future. Discover how the planning system, regeneration practices and development processes shape our infrastructure.

**I Will Learn**
- Develop knowledge and skills on planning law and practice, property market analysis, environmental sustainability, inclusive design, and healthy place-making.
- Discover how planning, regeneration and development practices help tackle social, environmental, and economic challenges.
- How to apply research and analytical skills to guide appropriate land use change and property development.

**Real World Experience**
- The course includes a work placement year with opportunities to apply for roles both at home and abroad.
- You will have the chance to take a field trip abroad to examine international planning, regeneration and development issues.
- Site visits, case studies and practical work are used throughout the course to show how the theory is applied.

**Career Opportunities**
- Planning Officer
- Local Government
- Town Planner
- Planning Consultant
- Planning Surveyor
- Researcher

**Why Ulster?**
This course is accredited by the Royal Town Planning Institute (RTPI) and by the Royal Institution of Chartered Surveyors (RICS).

**Entry Requirements**
Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.

A dynamic subject essential to understanding people, power and policies in a changing world. Students are introduced to central questions driving political change across the world today and discover how academics, including their own lecturers, are trying to address them.

**I Will Learn**

- A detailed knowledge and understanding of contemporary political analysis.
- An appreciation of the complexity and diversity of political problems in society.
- How to apply theoretical perspectives and concepts to real-life problems, and excellent training in social research method.

**Real World Experience**

- Live research projects provide opportunities to carry out independent research, work collaboratively, and sensitively engage in policy debate.
- Opportunities to apply political theories through work-based learning, volunteering, or optional 1 year work placement.
- Option to study abroad where you can benefit from an alternative curriculum and experience an unfamiliar political culture and system.

**Career Opportunities**

- Researcher
- Civil Service
- Public Affairs
- Political Consultant
- Community Development
- Journalist

**Why Ulster?**

You will learn from world-leading researchers and scholars in contemporary politics, society, conflict, and peacebuilding.

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.

Exploring contemporary political challenges, international issues and theory, this degree also provides excellent training in social research methods. Through your Criminology minor, you will examine the impact of crime and criminal justice on society and policy.

**I Will Learn**

- An appreciation of the complexity and diversity of political problems in society.
- How to apply theoretical perspectives and concepts to real-life problems, and excellent training in social research method.
- The impact of the criminal justice system, its institutions, and principles on the community it serves.

**Real World Experience**

- Live research projects provide opportunities to carry out independent research, work collaboratively, and sensitively engage in policy debate.
- Opportunities to apply political theories through work-based learning, volunteering, or optional 1 year work placement.
- Option to study abroad where you can benefit from an alternative curriculum and experience an unfamiliar political culture and system.

**Career Opportunities**

- Researcher
- Civil Service
- Public Affairs
- Political Consultant
- Community Development
- Police

**Why Ulster?**

You will learn from world-leading researchers, scholars and practitioners in contemporary politics, society conflict, peacebuilding and restorative justice.

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.
Product Design

BA Hons
Full-Time
3 year FT degree or 4 year with placement year

UCAS W641
Belfast

This course provides a stimulating and challenging practice-based education within a studio environment for those from an art, design or technology background who want a career in areas like product, industrial, furniture, lighting design or as a designer maker.

I Will Learn
- The core processes in product design; research, developing ideas, prototyping, making and testing.
- An introduction to the concepts and methodologies of visual communication, graphic design, 3D CAD, CAM, information design and presentation techniques.
- An understanding of materials and manufacturing processes through live client briefs; design intent, commercial, societal and industrial considerations through to completion.

Real World Experience
- Studio access, technical workshops, demonstrations and study trips provide experience and expertise for your CV.
- Employer engagement events, competitions, and end of year show provide opportunities to showcase your portfolio of work to industry professionals.
- Put theory into practice and gain professional experience with an optional placement in year 3.

Career Opportunities
- Product Designer
- Furniture Designer
- Lighting Designer
- Industrial Designer
- Interaction Designer
- Designer Maker

This course is designed primarily for students from either an Art and Design or Technology and Design background.

Why Ulster?
Automatic student membership with the Institute of Designers in Ireland (IDI).

Entry Requirements
Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.

Psychology

BSc Hons
Full-Time
3 year FT degree or 4 year with placement year

UCAS C820
Coleraine

Psychology considers the causes and development of behaviour and the ways in which people interact with and influence each other. This course provides a comprehensive foundation for your career as a psychologist. An understanding of human behaviour also makes psychology graduates very desirable in many other occupational sectors.

I Will Learn
- New perspectives on how we engage with the world and how people interact with and influence each other.
- About the specialisms within psychology, including the causes and development of human behaviour.
- Key research skills in lab-based practical settings, essential for a professional career in psychology and useful in many other sectors.

Real World Experience
- Optional placement year and study abroad opportunities.
- Problem-based learning activities which encourage the development of skills relevant to the workplace.
- Work-based learning opportunities which facilitate the development of graduate skills using psychology in professional settings.

Career Opportunities
- Professional Psychology
- Management Consultancy
- Applied Behaviour Analyst
- Public Relations
- Research
- Advertising and Marketing
- Applied Behaviour Analyst

Further training is required to practice as a professional psychologist in areas such as educational, clinical, occupational, health, sport, counselling and forensic psychology.

Why Ulster?
The course is accredited by the British Psychological Society and as such provides the Graduate Basis for Chartered Membership (GBC).

Entry Requirements
Refer to the University’s General Entrance Requirements.
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.
Quantity Surveying and Commercial Management

BSc Hons
Belfast

Full-Time
4 year FT degree including placement year/5 year

Quantity Surveyors are construction professionals who manage and control the cost of major construction projects. You will advise on the economic practicality of projects, with the aim of delivering them within budget, creating a sustainable built environment of the future.

I Will Learn

- Project management and communication skills to allow me to cost, procure and administer complex construction projects.
- How economics, law, government, and society impact the built environment and contribute to the development of social, economic and environmental wellbeing.
- Modern surveying techniques, construction methods and technologies and Building Information Modelling (BIM).

Real World Experience

- A work placement year provides vital experience of working within the construction industry.
- The final year project simulates real life scenarios and challenges practical solutions.
- Our links with employers within the construction sector mean that course content is relevant to the needs of the industry.

Career Opportunities

- Quantity Surveyor
- Surveyor/Project Manager
- Commercial Manager
- Construction Consultant
- Cost Engineer
- Measurement Engineer

Why Ulster?

The course is accredited by the Royal Institution of Chartered Surveyors (RICS).

Entry Requirements

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.

Real Estate

BSc Hons
Belfast

Full-Time
4 year FT degree including placement year

Choose a career in a growing sector which is diverse, exciting and challenging. The course has a strong business focus and provides a skill set which involves being out of the office meeting people, inspecting property and negotiating deals.

I Will Learn

- Real estate development, investment, management, sales and acquisition techniques.
- An understanding of the range of valuation models used within the industry.
- The impact of public and private development, legislation, procurement, building design and construction on the property market.

Real World Experience

- Site visits and real-world case studies form an important part of the learning experience.
- You will take a 1 year placement year to get hands on experience of working within the real estate sector.
- Your final year dissertation will give you the chance to apply the theory to your own research project.

Career Opportunities

- Surveyor
- Valuer
- Letting Agent
- Sales Negotiator
- Property Manager
- Property Developer

Further study is required to become a Chartered Surveyor.

Why Ulster?

Ranked 2nd in the UK for Land and Property Management (Guardian University Guide, 2022).

Entry Requirements

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.
Visit our online prospectus at ulster.ac.uk for further details.
Work within the emerging renewable energy sector and create a cleaner environment to live in. Become an Engineer with the vision and skills necessary to design and manufacture engineering systems and machines for the renewables industry.

**I Will Learn**

- A broad understanding of all major renewable energy technologies and how they are used in the modern world.
- Design and CAD skills, including 3-D digital modelling, material selection and manufacturing considerations in design.
- How mechanics, renewable energy electronics and mathematics are applied to develop systems and products.

**Real World Experience**

- A placement year gives you practical experience to take into final year.
- Our modern, well-equipped labs give you experience of working on practical projects.
- The course has been designed with the input of employers, meaning you will have the skills the industry needs.

**Career Opportunities**

- Renewable Energy Engineering
- Manufacturing Engineer
- Power Industry Engineering
- Electrical Engineer
- Environmental Officer
- Project Manager

To become a Chartered Engineer, you will need to complete a Masters in an Engineering subject.

**Why Ulster?**

The course is accredited by the Institute of Engineering and Technology (IET).

**Entry Requirements**

Refer to the University’s General Entrance Requirements. The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC. Visit our online prospectus at ulster.ac.uk for further details.
### Screen Production

**BSc Hons**  
Belfast

**Full-Time**  
3 year FT degree or 4 year with placement year

Screen Production is a highly practical degree for those who want to work in film and television production. Combining critical thinking with practical production experience, you will learn specialist skills in live broadcast, cinematography, editing, screenwriting, and sound production.

**I Will Learn**

- The craft skills required for fiction, documentary and live television production including camera craft and composition, the art and craft of editing, audio and sound capture.
- Storytelling skills including screenwriting, genres, critique and how culture and politics are reflected in the media we produce and consume.
- The roles and skills required to produce a range of productions from short film, live television and documentary.

**Real World Experience**

- Experience life as a professional media practitioner with our state-of-the-art studio space, green screens and live broadcast facilities.
- This degree is part of the Ulster Screen Academy, allowing you to network and collaborate with other students/industry professionals.
- Experience life as a professional with an optional placement or study abroad to experience a new culture.

**Career Opportunities**

- Director  
- Producer  
- Writer/Researcher  
- Programme Development  
- Broadcast Operator  
- Shoot Editor

**Why Ulster?**

You will graduate with a large portfolio of work, equipping you with skills and confidence to begin your career.

**Entry Requirements**

Refer to the University’s General Entrance Requirements.  
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.  
Visit our online prospectus at ulster.ac.uk for further details.

### Social Policy

**BSc Hons**  
Belfast

**Full-Time**  
3 year FT degree or 4 year with placement year

Focussed on key questions around human need, welfare, inequality and wealth distribution, this course explore how we choose to structure and organise society. You will understand the complexities of policy making and its governance at regional, national, and international levels.

**I Will Learn**

- The theoretical knowledge and research skills not just to study but to tackle social problems.
- How key issues of poverty, inequality and social need are impacted by the theories, politics, governance, and delivery of welfare.
- How government and non-government bodies respond to social issues such as health, social care, housing, aging and disability.

**Real World Experience**

- Undertake a six-week work-based placement to practice key skills and understand challenges faced when implementing social policy.
- Opportunity to build professional skills and experience through optional 1 year work placement.
- Option to study abroad where you can explore issues and policy differences in an unfamiliar culture and system.

**Career Opportunities**

- Charity Officer  
- Civil Service  
- Policy Officer  
- Social Researcher

May provide some professional qualification exemptions in housing and health service management and a route to fast-track social work qualification.

**Why Ulster?**

Our degree is designed so that you experience all aspects of social policy in your first year and then specialise in your chosen field of expertise.

**Entry Requirements**

Refer to the University’s General Entrance Requirements.  
The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.  
Visit our online prospectus at ulster.ac.uk for further details.
Social Policy with Subject Combinations

Social Policy as a Major

Students will develop their understanding of the complexities of policy making and governance at regional, national and international levels.

Full-Time Entry Requirements

Grade requirements may vary depending on combination chosen. Please refer to the online prospectus at ulster.ac.uk for the full details.

**Technology with Design**

**BA Hons**

**Full-Time**

4 year FT degree including placement year

Learn how to design and engineer a product that can be brought to a commercial market. Technology with Design is about using creativity and innovation within engineering. The course combines engineering and technology principles with product design and development.

I Will Learn

- To conceive and develop creative, innovative designs and turn them into manufacturing reality.
- To use the latest design technology such as 3D CAD systems, Computer Aided Manufacturing, information design and data modelling.
- Market awareness - understanding the purpose of your product and who it is aimed at.

Real World Experience

- A work placement year will give you hands-on experience of working on product design projects.
- Teamwork is at the core of design and you will work in groups on projects and real-world case studies.
- Essential interpersonal and professional skills equipping you to work locally or internationally.

Career Opportunities

- Design Engineer
- Product Designer
- Manufacturing Engineer

Graduates wishing to pursue a career as a technology teacher go on to study a postgraduate qualification in technology teaching.

Why Ulster?

The course is accredited by the Institution of Mechanical Engineers (IMechE) and the Institution of Engineering and Technology (IET).

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.

**Textile Art, Design and Fashion**

**BA Hons**

**Full-Time**

3 year FT degree or 4 year with placement year

This course explores the breadth of skill, technology, knowledge, heritage and cultural significance associated with contemporary textiles and fashion. You will be challenged to explore tradition and innovation in five specialist workshops; embroidery, knit, garment construction, print and weave.

I Will Learn

- Practical skills through the five specialist workshops, supported by expert technical and academic staff.
- Low-tech and high-tech specialist skills in your chosen pathway as either an artist, textile designer or fashion designer.
- The historical, theoretical and cultural significance of textiles and fashion, working towards a more sustainable future.

Real World Experience

- Put theory into practice with an optional placement year in business or industry or avail of study abroad opportunities.
- Learn through demonstrations and masterclasses from visiting designers and design makers.
- Opportunity to showcase your work to, and liaise with, industry professionals through placements and competitions.

Career Opportunities

- Textile Designer
- Visual Merchandiser
- Fashion Designer
- Colourist
- Artist
- Costume Designer

Why Ulster?

Benefit from connections with a wide range of art, design and cultural organisations and businesses in Northern Ireland, Ireland and beyond.

Entry Requirements

Refer to the University’s General Entrance Requirements.

The minimum required to be considered for entry to this programme is the equivalent to three A-levels at CCC.

Visit our online prospectus at ulster.ac.uk for further details.

Possible interview and/or portfolio submission
People in Northern Ireland are so friendly and they complement you. You can be walking down the street and someone will smile when they see you coming and say they like your hair! You will feel welcome if you come to Ulster University. It won’t be too lonely for you. It won’t be too serious. You will get to have so much fun if you want to. Ulster is a great place to come to study.

General Entry Requirements

The general entrance requirements identify the minimum qualifications for application to a course at Ulster.

Undergraduate entry requirements

The minimum required to be considered for entry to our undergraduate programmes is the equivalent of three A-levels at CCC. However, some programmes will require higher grades and particular subjects.

Competence in written and spoken English is a General Entrance Requirement for entry to all courses, with some courses also requiring specific grades for mathematics.

Each programme will have slightly different requirements, both in terms of overall points and certain subjects, so it is always best to check the relevant subject in the undergraduate online-prospectus at ulster.ac.uk/courses.

ulster.ac.uk/apply/entry

The Centre for English Language Teaching (CELT) is here to help you.

We have a range of English language programmes designed to help international students improve your knowledge and understanding of the English language.

Our programmes’ design includes:
- Academic study
- Intensive English language preparation
- Study skills
- Cultural orientation
Achieve the entry level needed for your degree

Depending on your English language ability there are two programmes to choose from, Pre-sessional PLUS or Pre-sessional Standard.

You will be taught by experienced staff and will learn the necessary skills for university study whilst improving your English language ability and academic techniques.

What if I do not meet the English Language Requirements?

Improve your English for free while you pursue your course

Our pre-sessional English language courses enhance your understanding of the English language and develop key skills in writing academically.

Choose from our wider range of modules including:

- Academic Writing Skill
- Accuracy in Writing
- Cultural Awareness
- English for Everyday Life

In-sessional modules are free of charge, are available on all campuses and can be taken during semesters one and two.

UU Password English Language Test

If you have an offer to study with us that is conditional on meeting our English language requirements, you can take our Password English language test.

This online test, which takes just over three hours to complete, will test your reading, listening, speaking and writing.

Fees, Funding & Finance

Funding a place at university is one of the most important considerations for all students. In addition to Northern Ireland being one of the most affordable regions in the UK to live and study, we also offer highly competitive tuition fees.

Flexible payment

To help spread the cost of your studies, tuition fees can be paid back in five monthly instalments while you learn.

Payment options

Tuition fees are payable in pounds sterling (£GBP). We accept payment by Banker’s Draft, Direct Bank Transfer and also accept all major credit/debit cards except for American Express and Laser.

International deposit

International students who require a Tier 4 Student Visa are required to pay a £3,000 deposit.

Additional costs

Some courses may have additional costs which are not included in your tuition fee. These are detailed within the individual programme specifications as they may vary from course to course.

Where a course has additional mandatory expenses we make every effort to highlight them.

These may include:
- Residential visits
- Field trips
- Materials (e.g. art, design, engineering)
- Inoculations
- Security checks
- Computer equipment
- Uniforms
- Professional memberships etc.

Find out more:
ulster.ac.uk/global/apply/fees-and-finance
International Scholarships & Discounts

Full-time study

To help you with the cost of your studies, Ulster University offers an attractive scholarship and support package to all qualified international students.

How to apply

You don’t need to apply for all our scholarships - some discounts are awarded automatically if you are eligible. See opposite for details.

Other scholarships

There are a number of other scholarships available to international students and you can find details of them on our website.

Find out more:
ulster.ac.uk/global/apply/how/scholarships

International undergraduate scholarship

Available to all international (non-EU) students on a full-time undergraduate course delivered on one of our Northern Ireland campuses.

£2,000 Scholarship
Automatically applied as discount to your annual tuition fee.

International foundation programme scholarship

Available to all international (non-EU) students on the international foundation programme.

£2,000 tuition fee scholarship
£2,000 accommodation discount
Automatically applied as discount to your tuition fee.

Disclaimer

1. The University endeavours to deliver courses and programmes of study in accordance with the description set out in this prospectus.

The University’s prospectus is produced at the earliest possible date in order to provide maximum assistance to individuals considering applying for a course of study offered by the University. The University makes every effort to ensure that the information contained in the prospectus is accurate, but it is possible that some changes will occur between the date of printing and the start of the academic year to which it relates. Please note that the University’s website is the most up-to-date source of information regarding courses and facilities and we strongly recommend that you always visit the website before making any commitments.

2. Although reasonable steps are taken to provide the programmes and services described, the University cannot guarantee the provision of any course or facility and the University may make variations to the contents or methods of delivery of courses, discontinue, merge or combine courses and introduce new courses if such action is reasonably considered to be necessary by the University. Such circumstances include (but are not limited to) industrial action, lack of demand, departure of key staff, changes in legislation or government policy including changes, if any, resulting from the UK departing the European Union, withdrawal or reduction of funding or other circumstances beyond the University’s reasonable control.

3. If the University discontinues any courses, it will use its best endeavours to provide a suitable alternative course. In addition, courses may change during the course of study and in such circumstances the University will normally undertake a consultation process prior to any such changes being introduced and seek to ensure that no student is unreasonably prejudiced as a consequence of any such change.

4. From 2021, some students based in the Jordanstown campus are scheduled to transition campuses. Precise timings will be communicated as we progress through the final stages of the build of the enhanced Belfast campus.

5. The University does not accept responsibility (other than through the negligence of the University, its staff or agents), for the consequences of any modification or cancellation of any course, or part of a course, offered by the University but will take into consideration the effects on individual students and seek to minimise the impact of such effects where reasonably practicable.

6. The University cannot accept any liability for disruption to its provision of educational or other services caused by circumstances beyond its control, but the University will take all reasonable steps to minimise the resultant disruption to such services.
## Course Index

### A
- Accounting (Pathways) 62
- Accounting and Law 63
- Accounting and Marketing 63
- Accounting with Specialisms 63
- Animation 64
- Architectural Engineering 64
- Architectural Technology and Management 65
- Architecture 66
- Art and Design (Foundation Year for Specialist Degrees) 67
- Artificial Intelligence 67

### B
- Biology 68
- Biomedical Engineering 68, 69
- Biomedical Science 69
- Biomedical Science, Applied (Pathology) 70
- Building Surveying 70
- Business Analytics 71
- Business Economics 71
- Business Studies 72
- Business with Specialisms 72
- Business with Subject Combinations (Computing, Drama, Education or Irish) 73

### C
- Cinematic Arts 74
- Civil Engineering 75
- Communication and Counselling Studies 76
- Communication Management and Public Relations 76
- Communication, Advertising and Marketing 77
- Community Youth Work 77
- Computer Science 78
- Computer Science (Software Systems Development) 78
- Computing Science 79
- Computing Technologies 79
- Computing with Education 80
- Construction Engineering and Management 80
- Consumer Management and Food Innovation 81
- Criminology and Criminal Justice 81
- Culinary Arts Management 82

### D
- Drama 82
- Drama with Subject Combinations (Education, Irish, Marketing or Music) 83

### E
- Economics 84
- Education with Digital Learning 85
- Education with Subject Combinations (Business, Computing, Drama, English, Environmental Science, Geography, History, Irish, Journalism or Music) 84
- Electrical and Electronic Engineering 85
- Electronic Engineering 86
- Electronic Engineering with Enterprise Development 88
- Energy 88
- Engineering Management 89, 90
- English 90
- English with Subject Combinations (Education or History) 91
- English and History 92
- Environmental Health 92
- Environmental Science 93
- Environmental Science with Subject Combinations (Education or Psychology) 93

### F
- Finance and Investment Management 94
- Fine Art 95
- Food and Nutrition 95

### G
- Games Design 96
- Geography 96
- Geography with Subject Combinations (Education or Psychology) 97
- Graphic Design and Illustration 97

### H
- Health and Social Care Policy 98
- History 98
- History with Subject Combinations (Education or English) 99
- Hospitality Management, International 102
- Human Nutrition 99
- Human Resource Management 100

### I
- Information Technologies 100
- Interaction Design 103
- Interactive Computing 101
- Interactive Media 102
- International Hospitality Management 102
- International Travel and Tourism Management 103
- Irish Language and Literature 103
- Irish with Subject Combinations (Computing, Drama, Education, Marketing or Music) 104

### J
- Journalism 103
- Journalism with Subject Combinations (Education, English or History) 106

### L
- Language and Linguistics (with optional Specialism in Counselling Studies) 107
- Law 109
- Law with Subject Combinations (Accounting, Criminology, Business, Marketing or Politics) and International Studies 110, 111
- Leisure and Events Management 111

### M
- Management 112
- Marine Science 112
- Marketing 114
- Mechanical and Manufacturing Engineering 114
- Mechanical Engineering 115
- Mechanical Engineering with Enterprise Development 116
- Mechanical and Engineering 117
- Medicine (Graduate Entry) 117
- Medical, Personalised 122
- Music 118
- Music and Irish 118, 119
- Music, Sound and Technology 119

### N
- Nursing (Adult) 120
- Nursing (Mental Health) 120
- Occupational Therapy 121
- Ophthalmology 121
- Personalised Medicine 122
- Pharmaceutical Bioscience 122
- Pharmaceutical Sciences 123
- Pharmacy 124
- Photography with Video 124
- Physiotherapy 125
- Planning, Rehabilitation and Development 125
- Politics and International Studies 126
- Politics and International Studies with Criminology 126
- Product Design 127
- Psychology 127

### O
- Quantity Surveying and Commercial Management 128

### P
- Real Estate 128
- Renewable Energy Engineering 129

### Q
- Screen Production 130
- Social Policy 130
- Social Policy with Subject Combinations (Criminology or Sociology) 130
- Social Work (2 Year Accelerated Graduate Entry) 131
- Social Work (3 Year Undergraduate Entry) 132
- Sociology 132
- Sociology with Subject Combinations (Criminology or Politics and International Studies) 133
- Software Engineering 133
- Sport and Exercise Sciences 134
- Sport Studies 134
- Sport, Physical Activity and Health 135

### R
- Technology with Design 136
- Textile Art, Design and Fashion 136
- Travel and Tourism Management, International 103
